Analogues for Planetary Exploration W. Brent Garry, Jacob E. Bleacher, 2011 Where on Earth is it like Mars How were the Apollo astronauts trained to be geologists on the Moon Are volcanoes on Earth just like the ones on other planets The exploration of our solar system begins in our own backyard Discoveries on other planetary bodies cannot always be easily explained Therefore geologic sites on this planet are used to better understand the extraterrestrial worlds we explore with humans robots and satellites Analogues for Planetary Exploration is a compilation of historical accounts of astronaut geology training overviews of planetary geology research on Mars educational field trips to analog sites plus concepts for future human missions to the Moon This Special Paper provides a great overview of the science training and planning related to planetary exploration for students educators

researchers and geology enthusiasts After all as we learn about the solar system we can better understand our own planet Earth

Early Life on Earth David Wacey,2009-01-29 When did life first appear on Earth and what form did it take The answer to this intriguing and fundamentally important question lies somewhere within the early Archean rock record The young Earth was however a very different place to that we know today and numerous pitfalls await our interpretation of these most ancient rocks The first half of this practical guide equips the reader with the background knowledge to successfully evaluate new potentially biological finds from the Archean rock record Successive steps are covered from locating promising samples in the field through standard petrography and evaluation of antiquity and biogenicity criteria to the latest state of the art geochemical techniques The second half of the guide uniquely brings together all the materials that have been claimed to comprise the earliest fossil record into an easily accessible fully illustrated format This will be a handbook that every Archean geologist palaeobiologist and astrobiologist will wish to have in their backpack or on their lab bench
