Handbook of Faith and Spirituality in the Workplace Judi Neal, 2012-12-09 While the field of management has developed as a research discipline over the last century until the early 1990s there was essentially no acknowledgement that the human spirit plays an important role in the workplace Over the past twenty years the tide has begun to turn as evidenced by the growing number of courses in academia and in corporate training and an exponential increase in the publications emerging through creative interaction of scholars and practitioners in organizational behaviour workplace diversity sustainability innovation corporate governance leadership and corporate wellness as well as contributions by psychotherapists theologians anthropologists educators philosophers and artists This Handbook is the most comprehensive collection to date of essays by the preeminent researchers and practitioners in faith and spirituality in the workplace featuring not only the most current research and case examples but visions of what will be or should be emerging over the horizon It includes essays by the people who helped to pioneer the field as well as essays by up and coming young scholars Among the questions and issues addressed What does it mean to be a spiritual organization How does this perspective challenge traditional approaches to the firm as a purely rational profit maximizing enterprise Is faith and spirituality in the workplace a passing fad or is there a substantial shift occurring in the business paradigm How does this field inform emerging management disciplines such as sustainability diversity and social responsibility In what ways are faith and spirituality in the workplace similar to progressive and innovative human resource practices Does faith and spirituality in the workplace bring something additional to the conversation and if so what The aim of The Handbook of Faith and Spirituality in the Workplace is to provide researchers faculty students and practitioners with a broad overview of the field from a research perspective while keeping an eye on building a bridge between scholarship and practice

The Affective Assistance of Counsel Marjorie A. Silver, 2007 This book is subversive It aims to undermine the legal profession's prevailing gladiatorial paradigm It is to use Professor Leonard Riskin's phrase something off the lawyer's standard philosophical map It promises a vision of practicing law that is very different than that taught in most American law schools There exists tremendous discontent among the practicing bar Many lawyers have found themselves unhappy or unfulfilled in their practices Compared to other professionals lawyers suffer disproportionately from excessive stress substance abuse and other emotional difficulties Many find themselves demoralized or disillusioned about the practice of law Here's the good news recent years have witnessed a spate of both new and renewed approaches to the practice of law Disaffected by the

adversarial model many practitioners have engaged in a quiet revolution a marriage of theory and practice designed to maximize the healing potential of the law The result has been a variety of approaches such as Therapeutic Jurisprudence Collaborative Law and Creative Problem Solving Lawyers are cultivating Emotional Intelligence Multicultural Competence and Mindfulness They are developing ways of working consistent with their spiritual and religious beliefs New pedagogy is informing old courses and new courses are evolving and taking their places in the curriculums of increasing numbers of law schools This book bears the fruit of many of these efforts The twenty contributors to this book come from widely diverse backgrounds What they share are visions for more therapeutic more beneficial more helping healing ways to practice law This book is a resource for law professors law students and lawyers who share those visions After nearly forty years of law practice I still look forward to coming to work every morning This is because I have had incredible mentors who have taught me to practice law as a healer and peacemaker Now my heroes of the comprehensive law movement have each spoken in one outstanding collection edited by Marjorie Silver Their essays provide a road map for any lawyer to re invent himself or herself and achieve a law practice filled with joy meaning and passion I enthusiastically recommend this book John V McShane Esq Dallas Texas Law as a healing profession Marjorie Silver has collected a series of essays by leading writers engaged in such a career Readers will find a practical resource to assist in building the emotional competence necessary to practice law in the 21st century Buy it read it and practice in a more enlightened manner You owe it to your clients and to yourself G Andrew H Benjamin J D Ph D Affiliate Professor of Psychology Antioch University Affiliate Professor of Law University of Washington Director Parenting Evaluation Training Program This book represents a turning point in the history of thought on how attorneys should be trained and how they should practice law As is true of all pioneering works this one will go through several stages At first traditionalists may oppose it and even ridicule it Undoubtedly however its sheer wisdom will ultimately prevail and eventually be accepted as self evident Amiram Elwork Director of the Law Psychology Graduate Program at Widener University and author of Stress Management for Lawyers My experience is that it is a marvelous book and helped lay an academically sound foundation for the content of course I learned much from it and I know our students did too Jonathan R Cohen Professor of Law University of Florida Levin College of Law

International Relations and International Law continue to be accented by epistemic violence by naturalizing a separation between law and morality What does such positivist juridical ethos make possible when considering that both disciplines reify a secular immanent ontology International Law Necropolitics and Arab Lives emphasizes that positivist jurisprudence re-conquered Arabia by subjugating Arab life to the power of death using extrajudicial techniques of violence seeking the implementation of a New Middle East that is no longer resistant to Latin European modernity but amenable to such exclusionary telos The monograph goes beyond the limited remonstrance asserting that the problematique with both disciplines is that they are primarily Eurocentric Rather the epistemic inquiry uncovers that legalizing necropower is necessary for the temporal coherence of secular modernity since a humanitarian logic masks sovereignty inherently being necropolitical by categorizing Arab Islamic epistemology as an internal external enemy from which national citizenship must be defended This creates a sense of danger around which to unite modern epistemology whilst reinforcing the purity of a particular ontology at the expense of banning and de-humanizing a supposed impure Arab refugee This book will be of interest to graduate students scholars and finally practitioners of international relations political theory philosophical theology and legal theory
