Translating US Underground Comix in Italy Chiara Polli, 2025-04-16 This book analyses 1960s 1970s US underground comix a counterculture art form that satirised mainstream values and taboos The author observes comix in their multimodal components in the original English language versions and in their Italian translations by unpacking the several

layers of verbal and visual meaning making She then goes on to scrutinise translation and resemiotisation processes including modifications mitigations and omissions encompassing socio historical and cross cultural perspectives The book argues that translation meant to bridge two counter cultures served as a gatekeeper instead zooming in on certain themes while inadvertently overlooking or purposefully manipulating others with an outcome close to censorship The volume is divided into nine chapters Chapter 1 summarises the aims and scope of the volume Chapter 2 introduces comix as a subversive phenomenon Chapter 3 illustrates the theoretical and methodological framework of analysis based on semiotics and multimodality Chapter 4 presents the corpus of Italian translations which includes works translated between 1968 and 2022 by both mainstream and alternative publishers In Chapters 5 8 Italian translations of comix dealing with such controversial themes as sex drugs political struggle and religion are analysed with qualitative observations of several translations of the same comix provided to highlight changing times cultural frames ideologies editorial policies and target audiences Chapter 9 discusses the findings of these observations and maintains that as a recursive translation strategy seditious contents were mitigated trivialised or censored by adopting light hearted frames so that potentially problematic contents could be left out With its linguistic translational and intercultural analyses this volume will be useful for researchers of linguistics semiotics translation and comics studies

Censorship across Borders Alberto Lázaro, Catherine O'Leary, 2011-07-12 This volume brings together twelve essays which explore European censorship of English literature in the last century Taking into consideration the various social political and historical contexts in which literary controls were imposed and the extent to which they were determined by national and international concerns these essays comment on political and moral censorship self censorship and the role of the translator as censor Besides systematic state control other hidden and insidious forms of censorship are also surveyed in the essays This study

considers why certain works and authors many of them now regarded as canonical were targeted in various states and often under opposing ideologies such as those dominated by conservative Catholic morality and those governed by communism or socialism The essays contain previously unpublished material cover a wide range of authors including Beckett Eliot Joyce and Orwell and analyse diverse censorship systems operating across Europe thus serving as a useful comparative resource Despite the variety of structures of suppression the study shows that certain common practices can be discerned across national borders and that general conclusions can be drawn about the complex and ambiguous nature of the state's relationship with culture and about the immediate and long term impact of censorship not only on the author and publisher but on society as a whole Finally the essays are also significant for what they tell us about the survival of literature despite the best efforts of the censors

interpreters render paralinguistic. Collectively they bridge the gap between socio-political and ideological concerns on the one hand and practical questions of discourse reconstruction in cross-language cultural events on the other, offering a panoramic perspective.
