Workers After Workers States Labor And Politics In Postcommunist Eastern Europe:

Workers After Workers' States Stephen Crowley, David Ost, 2001 Why given political freedom coupled with adverse economic change has labour been so quiescent since the fall of communism in Eastern Europe Through the use of case studies this text explores the extent of these weaknesses and the relationship between labour and politics in these countries

The Defeat of Solidarity David Ost, 2006 How did the fall of communism and the transition to capitalism in Eastern Europe affect the people who experienced it Informed by years of fieldwork in Polish towns interviews with workers and politicians and reading of primary sources Ost's book gives voice to those who have not been heard **Labour and Social Transformation in Central and Eastern Europe** Violaine Delteil, Vassil Nikolaev Kirov, 2016-07-22 Over a quarter of a century after the fall of the Berlin Wall and 10 years after their accession to the European Union EU Central and Eastern Europe Countries CEECs still show marked differences with the rest of Europe in the fields of labour work and industrial relations This book presents a detailed and original analysis of labour and social transformations in the CEECs By examining a wide range of countries in Central Europe Labour and Social Transformation in Central and Eastern Europe offers a comprehensive and contrasting view of labour developments in Central and Eastern Europe Chapters explore three related issues The first deals with the understanding of the complex process of Europeanization applied in the sphere of labour employment and industrial relations The second issue refers to the attempt to link the Europeanization approach with an analysis mobilizing the theoretical concept of dependent capitalism's The third issue refers to the cumulative trends of labour weakening and labour awakening that has emerged in particular in the aftermath of the crisis beginning in 2007-2008 This book will be of interest to academics policy makers and stakeholders at European and national level in the EU member states

Working through the Past Teri L. Caraway, Maria Lorena Cook, Stephen Crowley, 2015-11-16 Democratization in the developing and postcommunist world has yielded limited gains for labor Explanations for this phenomenon have focused on the effect of economic crisis and globalization on the capacities of unions to become influential political actors and to secure policies that benefit their members In contrast the contributors to *Working through the Past* highlight the critical role that authoritarian legacies play in shaping labor politics in new democracies providing the first cross regional analysis of the impact of authoritarianism on labor focusing on East and Southeast Asia Eastern Europe and Latin America Legacies from the predemocratic era shape labor's present in ways that both limit and enhance organized labor's power in new democracies Assessing the comparative impact on a variety of outcomes relevant to labor in widely divergent settings this volume argues that political legacies provide new insights into why labor movements in some countries have confronted the challenges of neoliberal globalization better than others *Informal Relations from Democratic Representation to Corruption* Zdenka, 2014-04-15 Informal relations have been one of the major research topics of the social sciences since the 1990s In order to allow for meaningful comparisons between different combinations of the positive and negative effects of

informal relations on democratic representation this book focuses on post socialist Central and Eastern Europe as a particular region where formal democratic rules have been established but competing informal rules are still strong A broad spectrum of related analytical concepts is discussed from different perspectives and from different academic disciplines then empirical cases of the relationship between informal relations and democratic representation are analyzed The contributions span the whole continuum as we perceive it from civil society networks seen as supporting democratic representation to the perversion of democratic representation through political corruption The final part of the book takes a closer look at corruption through four case studies from Russia Activists in Transition Thushara Dibley,Michele Ford,2019-12-15

Activists in Transition examines the relationship between social movements and democratization in Indonesia Collectively progressive social movements have played a critical role over in ensuring that different groups of citizens can engage directly in and benefit from the political process in a way that was not possible under authoritarianism However their individual roles have been different with some playing a decisive role in the destabilization of the regime and others serving as bell weathers of the advancement or otherwise of Indonesia s democracy in the decades since Equally important democratization has affected social movements differently depending on the form taken by each movement during the New Order period The book assesses the contribution that nine progressive social movements have made to the democratization of Indonesia since the late 1980s and how in turn each of those movements has been influenced by democratization **The Oxford Handbook**

of Employment Relations Adrian Wilkinson,Geoffrey Wood,Richard Deeg,2014-03-13 There have been numerous accounts exploring the relationship between institutions and firm practices However much of this literature tends to be located into distinct theoretical traditional silos such as national business systems social systems of production regulation theory or varieties of capitalism with limited dialogue between different approaches to enhance understanding of institutional effects Again evaluations of the relationship between institutions and employment relations have tended to be of the broad brushstroke nature often founded on macro data and with only limited attention being accorded to internal diversity and details of actual practice The Handbook aims to fill this gap by bringing together an assembly of comprehensive and high quality chapters to enable understanding of changes in employment relations since the early 1970s Theoretically based chapters attempt to link varieties of capitalism business systems and different modes of regulation to the specific practice of employment relations and offer a truly comparative treatment of the subject providing frameworks and empirical evidence for understanding trends in employment relations in different parts of the world Most notably the Handbook seeks to incorporate at a theoretical level regulationist accounts and recent work that link bounded internal systemic diversity with change and at an applied level a greater emphasis on recent applied evidence specifically dealing with the employment contract its implementation and related questions of work organization It will be useful to academics and students of industrial relations political economy and management **State and Society in Post-Socialist Economies J.**

Pickles,2008-01-17 *State and Society in Post Socialist Economies* focuses on the reform economies of post socialist Europe It looks at how various projects of communism that emerged in have been and are still being dismantled and recomposed by alternative visions institutions and practices of capitalist market economies and democratic polities *Organized Labor in Southeast Asia* Teri L. Caraway,2023-02-23 This Element analyzes the economic and political forces behind the political marginalization of working class organizations in the region It traces the roots of labor exclusion to the geopolitics of the early postwar period when many governments rolled back the left and established labor control regimes that prevented the reemergence of working class movements This Element also examines the economic and political dynamics that perpetuated labor s containment in some countries and that produced a resurgence of labor mobilization in others in the 21st century It also explains why democratization has had mixed effects on organized labor in the region and analyzes three distinctive anatomies of contention of Southeast Asia s feistiest labor movements in Cambodia Indonesia and Vietnam **Digital**

Labour Markets in Central and Eastern European Countries Beata Woźniak-Jęchorek,Kamilla

Marchewka-Bartkowiak,2023-01-19 This book examines the impact of the COVID 19 pandemic on changing labour markets and accelerating digitalisation of the workplace in Central and Eastern Europe It provides an innovative and enriching take on the work experience from the pandemic times and discusses the challenges of ongoing changes in labour markets and workplaces in a way that is not covered by the extant literature The impact of the COVID 19 pandemic and digitalisation on labour market outcomes is analysed throughout 12 chapters by 34 labour market experts from various CEE countries Most chapters are based on empirical methods yet are presented in an easy to follow way to make the book also accessible for a non scientific audience The volume addresses the three key goals to better understand the impact of the COVID 19 pandemic on the adoption of workplace digitalisation in the selected labour markets in CEE countries and the potential trade offs facing those who do and do not have access to this benefit to complement the labour market research by incorporating the outputs of changing demand for skills to contribute new insight into policies and regulations that govern the future of work The book argues that the recent COVID 19 pandemic was a sombre reminder of the relevance and necessity of digital technology for a variety of sectors and market activities It concludes that to downside the risks of vanishing jobs as well as to minimise the threats and maximise the opportunities of digitalisation in CEE countries labour market partners need to consider an effective governance tool in terms of inclusive access to the digital environment re skilling and balanced regulations of the more problematic facets of digital work The book will be of interest to postgraduate researchers and academics in the fields of labour economics regional economics and macroeconomics Additionally due to the broader policy implications of the topic the book will appeal to policymakers and experts interested in labour economics The Introduction Chapters 4 and 12 of this book are freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4 0 license **The Burdens of Freedom** Padraic

Kenney,2013-04-04 From Estonia to Macedonia this book is a history of 15 countries as they negotiate their transition from communism For some the story ends happily with triumphant entry into the European Union in 2004 Others are caught in limbo destroyed by nationalist politics war and genocide or crippled by corrupt political practices The Burdens of Freedom considers the effects of revolutionary change the resurgence of nationalism and the painful examination of the past It looks at the process of building stable democratic states and their integration with international structures Most of the countries have established admission to the EU as a national objective but many of them have also been active participants in the American led occupation of Iraq Domestically each has seen a divide emerge between winners and losers All are moving forward simultaneously to democracy unity and prosperity but also to national division and economic disparity Postcommunist Welfare States Linda J. Cook,2013-07-02 In the early 1990s the countries of the former Soviet Bloc faced an urgent need to reform the systems by which they delivered broad basic social welfare to their citizens Inherited systems were inefficient and financially unsustainable Linda J Cook here explores the politics and policy of social welfare from 1990 to 2004 in the Russian Federation Poland Hungary Belarus and Kazakhstan Most of these countries she shows tried to institute reforms based on a liberal paradigm of reduced entitlements and subsidies means testing and privatization But these proposals provoked opposition from pro welfare interests and the politics of negotiating change varied substantially from one political arena to another In Russia for example liberalizing reform was blocked for a decade Only as Vladimir Putin rose to power did the country change its inherited welfare system Cook finds that the impact of economic pressures on welfare was strongly mediated by domestic political factors including the level of democratization and balance of pro and anti reform political forces Postcommunist welfare politics throughout Russia and Eastern Europe she shows are marked by the large role played by bureaucratic welfare stakeholders who were left over from the communist period and in weak states by the development of informal processes in social sectors Transnational Capitalism in East Central Europe's Heavy Industry Aleksandra Sznajder Lee,2016-05-10 An examination of the post communism reform of state enterprises that reveals the political dynamics of privatization **Workers and revolution in Serbia** Martin Upchurch,Darko Marinkovic,2016-05-16 This book offers a refreshing new analysis of the role of workers both in Tito s Yugoslavia and in the subsequent Serbian revolution against Milo evic in October 2000 The authors argue that Tito and the Communist leadership of Yugoslavia saw self management as a modernising project to compete with the West and as a disciplining tool for workers in the enterprise The socialist ideals of self management were subsequently corrupted by Yugoslavia s turn to the market The authors then move on to examining the central role of ordinary workers in overthrowing the nationalist regime of Milo evic and present an account which runs contrary to many descriptions of labour weakness in post Communist states Organised labour should be studied as a movement in and of itself rather than as a passive object of external forces Two labour movement waves have emerged under post Communism the first an expression of desire for democracy the second as a collaboration and

clientelism A third wave against the ravages of neoliberalism is only just emerging [The Class Gap in Protest Participation](#) Viktoriia Muliavka, 2024-08-01 The Class Gap in Protest Participation discusses a theoretically grounded empirical analysis of the relationship between class and protest involvement across Central Eastern and Western Europe In recent decades mass protests have surged in both frequency and scale yet there remains a significant variability in citizen involvement in non electoral politics across Europe While affluent Western democracies often witness robust civic engagement countries of Central and Eastern Europe exhibit comparatively limited political participation This regional gap is particularly pronounced when examining post socialist workers who show minimal protest activity Addressing this phenomenon the book starts from the following question Why do workers in Central and Eastern Europe demonstrate disproportionately lower rates of protest engagement compared to their Western European counterparts The study reveals that the answer lies beyond conventional explanations such as legacies of communism Cross regional disparities in working class protest activism are driven by differences in labor protection and left mobilization capacity These variations stem from the historical context and the economic dependency of post socialist countries which create distinct conditions for workers political engagement in the core and semi periphery This book will be of interest to political scientists and sociologists especially researchers interested in political participation social inequality and post socialist transformations

The Oxford Handbook of Historical Institutionalism Orfeo Fioretos, Tulia G. Falletti, Adam Sheingate, 2016-03-17 The Oxford Handbook of Historical Institutionalism offers an authoritative and accessible state of the art analysis of the historical institutionalism research tradition in Political Science Devoted to the study of how temporal processes and events influence the origin and transformation of institutions that govern political and economic relations historical institutionalism has grown considerably in the last two decades With its attention to past present and potential future contributions to the research tradition the volume represents an essential reference point for those interested in historical institutionalism Written in accessible style by leading scholars thirty eight chapters detail the contributions of historical institutionalism to an expanding array of topics in the study of comparative American European and international politics

Market Dreams Elaine Susan Weiner, 2010-02-11 How have women experienced the transition from socialism to market economy in Eastern Europe *Global Industrial Relations* Michael J. Morley, Patrick Gunnigle, David Collings, 2006-11-22 Breaking new ground and drawing on contributions from the leading academics in the field this volume in the Global HRM Series specifically focuses on industrial relations

Human Resource Management in Emerging Economies Piotr Zientara, 2014-06-05 25 years after the collapse of communism the eastern European workplace is fertile ground for exploring HRM issues This book using theoretical and empirical approaches offers insights into the way employees are managed in emerging economies

Welcome to the Desert of Post-Socialism Srečko Horvat, Igor Štiks, 2015-01-06 This volume offers a profound analysis of post socialist economic and political transformation in the Balkans involving deeply unequal societies and oligarchical democracies The

contributions deconstruct the persistent imaginary of the Balkans pervasive among outsiders to the region who see it as no more than a repository of ethnic conflict corruption and violence Providing a much needed critical examination of the Yugoslav socialist experience the volume sheds light on the recent rebirth of radical politics in the Balkans where new groups and movements struggle for a radically democratic vision of society
