Death Dust William C. Potter, Sarah Bidgood, Samuel Meyer, Hanna

Notte,2023-12-19 The postwar period saw increased interest in the idea of relatively easy to manufacture but devastatingly lethal radiological munitions whose use would not discriminate between civilian and military targets Death Dust explores the largely unknown history of the development of radiological weapons RW weapons designed to disperse radioactive material without a nuclear detonation through a series of comparative case studies across the United States the Soviet Union the United Kingdom Iraq and Egypt The authors illuminate the historical drivers of and impediments to radiological weapons innovation They also examine how new dire geopolitical events such as the war in Ukraine could encourage other states to pursue RW and analyze the impact of the spread of such weapons on nuclear deterrence and the nonproliferation regime Death Dust presents practical necessary steps to reduce the likelihood of a resurgence of interest in and pursuit of radiological weapons by state actors

Insight Turkey 2018 - Spring 2018 (Vol. 20, No.2) , The Gulf is a sub region consisting of Saudi Arabia and five small states namely Kuwait Qatar Oman the United Arab Emirates and Bahrain This sub region emerged after the British recognized the independence of the above mentioned small entities between 1961 and 1971 Having an abundant amount of natural resources i e oil and natural gas the Gulf States are among the richest countries in the world therefore they do not share the poverty and political instability widely found in the Middle East The Gulf is a sub region consisting of Saudi Arabia and five small states namely Kuwait Qatar Oman the United Arab Emirates and Bahrain This sub region emerged after the British recognized the independence of the above mentioned small entities between 1961 and 1971 Having an abundant amount of natural resources i e oil and natural gas the Gulf States are among the richest countries in the world therefore they do not share the poverty and political instability widely found in the Middle East The sub region was institutionalized with the establishment of the Gulf Cooperation Council GCC in 1981 as a result of three important regional developments the Iranian Islamic Revolution in 1979 the Soviet invasion of Afghanistan in 1979 and the outbreak of the Iran Iraq war in 1980 The GCC was mainly designed as a security institution to counter regional threats emanating from the other side of the Persian Gulf namely Iran However after the invasion of Kuwait by Saddam s Iraq the Gulf States became alarmed and asked the United States to protect their political independence against all regional threats After the collapse of the Cold War the Gulf States initiated a process of regional integration and significant steps were taken to achieve a monetary and economic union At the end of the first decade of the 21st century the Gulf States decided to introduce al khaleeji as the common currency However this promising process was halted with the eruption of the Arab uprisings and revolutions The Arab uprisings have imposed the greatest threat to the unity of the Gulf For the first time in their history the Gulf States began to be challenged politically from not only external threats but also internal dynamics The process of sweeping changes throughout the Middle East instigated great concern in the Gulf the most pro status quo states in the region During the first two years 2011 2013 the Gulf States tried to follow a defensive policy against the powers of change They strived to keep the wave of uprisings away from the Gulf After they had overcome their shock and confusion they began to take initiatives to

intervene into the regional crises Some of the Gulf countries especially Saudi Arabia and the UAE organized a military coup against the region's first and only democratically elected government of Muhammad Morsi placing Egypt in an economically and politically vulnerable position Furthermore these two countries interfered into the domestic affairs of other regional states in crisis such as Libya Yemen and Lebanon They succeeded in turning the Arab Spring into an Arab Winter by eliminating the legitimizing and weakening the carriers of reform the Muslim Brotherhood and its affiliates throughout the Arab world Thus indirectly they suppressed the moderate non state actors in favor of radical actors and terrorist groups such as ISIS and al Qaeda Saudi Arabia and the UAE went further and tried to redesign the region through their ambitious regional policies Encouraged by the United States and Israel they gained the support from countries that are dependent on their petro dollars such as Bahrain Egypt and Jordan These two states attempted to lead both the Arab and Muslim worlds and therefore mobilized their only asset billions of petro dollars to buy influence in the region In order to be able to lead the Arab world Saudi Arabia and the UAE had to delegitimize the Muslim Brotherhood and affiliated groups and political parties the main carriers of popular demonstrations throughout the Arab world Therefore they declared all these political groups and social movements as terrorist organizations They even attempted to ostracize those regional countries i e Turkey and Qatar that support these popular movements while at the same time forcing other countries to support their regional policies The first target was Qatar the Arab state most open to liberal values and diversity In 2014 Saudi Arabia and the UAE forced Qatar to cut its relations with regional non state actors such as the Brotherhood and Hamas but the Obama Administration did not allow Riyadh and Abu Dhabi to instigate a crisis However after Trump came to power these two states reintroduced the crisis and imposed their blockade against Qatar Nevertheless with the strong support of Turkey and Iran two significant regional powers the policy of Saudi Arabia and the UAE has failed As a result Riyadh and Abu Dhabi have shattered the unity of not only the Arabs but also that of the Gulf While Oman maintained its neutral position by following an active neutrality policy and playing a mediating role Kuwait tried to prevent the breakup of the Gulf region Although it has not declared so publicly Kuwait rejects the regional design attempts by the Saudi and Emirati governments To lead the Muslim world Saudi Arabia led the foundation of the so called Islamic Military Alliance comprising of more than 50 nations However it became clear in a short time period that this attempt was not a real Islamic alliance to bring stability to the region but a measure to fortify a Sunni bloc against Iranian regional expansionism That is Saudi Arabia tried to utilize the Sunni Islamic understanding for its regional policies It is not difficult to claim that Saudi Arabia and the UAE will not be able to realize this project The possibility of ending up with the disillusionment of the Arab and Muslim streets and alienation of some Sunni countries is quite high Overall the project which has been executed with the support of the U S and Israel is an attempt to deepen the sectarian strife between Shias and Sunnis and it will not bring political stability or peace to the region In conclusion in order to protect themselves against regional threats and to establish a balance of power against other regional powers the small

Gulf States must form military alliances and political institutions with other regional countries First they need to maintain the unity of the Gulf Second Riyadh and Abu Dhabi should encourage other regional actors to contribute to the regional stability Saudi Arabia and the UAE have to end the Qatari crisis a lose lose crisis manufactured by these two states since it is undermining the sub region s security and economic outlook Third the Gulf States must keep the sub region as the island of political and economic stability in the chaotic Middle East and contribute to the gradual and peaceful reconstruction of the region To achieve this objective the Gulf States must stop using conflicting political discourses Considering all these important developments the Gulf region has attracted a lot of attention among the scholars and Insight Turkey through this special issue aims to cover some of the main topics such as the Qatari crisis the rise of sectarianism the foreign policies of the pro status quo countries and the relations of these states with Turkey The situation in the Gulf region gets more complicated as time passes and the division between blocks has started to become deeper Ufuk Uluta and Burhanettin Duran provide a comprehensive analysis of all of the actors including here global and regional ones which are currently included in the Gulf affairs Without any doubt the Qatari crisis has played a decisive role in manifesting the existing regional rifts In the light of this Kristian Coates Ulrichsen and Marwan Kabalan focus on this crisis which started with the blockade of Qatar by the so called Quartet i e Saudi Arabia the UAE Bahrain and Egypt With a special focus on the Gulf and U S policies respectively both of the authors provide valuable insights regarding the crisis and the future of the Gulf The main division in the region comes as a result of the rise of sectarianism which has transformed into local sectarian and regional geopolitical confrontations among some Gulf States mainly Saudi Arabia and the UAE and Iran Emad Kaddorah in his commentary argues that the regional conflict over the Gulf region is geo sectarian meaning that it is a geopolitical contest which has recently been engulfed by a sectarian dimension Saudi Arabia remains one of the main actors in the region and it deserves special attention The articles of Simon Mabon and May Darwich help to better understand the domestic and foreign policies of Saudi Arabia Mabon looks at the actions of the new crown prince to explore the impact of Bin Salman s influence on both the Kingdom and the Middle East more broadly On the other hand Darwich analyzes the Saudi intervention in Yemen a war that many have started to consider as Saudis Vietnam war More specifically May Darwich offers an alternative explanation for the abrupt Saudi aggressiveness toward Yemen and argues that this intervention is driven by the Saudi leadership aims to assert the Kingdom s status as a regional power in the Middle East Despite Saudi Arabia the UAE is another important actor in the region whose impact is underestimated By focusing on the military bases built by the UAE in the Horn of Africa smail Numan Telci and Tuba zt rk Horoz provide an explanation on the real motivations behind the Emirati foreign policies which have started to focus more on hard power a deviation from the perpetual foreign policies of the other Gulf States Amidst the shattering order of the Gulf Turkey has pursued a careful and balancing policy finding itself sided neither with the Saudi led block nor with the Iranian led block At this point it is important to understand the background of the Turkey GCC states

relations and Zeynep Oktav in her article brings a detailed analysis of the root causes that led to the policy divergences between Turkey and some GCC states i.e. Saudi Arabia and the UAE. This special issue of *Insight Turkey* includes five off-topic pieces which indeed are closely related with the Gulf affairs. In his commentary M. Akif Kireci focuses on the initiatives undertaken by Turkey after Trump declared Jerusalem as the capital of Israel and how the divided Gulf States left aside their disparities to protect the rights of Palestinians against this fallacious decision. The article of Osama Anter Hamdi complements Kireci's commentary as the author provides a comprehensive analysis of the American foreign policy toward the Arab-Israeli conflict since the establishment of the Israeli state. Iran of course deserves special attention as the foreign policies of the Gulf States are mostly designed to balance the Iranian influence in the region. The three remaining articles of the issue deal with U.S.-Iranian relations, the nuclear deal, and how Iran and Turkey serve as a model of emulation for other states in the region. Written by M. Demir Farhad Rezaei and Ibrahim Khatib and Asad Ghanem respectively, these three articles are worth reading in order to better understand the Iranian policies. *The Gulf on the Verge: Ambitions, Crises, and Shattering Order* provides timely analyses for a region that once again has become the linchpin of global affairs. We are confident that this issue of *Insight Turkey* will be a great contribution to the Gulf studies.

Sanctions as War, 2021-12-20

Sanctions as War: Anti-imperialist Perspectives on American Geo-Economic Strategy offers the first comprehensive account of economic sanctions as a tool for exercising American power on the global stage. Since the 1980s, the US has steadily increased its reliance on economic sanctions or the imposition of extensive financial penalties for violation of given rules to fight its foreign policy battles. Perceived as a less costly and damaging alternative to kinetic military engagement, economic sanctions have been levied against over 25 other countries. In the process, sanctions have destroyed thousands of innocent lives and wreaked inestimable damages to civil society. To understand how sanctions function as a war-making strategy, this collection offers chapters that address the theory and history of economic sanctions as well as chapter-length case studies of sanctions exercised against the civilian populations of Iraq, Venezuela, and other nations. Contributors are Shireen Al Adeimi, Tim Beal, Renate Bridenthal, Jesse Bucher, Stuart Davis, Gregory Elich, Manu Karuka, Jeremy Kuzmarov, Fangfei Lin, Washington Mazorodze, Tanner Mirrlees, Corinna Mullin, Junki Nakahara, Nima Nakhaei, Immanuel Ness, Sarah Raymundo, Muhammad Sahimi, Saif Shahin, Greg Shupak, Gregory Wilpert, Zhun Xu, Helen Yaffe.

The United States in the Middle East, Interests and Obstacles Seth P. Tillman, 1982. For an understanding of America's role in the Middle East in the past decade, this is the best book available: informed, carefully documented, objective. It does not dodge the tough questions. Foreign Affairs. Dr. Tillman's book is a book for all seasons in the Middle East, good and bad, and it is to be commended to any student interested in the region. The key policy debates relating to the Arab-Israeli conflicts, which we confront today and are likely to have to cope with for some time, are all discussed. *Middle East Journal*. A very important book published at a crucial juncture on a most significant topic: U.S. foreign policy toward the Arab-Israeli conflict, uniquely useful. Choice. It sets a standard that

subsequent treatises will have to corroborate or contest *Journal of Palestine Studies* *Congressional Record* United States. Congress, 2001

I nove quartieri di Gerusalemme Matthew Teller, 2023-11-10T00:00:00+01:00 Quando si parla di Gerusalemme i punti di vista sono quasi sempre gli stessi la Città Santa la città dell'invisibile e della spiritualità una città di cui si fa un'enorme fatica a capire la vera realtà fisica La carta geografica sempre suddivisa in quattro quartieri cristiano musulmano armeno ed ebraico sembra alludere a una storia di contrapposizioni secolari disegnate su base etnico religiosa Ma chi vive e conosce Gerusalemme entra in contatto con una realtà infinitamente più ricca sfuggente e contrastata ci racconta Matthew Teller in questo libro E al di là della calca e della frenesia dei suoi principali siti religiosi molti dei suoi quartieri sono poco conosciuti dai visitatori la sua gente ignorata e le loro storie non raccontate I nove quartieri di Gerusalemme spaziando dall'antichità al presente evoca questa profondità e diversità culturale Teller lascia che le comunità della Città Vecchia parlino da sole le sue voci africane e indiane le sue comunità greche armene e siriane le sue oppresse famiglie zingare e i suoi mistici sufi Discute le fonti della santità di Gerusalemme e le idee spesso sorprendentemente laiche e secolari che hanno plasmato la vita all'interno delle sue mura Un libro che cambia radicalmente la nostra visione di una città su cui da secoli sono puntati gli occhi del mondo intero
