Working Class Network Society Communication Technology And The Information Have

Frank Webster, Basil Dimitriou

Working Class Network Society Communication Technology And The Information Have:

Working-Class Network Society Jack Linchuan Qiu, 2009-01-30 An examination of how the availability of low end information and communication technology has provided a basis for the emergence of a working class network society in China The idea of the digital divide the great social division between information haves and have nots has dominated policy debates and scholarly analysis since the 1990s In Working Class Network Society Jack Linchuan Qiu describes a more complex social and technological reality in a newly mobile urbanizing China Qiu argues that as inexpensive Internet and mobile phone services become available and are closely integrated with the everyday work and life of low income communities they provide a critical seedbed for the emergence of a new working class of network labor crucial to China s economic boom Between the haves and have nots writes Qiu are the information have less migrants laid off workers micro entrepreneurs retirees youth and others increasingly connected by cybercaf s prepaid service and used mobile phones A process of class formation has begun that has important implications for working class network society in China and beyond Qiu brings class back into the scholarly discussion not as a secondary factor but as an essential dimension in our understanding of communication technology as it is shaped in the vast industrializing society of China Basing his analysis on his more than five years of empirical research conducted in twenty cities Qiu examines technology and class networked connectivity and public policy in the context of massive urban reforms that affect the new working class disproportionately The transformation of Chinese society writes Qiu is emblematic of the new technosocial reality emerging in much of the Global South

Working-Class Network Society Jack Linchuan Qiu, 2023-09-19 An examination of how the availability of low end information and communication technology has provided a basis for the emergence of a working class network society in China The idea of the digital divide the great social division between information haves and have nots has dominated policy debates and scholarly analysis since the 1990s In Working Class Network Society Jack Linchuan Qiu describes a more complex social and technological reality in a newly mobile urbanizing China Qiu argues that as inexpensive Internet and mobile phone services become available and are closely integrated with the everyday work and life of low income communities they provide a critical seedbed for the emergence of a new working class of network labor crucial to China s economic boom Between the haves and have nots writes Qiu are the information have less migrants laid off workers micro entrepreneurs retirees youth and others increasingly connected by cybercaf s prepaid service and used mobile phones A process of class formation has begun that has important implications for working class network society in China and beyond Qiu brings class back into the scholarly discussion not as a secondary factor but as an essential dimension in our understanding of communication technology as it is shaped in the vast industrializing society of China Basing his analysis on his more than five years of empirical research conducted in twenty cities Qiu examines technology and class networked connectivity and public policy in the context of massive urban reforms that affect the new working class disproportionately

The transformation of Chinese society writes Qiu is emblematic of the new technosocial reality emerging in much of the Global South

Communication and Technology Lorenzo Cantoni, James A. Danowski, 2015-08-31 The primary goal of the Communication and Technology volume 5th within the series Handbooks of Communication Science is to provide the reader with a comprehensive compilation of key scholarly literature identifying theoretical issues emerging concepts current research specialized methods and directions for future investigations The internet and web have become the backbone of many new communication technologies often transforming older communication media through digitization to make them compatible with the net Accordingly this volume focuses on internet web technologies The essays cover various infrastructure technologies ranging from different kinds of hard wired elements to a range of wireless technologies such as WiFi mobile telephony and satellite technologies Audio visual communication is discussed with reference to large format motion pictures medium sized television and video formats and the small screen mobile smartphone There is also coverage of audio only media such as radio music and voice telephony text media in such venues as online newspapers blogs discussion forums and mobile texting and multi media technologies such as games and virtual reality

Routledge Handbook of Chinese Culture and Society Kevin Latham, 2020-02-27 The Routledge Handbook of Chinese Culture and Society is an interdisciplinary resource that offers a comprehensive overview of contemporary Chinese social and cultural issues in the twenty first century Bringing together experts in their respective fields this cutting edge survey of the significant phenomena and directions in China today covers a range of issues including the following State privatisation and civil society Family and education Urban and rural life Gender and sexuality and reproduction Popular culture and the media Religion and ethnicity Forming an accessible and fascinating insight into Chinese culture and society this handbook will be invaluable to students and scholars across a range of disciplines including anthropology sociology area studies history politics and cultural and media studies

Routledge Handbook of Chinese Media Ming-Yeh T. Rawnsley, Yiben Ma, Gary D. Rawnsley, 2015-04-24 The study of Chinese media is a field that is growing and evolving at an exponential rate Not only are the Chinese media a fascinating subject for analysis in their own right but they also offer scholars and students a window to observe multi directional flows of information culture and communications within the contexts of globalization and regionalization Moreover the study of Chinese media provides an invaluable opportunity to test and refine the variety of communications theories that researchers have used to describe analyse compare and contrast systems of communications The Routledge Handbook of Chinese Media is a prestigious reference work providing an overview of the study of Chinese media Gary and Ming Yeh Rawnsley bring together an interdisciplinary perspective with contributions by an international team of renowned scholars on subjects such as television journalism and the internet and social media Locating Chinese media within a regional setting by focusing on Greater China the People's Republic of China Taiwan Hong Kong Macau and overseas Chinese communities the chapters highlight the convergence of media and platforms in the region and emphasise the multi

directional and trans national character of media information flows in East Asia Contributing to the growing de westernization of media and communications studies this handbook is an essential and comprehensive reference work for students of all levels and scholars in the fields of Chinese Studies and Media Studies *Authoritarianism* Günter Frankenberg, 2020-11-27 In this thought provoking book Günter Frankenberg explores why authoritarian leaders create new constitutions or revise old ones Through a profound analysis of authoritarian constitutions as phenomena in their own right Frankenberg reveals their purposes the audiences they seek to address and investigates the ways in which they fit into the broader context of autocracies *Social Media in Rural China* Tom McDonald, 2016-09-13 China's distinctive social media platforms have gained notable popularity among the nation's vast number of internet users but has China's countryside been left behind in this communication revolution Tom McDonald spent 15 months living in a small rural Chinese community researching how the residents use social media in their daily lives His ethnographic findings suggest that far from being left behind many rural Chinese people have already integrated social media into their everyday experience Throughout his ground breaking study McDonald argues that social media allows rural people to extend and transform their social relationships by deepening already existing connections with friends known through their school work or village while also experimenting with completely new forms of relationships through online interactions with strangers particularly when looking for love and romance By juxtaposing these seemingly opposed relations rural social media users are able to use these technologies to understand capitalise on and challenge the notions of morality that underlie rural life *International Journal of China Studies*, 2012 *Internet entre État-parti et société civile en Chine* Wenjing Guo, 2015-10-15 Cet ouvrage instruit des affrontements permanents qui se jouent en Chine partir de groupes sociaux actifs sur Internet gr ce Internet et cause d Internet dans trois champs significatifs homosexualit protection de l environnement d fense du patrimoine culturel dans la ville de Canton Entre ouverture conomique et cl ture politique la mise en r seaux des acteurs malgr tous les contr les institu s laisse aux initiatives une place comprim e mais r elle et une autonomie relative de proposition **The British National Bibliography** Arthur James Wells, 2009 中国网络文化, 2009-07 Javnost, 2003 **The Network Society** Manuel Castells, 2004 Manuel Castells has drawn together a group of contributors to explore the patterns and dynamics of the network society in its cultural and institutional diversity *Encyclopedia of Information Ethics and Security* Marian Quigley, 2008 Rapid technological advancement has given rise to new ethical dilemmas and security threats while the development of appropriate ethical codes and security measures fail to keep pace which makes the education of computer users and professionals crucial The Encyclopedia of Information Ethics and Security is an original comprehensive reference source on ethical and security issues relating to the latest technologies Covering a wide range of themes this valuable reference tool includes topics such as computer crime information warfare privacy surveillance intellectual property and education This encyclopedia is a useful tool for students academics and professionals *Manuel Castells: From the*

informational city to the information age Frank Webster, Basil Dimitriou, 2004 These volumes bring together major critical responses to and engagement with the work of Manuel Castells Arguably the leading analyst of the current age Castells magnum opus *The Information Age* has been compared to the work of Karl Marx and Max Weber His concept of the network society has influenced much recent social science and his ideas have been adopted in political and policy circles The volumes provide an unparalleled guide to the work of Castells They demonstrate the roots of his thinking in Marxism and the shifts in his perspective The selection is based along two principles the chronological development of his thought and the sequence of his major publications Included here are critical engagements with Castells work on the urban question the city and grassroots Marxism the Information Age the network society power and identity the new economy and the sociology of social movements Volume 1 Marxism France and The Urban Question to The City and the Grassroots This volume addresses Castells engagement with the study of urban social movements protest in urban politics collective consumption states markets and welfare urban sociology and class Volume 2 From the Informational City to the Information Age This volume examines the theorizing of new industrial urban space the dynamics of urban change the roots of the network society the failure of social theory resisting globalization the development of global thinking globalization and identity Volume 3 The Information Age This volume addresses the character of information technologies the political economy of network society inequality and modernization in the information age the self and the net space flows and timeless space contested power grassroots environmental movements cognitions emotions and identities digital commerce and technology and cultural power

Berkshire Encyclopedia of Human-computer Interaction William Sims Bainbridge, 2004 Examines how people interact and communicate via computers robots information systems and the Internet Articles present current research in sociology behavioral science anthropology engineering computer science Written for the educated layperson [The Spectacle of Online Life](#) Danielle Antoinette Hidalgo, Christopher T. Conner, Matthew N. Hannah, 2025-11-20 The Spectacle of Online Life offers a groundbreaking exploration of the digital age's most pressing paradoxes connection and isolation democratization and control authenticity and performance Edited by Danielle Antoinette Hidalgo Christopher T Conner and Matthew N Hannah this volume assembles a diverse array of scholars to critically examine how online technologies shape reflect and amplify the complexities of modern society Chapters in the text draw on insights from the Frankfurt School Situationist International and contemporary media studies This collection delves into topics as varied as promotional livestreaming climate change conspiracy theories beauty influencer culture and the role of artificial intelligence in content moderation As the authors show digital platforms are a double edged sword both empowering grassroots movements and reinforcing systemic inequalities *Yearbook of International Organizations 2014-2015 (Volume 4)* Union Of International Associations, Union of International Associations, 2014-09-17 The Yearbook of International Organizations provides the most extensive coverage of non profit international organizations currently available Detailed profiles of international non

governmental and intergovernmental organizations IGO collected and documented by the Union of International Associations can be found here In addition to the history aims and activities of international organizations with their events publications and contact details the volumes of the Yearbook include networks between associations biographies of key people involved and extensive statistical data Providing both an international organizations and research bibliography Volume 4 cites over 46 000 publications and information resources supplied by international organizations and provides nearly 18 000 research citations under 40 subject headings This volume also includes a research bibliography on international organizations and transnational associations **Library & Information Science Abstracts** ,2005 **Asian/Pacific Book Development** ,1995
