Transmission Passion Practicing Psychoanalysis Borders:

The Transmission of Passion Moshe Halevi Spero, 2015-12-15 The authors in this collection reflect deeply and self consciously about practicing psychoanalysis within or alongside the borders of the Land of Israel Unique passions characterize the lives of those who live here on the individual and group level and this will be true for the psychoanalyst who has been born and raised here or who has immigrated to this land and has had to struggle with transformations in language values and identity In Israel one passionately believes or disbelieves or strives to be dispassionate with varying degrees of success The boundaries of the land can contain these dynamics but this depends on how the boundaries are defined internalized and symbolized The dimension of passion will grip the patient and analyst at some point during the evolution of the transference and countertransference matrix and may bind the two together or drive them apart Using rich clinical presentation and theoretical innovation the authors in this compendium discuss these conflicts and consider how terror war political ideology primitive personality structure the Holocaust and idiosyncratic religious beliefs arouse these hidden passions and challenge analytic neutrality Throughout the authors carefully reexamine the development of their own personal identity ideology and professional perspectives in order to ascertain whether or not or under what conditions passion can be creatively transmitted eros and tragedy

Loving Psychoanalysis Ruth Golan, 2018-06-12 Psychoanalysis was neither a product of philosophy nor of academic study Rather psychoanalysis was born in the clinic Freud took his lead from hysterical women the accounts of their pain anxieties and physical symptoms led him to formulate his theories on the existence of the unconscious

technique and demonstrate her sensitivity and compassion in her work with children It is illustrated with black and white photographs of Arminda and line drawings from her work Jill Savege Scharff and Lea Sofer de Setton have performed a profound service to the field of child psychoanalysis by bringing Arminda Aberastury to a whole new audience Her work will inspire a whole new generation of child psychoanalysts and other professionals working with children Who Owns Psychoanalysis? Ann Casement, 2018-05-08 So who does own psychoanalysis Equally pertinent what is psychoanalysis Even before the death of Sigmund Freud psychoanalysis was splintering into different groups each convinced of their superiority to the other There was little co operation between them plus a great deal of resentment recrimination and suspicion The status quo has been evolving slowly in recent years with increased tolerance and communication between the different factions leading to the birth of this book The result is an international and inter group collaboration of eminent psychoanalysts and scholars of psychoanalysis discussing and reflecting on the meaning psychoanalysis holds for them Their contributions have been grouped into four sections academic historical political and scientific Each paper is varied in its subject matter looking at such issues as psychoanalytic ownership the genealogy of the word psychotherapy historical perspectives on the situation whether there can be a monopoly on psychoanalysis and the role of the brain in relation to the mind and has been grouped according to its main theme *Theatres of Contagion* Fintan Walsh, 2019-09-05 To what extent is theatre a contagious practice capable of undoing and enlivening people and cultures *Theatres of Contagion* responds to some of the anxieties of our current political and cultural climate by exploring theatre s status as a contagious cultural force questioning its role in the spread or control of medical psychological and emotional conditions and phenomena Observing a diverse range of practices from the early modern to contemporary period the volume considers how this contagion is understood to happen and operate its real and imagined effects and how these have been a source of pleasure and fear for theatre makers audiences and authorities Drawing on perspectives from medicine neuroscience psychology anthropology philosophy law and affect theory essays investigate some of the ways in which theatre can be viewed as a powerful agent of containment and transmission Among the works analysed include a musical adaptation and an intercultural variation of Shakespeare s *Romeo and Juliet* a contemporary queer take on *Hamlet* *Grand Guignol* and theatres of horror the writings and influence of Artaud immersive theatre and the work of Punchdrunk and computer gaming and smartphone apps

make life meaningful and worthwhile On the other it is sometimes to be treated with suspicion reined in subjected to the dictates of reason While it brightens existence and its departure makes life dull many passions may prove unbearable The manifold connotations of passion make it highly relevant to psychoanalysis yet so far no book has explored the many facets of this pervasive theme This book provides a comprehensive guide that will sensitize readers to the omnipresent importance of passionate emotion in the clinical setting and throughout all areas and times of life It bursts with thought provoking ideas Challenging cases are illuminated by penetrating reflections and novel applications and combinations of theoretical perspectives Psychoanalytic Perspectives on Passion explores the many ways in which very strong emotions passions can be understood and worked with in clinical contexts The contributions cover such key topics as psychosis and violence emotions in childhood sexuality secure and insecure attachments the role of passion in seeking meaning passion and transition space and transference and countertransference This book will be of great help to all psychoanalysts and psychoanalytic psychotherapists struggling to assist patients and perhaps themselves in locating their passions channeling and expressing them in meaningful ways and overcoming obstacles to their fulfillment
