Butler, 2024-08-19 **Universal Human Rights in Theory and Practice** Jack Donnelly, 2013-04-12 In the third edition of his classic work revised extensively and updated to include recent developments on the international scene Jack Donnelly explains and defends a richly interdisciplinary account of human rights as universal rights He shows that any conception of human rights and the idea of human rights itself is historically specific and contingent Since publication of the first edition in 1989 *Universal Human Rights in Theory and Practice* has justified Donnelly's claim that conceptual clarity the fruit of sound theory can facilitate action At the very least it can help to unmask the arguments of dictators and their allies **The Oxford Handbook of International Law and Development**, 2023-11-11 Since the mid twentieth century international law and international development have become two of the most prominent secular languages through which aspirations about a better world are articulated They have shaped the both the treatment and self understanding of the developing world often by positing the West as a universal model against which developing states their citizens and natural environments should be measured and disciplined In recent years however critical scholars have investigated the deep linkages between the concept of development the doctrines and institutions of international law and broader projects of ordering at the international level They have shown how the leading models de radicalise if not derail initiatives to redefine development and pursue other forms of global well being Bringing together scholars from both the Global South and the Global North the contributions in this Handbook invite readers to consider the limits of common normative and developmentalist assumptions At the same time the Handbook demonstrates how disparate but still identifiable set of ideas imaginaries norms and institutional practices related to law development and international governance shape today's profoundly unequal material conditions threatening the future of human and nonhuman life on the planet The book focuses on five distinct areas existing disciplinary frameworks institutions and actors regional theatres of international law and development competing social and economic agendas and alternative futures Offering a unique overview of the field of international law and development and assembling major critical historical and political economic insights this Handbook is an unmissable resource for scholars of international law international relations development studies and global history as well as anyone interested in the past present and future of our world **Human Rights in the World Community** Richard Pierre Claude, Burns H. Weston, 2006-10-04 This unique textbook seeks to promote students critical and analytical skills and to provide a teacher friendly resource featuring in depth scholarly introductions to each chapter multiple questions for discussion and reflection and an extensive bibliography and annotated filmography A History of Science in Society Andrew Ede, Lesley B. Cormack, 2012-01-01 This bestselling book traces the history of science through its continually changing place in society and explores the links between the pursuit of knowledge

and the desire to make that knowledge useful **Global Humanitarianism** Daniel Robert DeChaine, 2005-01-01 In Global Humanitarianism Daniel Robert DeChaine undertakes an historical cultural analysis of humanitarian NGO rhetoric and politics He focuses his study specifically on MZdecins Sans Fronti_res and the International Campaign to Ban Landmines This book besides being the first of its kind offers to the disciplines of political science cultural studies and sociology a model with which to consider the political and social roles of NGOs in the ever changing global community
