Subsequently, the second part of the book examines many of the topics and research findings that are salient in the world today: political and international attitudes including terrorism, voting behavior, racism and prejudice, sexism and gender roles, and environmental attitudes. This thoroughly revised new edition features an entirely new chapter on implicit measures, attitudes, a new chapter on environmental attitudes, updated opinion poll data throughout the book, additional material on time trends in attitudes about many issues, and expanded updated sections on international attitudes reflecting the events of 9/11 and the subsequent invasions of Afghanistan and Iraq. Attitudes and Opinions: broad and interdisciplinary perspective makes this an ideal text in courses on attitudes, public opinion, survey research, or persuasion taught in a variety of departments including psychology, communication, marketing, sociology, and political science.

Minorities and Representation in American Politics Rebekah Herrick, 2016-01-29. Minorities and Representation in American Politics is the first book of its kind to examine underrepresented minorities with a framework based on four types of representation: descriptive, formalistic, symbolic, and substantive. Through this lens, author Rebekah Herrick looks at race, ethnic, gender, and sexual minorities not in isolation but synthesized within every chapter. This enables readers to better recognize both the similarities and differences of groups. Underrepresentation, Herrick also applies her unique and constructive approach to intergroup cooperation and intersectionality, highlighting the impact that groups can have on one another.

Uncompromising Positions Elizabeth Anne Oldmixon, 2005-12-02. Cultural factions are an intrinsic part of the fabric of American politics. But does this mean that there is no room for compromise when groups hold radically different viewpoints on major issues? Not necessarily. For example, in a June 2003 Time/CNN poll, 49% of respondents identified themselves as pro-choice and 46% identified as pro-life. But in the same poll, 81% indicated that abortion should be always legal or sometimes legal, suggesting that pro-life and pro-choice are not discrete positions but allow room for compromise. How do legislators legislate policy conflicts that are defined in explicitly cultural terms such as abortion, gay marriage, and school prayer? American political institutions are frequently challenged by the significant conflict between those who embrace religious traditionalism and those who embrace progressive cultural norms. *Uncompromising Positions: God, Sex, and the U.S. House of Representatives* investigates the politics of that conflict as it is manifested in the proceedings of the U.S. House of Representatives. Oldmixon traces the development of these two distinct cultures in contemporary American politics and discusses the decision-making and leadership tactics used by legislators to respond to this division of values. She argues that cultural conflict produces an absolutist politics that draws on religious values not amenable to compromise. One possible strategy to address the problem is to build bipartisan coalitions. Yet interviews with House staffers and House members as well as roll calls all demonstrate that ideologically driven politicians sacrifice compromise and stability to achieve short-term political gain. Noting polls that show Americans tend to support compromise positions, Oldmixon calls on House members to put aside short-term political gain, take their direction from the example of the American public, and focus

on finding viable solutions to public policy not zealous ideology
