Resource Management in Future Internet Vladimir Poulkov,Ramjee Prasad,2022-09-01 Future Internet and Internet of Things set out a new vision for connectivity real time applications and services Data procured from the use of a large number of heterogeneous physical and virtual devices must be real time processed and analyzed for the goal of effective resource management and control while maintaining the required performance and quality of service In addition the development of the communication networks towards heterogeneous and new generation broadband connectivity brings up new requirements towards the way of managing and controlling of the available resources Thus for the effective resource management in future internet novel approaches must be proposed and developed It could be seen that recently a considerable amount of effort has been devoted on behalf of industry and academia towards the research and design of methods for effective management of resources in internet and multimedia communications The book reviews some specific topics in the field of future internet and internet technologies that are closely related to the issue of finding effective solutions for the management of resources and performance Technical topics discussed in the book include Future Internet Technologies Internet of things Multimedia Networks Wireless Access Networks Software Communications Positioning and Localization in Communications Resource Management Resource Management in future Internet is recommended for specialists working in the field of information and communication industries as well as academic staff and researchers working in the field of multimedia communications and telecommunication networks

Dying in America Institute of Medicine,Committee on Approaching Death: Addressing Key End-of-Life Issues,2015-03-19 For patients and their loved ones no care decisions are more profound than those made near

the end of life Unfortunately the experience of dying in the United States is often characterized by fragmented care inadequate treatment of distressing symptoms frequent transitions among care settings and enormous care responsibilities for families According to this report the current health care system of rendering more intensive services than are necessary and desired by patients and the lack of coordination among programs increases risks to patients and creates avoidable burdens on them and their families Dying in America is a study of the current state of health care for persons of all ages who are nearing the end of life Death is not a strictly medical event Ideally health care for those nearing the end of life harmonizes with social psychological and spiritual support All people with advanced illnesses who may be approaching the end of life are entitled to access to high quality compassionate evidence based care consistent with their wishes Dying in America evaluates strategies to integrate care into a person and family centered team based framework and makes recommendations to create a system that coordinates care and supports and respects the choices of patients and their families The findings and recommendations of this report will address the needs of patients and their families and assist policy makers clinicians and their educational and credentialing bodies leaders of health care delivery and financing organizations researchers public and private funders religious and community leaders advocates of better care journalists and the public to provide the best care possible for people nearing the end of life

Digital Insurance Bernardo Nicoletti, 2016-01-26 This book explores the ways in which the adoption of new paradigms processes and technologies can lead to greater revenue cost efficiency and control as well as improved business agility in the insurance industry

Accessibility in Sport Management Simon Darcy, Paul J. Kitchin, Tracey J. Dickson, Juan Luis Paramio-Salcines, 2025-04-17 This book introduces the fundamental principles of accessible and inclusive sport venue management with a focus on people with disability It offers a social ecological analysis of how governments businesses the disability social movement sports organisations and their stakeholders can and should make sport more accessible and inclusive Using a critical disability studies perspective this book highlights recent global human rights initiatives challenges and ongoing resistance to the drive for accessibility in sport venue management Drawing on the latest research it takes a step by step look at the sporting experience including pre experience planning travel to and from an event the built environment the experience itself and online participation and considers how each phase might be made more accessible and inclusive and how commercial and social justice considerations intersect Addressing the needs of participants consumers employees volunteers and organisations this book is essential reading for any student researcher practitioner or policymaker with an interest in sport management disability sport event management corporate social responsibility disability studies or human rights
