happiness into government policy at all levels Coverage includes A concise background on happiness science indices and indicators and happiness in public policy Tools for formulating happiness policy and integrating happiness into administrative functions A concept menu of happiness policies Communicating happiness policy objectives to media and engaging with the community A happiness policy screening tool for evaluating the happiness contribution of any policy Policy perspectives from seasoned experts across sectors The Happiness Policy Handbook is the essential resource for policymakers and professionals working to integrate happiness and well being into governmental processes and institutions Promoting the Sustainable Development Goals in North American Cities David B. Abraham, Seema D. Iyer, 2021-03-05 This volume presents North American best practices and perspectives on developing managing and monitoring indicators to track development progress towards the Sustainable Development Goals SDGs in local communities and cities In 4 main sections the book presents and frames the many ways in which community indicator programs are either integrating or retooling to integrate the SDGs into their existing frameworks or how they are developing new programs to track and report progress on the SDGs This is the first volume that focuses on SDG adoption within the context of North Americans cities and communities and the unique issues and opportunities prevalent in these settings The chapters are developed by experienced academics and practitioners of community planning and sustainable development and will add broad perspective on public policy organizational management information management and data visualization This volume presents a case study approach to chapters offering lessons that can be used by three main audiences 1 teachers and researchers in areas of urban regional and environmental planning urban development and public policy 2 professional planners decision makers and urban managers and 3 sustainability activists and interested groups **Decarbonising Cities** Vanessa Rauland, Peter Newman, 2015-03-27 This book sets out some positive directions to move forward including government policy and regulatory options an innovative GRID Greening Regenerative Improvement Districts scheme that can assist with funding and management and the first steps towards an innovative carbon credit scheme for the built environment Decarbonising cities is a global agenda with huge significance for the future of urban civilisation Global demonstrations have shown that technology and design issues are largely solved However the mainstreaming of low carbon urban development particularly at the precinct scale currently lacks sufficient standards for measuring carbon covering operational embodied and transport emissions assessment and decision making tools to assist in design options certifying processes for carbon neutrality within the built environment and accreditation processes for enabling carbon credits to be generated from precinct wide urban development Numerous barriers are currently hindering greater adoption of high performance low carbon developments many of which relate to implementation and governance How to enable and manage precinct scale renewables and other low carbon technologies within an urban setting is a particular challenge Research Handbook on Community Development Rhonda Phillips, Eric Trevan, Patsy Kraeger, 2020-04-24 This timely Research Handbook offers new ways in which to navigate the diverse terrain of

community development research Chapters unpack the foundations and history of community development research and also look to its future exploring innovative frameworks for conceptualizing community development Comprehensive and unequivocally progressive this is key reading for social and public policy researchers in need of an understanding of the current trends in community development research as well as practitioners and policymakers working on urban rural and regional development
