Web Programming L. Bernal, 2024-12-04. This comprehensive guide to web programming makes learning simple and accessible even for complete beginners. Through clear explanations, practical examples, and a step-by-step approach, the book teaches you how to create modern and secure web applications. You'll start with the basics of HTML, CSS, and JavaScript, moving on to data management with SQL and MySQL, and programming in Python. You'll discover how to use front-end frameworks, back-end languages like PHP, and how to secure and optimize your applications. The manual culminates in a complete library management project where you can apply everything you've learned. Designed for beginners and aspiring developers, this book provides all the skills needed to turn your ideas into real web applications with straightforward language and full support. *Web Development Cell Guide* Lab-Volt Systems, Incorporated, 2005-03-01. *Developing Web Sites with Html, CSS and JavaScript* Efrim G. Mallach, 2024-09-05. Covering the three underlying technologies of Web pages: HTML, CSS, and JavaScript, this book is a one-stop guide to getting started in web development, be it in a class or as a solo learner. Starting with no prerequisites beyond minimal exposure to programming, this book guides readers in an accessible fashion through modern page layout methods to building a complete site. This book develops an understanding of the structure of a page, i.e., how its parts fit together to convey its content to site users; how styles can make the content attractive and appealing; and how short programs and scripts can add everything from simple interactivity to complex calculations to your pages. With a wealth of in-depth example, review questions, exercises, and online sources and videos, readers are encouraged to excel in all of these areas, learning how to add animations, timing designs that change in response to the characteristics of a display device, and more. Building knowledge from the ground up, this book appeals to those looking to learn web development from a range of backgrounds, be it academic, professional, or personal.
