Understanding Perspective Form Depth And Distance The Art Of Drawing:

Art of Drawing Understanding Perspective - O/P Giovanni Civardi, 2012 Giovanni Civardi has built a formidable reputation worldwide for his skills as both an artist and a teacher and here he provides a unique introduction to the art of drawing perspective and structure. There are sections on aerial linear central linear two point and three point perspective as well as chapters on using construction lines projected shadows and reflections. We also learn a little bit about how perspective and structure have been used throughout the history of art. Finally the artist shows through his own superb drawings how the techniques and principles learned can be put into practice. The focus of the book is very much on Giovanni's exquisite work and the accompanying text provides concise clearly written explanations of the subject including materials equipment and practical considerations and the authors in depth knowledge of the subject is apparent throughout. This is therefore an ideal introduction to drawing perspective for the absolute beginner as well as a source of information and inspiration for artists of all abilities.

Art of Drawing Giovanni Civardi, 2016-03-23 Since the first examples of prehistoric cave art we can see that animals have been a subject of great fascination for the artist. Every civilisation through history has sought to depict animal forms an obsession which persists in art today. Giovanni Civardi shares his expert advice on observing animal anatomy form and structure and employing perspective to capture a variety of wild animals with lifelike detail. This inspirational and easy to follow guide will suit beginners as well as more expert artists providing a comprehensive overview of the techniques including advice and suggestions for the practical aspects of drawing from life.
