Polak,2021-04-20 From one of the top HR specialists in the world comes this much needed guide to help people maximize productivity and increase revenue Whether it s in corporate America or in our own living rooms people are wasting time From the minute we wake up and check our Facebook page or emails before we even crawl out of bed to late at night when we stay up longer than we should watching our favorite show There s a precise moment that falls between working enough hours to be productive and working too many hours yielding a diminishing marginal return The difference between the person able to master this and most Americans that fail miserably at it is quality of life If one continues to work past this moment a negative return will ensue and that negative return produces guilt It lowers the amount of time for recreational activities and spending time with family We ve siloed productivity to our work life however the impact on our personal life is often loss An alarming 39% of workers in high tech companies believe they are depressed as reported by PC Magazine in December 2018 72% of people who have daily stress and anxiety say it interferes with their lives anxiety and stress alone have reduced productivity by 56% More than 80% of people have experienced some form of anxiety stress or depression in the workplace People are spending more time at work than at home or with their loved ones or if they are at home they are working They are always on As a result of this disparity people are not fully living their lives And the work life balance marketed by some HR consulting firms and employers simply does not work It s all work and no life Studies have also proven that when people are unhappy in their personal lives or careers their productivity goes down and everything and everyone around them suffers This causes a domino effect which trickles into every area of their lives Previous generations used to say Work harder but we ve now learned we must work smarter Polak has practiced and tested his methods in hundreds of

opportunities and has been paid millions by the largest corporations in the world to share these tools He feels that every individual and business should have these tools and will share them with us here
