The Archaeology of Verbal and Nonverbal Meaning Paolo Brusasco, 2007 A major argument of this book is that nonverbal meaning plays a fundamental role in the functioning of human societies thus rejecting the predominance of textual meaning and ethnocentric Eurocentric models currently employed in the interpretation of past behaviour and architecture By using

the unique evidence from Mesopotamian domestic space where both house layouts and family archives were recovered as well as ethnographies from modern Near Eastern societies Paolo Brusasco investigates how verbal and nonverbal meaning interrelate in the archaeological past In line with Peirce Wittgenstein and Derrida as well as recent research in corporeal semantics and social psychology the book claims that nonverbal spatial signs have a profound bearing on ancient textual meanings Moreover through the evidence of house clay models house projects actual houses and archives the author shows how different semiotic systems may produce alternative perspectives of the world while the linguistic elaborative power of processing nonverbal signs is also explored This book contributes to understanding how we should critically use social techniques and ethnographic analogy to interpret the archaeological past and it will be a vital resource for all those interested in the interaction between language and the material world

Bronze Age Anthropomorphic Figurines from Umm El-Marra, Syria Alice Petty, 2006 The subject of this volume is the corpus of 203 Bronze Age anthropomorphic clay figurines and figurine fragments recovered from various archaeological contexts at Umm el Marra Syria between 1994 and 2002 As a class of objects anthropomorphic clay figurines are an important subject of study because they are very common in the archaeological record and yet they are poorly understood Figurines appear to have been an integral part of daily life for the people of the ancient Near East as early as the Neolithic period and continued to be crafted and used for millennia Despite this ubiquity many crucial questions about the figurines have yet to be answered Who or what is being represented Why does their appearance change over time and what is the relationship between their style and chronology What were these figurines used for and what can these enigmatic objects tell us about the lives and beliefs of ancient people

is made to religious and scriptural justifications for the violation or preservation of rights Fontaine urges attention to the priority of the sufferer in adjudicating meaning and turns to the little texts of daily ethics rather than grand theological abstractions in order to place scriptures in meaningful conversation with the concrete realities of our world The Earth and Its Peoples Richard W. Bulliet, Pamela Kyle Crossley, Daniel R. Headrick, Professor of Social Sciences and History Daniel R. Headrick, Steven W. Hirsch, Lyman L. Johnson, David Northrup, 2007-02 The Earth and Its Peoples was one of the first texts to present world history in a balanced global framework shifting the focus away from political centers of power This truly global text for the world history survey course employs a fundamental theme the interaction of human beings and the environment to compare different times places and societies Special emphasis is given to technology in its broadest sense and how technological development underlies all human activity Highly acclaimed in their fields of study the authors bring a wide array of expertise to the program A combination of strong scholarship and detailed pedagogy gives the book its reputation for rigor and student accessibility The Fourth Edition features extensive new coverage of world events including globalization in the new millennium Coverage of China has also been extensively reorganized and rewritten **Orientalia** ,2002 SMEA ,2007 Images and Prophecy in the Ancient Eastern Mediterranean Martti Nissinen, Charles Edward Carter, 2009 Sign 100 559
