Transcultural Turbulences Transcultural Turbulences:

Transcultural Turbulences Christiane Brosius,Roland Wenzlhuemer,2011-09-25 Today hardly anything moves as fast across the globe as images and media This fact opens new avenues to explore social and cultural change but also poses new theoretical challenges of how to grasp and better understand these changes and flows Moreover such movements across geophysical and cultural borders have a historical depth that enables us to explore globalisation and localisation in new ways Transculturality is still a relatively new field of research in the Humanities through which we sharpen our competence and literacy to come to terms with the complexity of globalised cultures This volume ventures into new domains of research on the transculturality of images and addresses the need to develop new or modify established often ethno and Eurocentric interpretations of what happens when images travel It does so by bringing together cutting edge research from fields such as art history cultural anthropology colonial history Islamic studies religious studies and literary criticism Transcultural Turbulences ,2011-09-25 Theoretical Turbulence in Intercultural Communication Studies Garry Robson,2014-07-03 A number of researchers trainers and educators in intercultural communication acknowledge that the most popular models and theories of the field are insufficient even unsuitable to describe or explain our practical multicultural experiences today This collection of articles offers new insights and critical evaluations of intercultural communication theory and research Authors from a variety of disciplines discuss for example methodological concerns Chinese exceptionalism micro and macro level interactions ways to teach and study perceptions and self awareness and also provide new constructions for understanding communication and culture and their relationship **Cosmopolitanism** Zlatko Skrbis,Ian Woodward,2013-04-29 Cosmopolitanism Uses of the Idea offers an illuminating and dynamic account of an often confusing and widespread concept Bringing together both historical and contemporary approaches to cosmopolitanism as well as recognizing its multidimensional nature Zlatko Skrbis and Ian Woodward manage to show the very essence of cosmopolitanism as a theoretical idea and cultural practice Through an exploration of various social fields such as media identity and ethics the book analyses the limits and possibilities of the cosmopolitan turn and explores the different contexts cosmopolitanism theory has been and still is applied to Critical diverse and engaging the book successfully answers questions such as How can we understand cosmopolitanism What is the relationship between cosmopolitanism and ethics What is the relationship between cosmopolitanism and identity How do cosmopolitan networks come into being How do we apply cosmopolitanism theory to contemporary digital and mediated societies This comprehensive and authoritative title is a must for anyone interested in cultural consumption contemporary citizenship and identity construction It will be especially useful for students and scholars within the fields of social theory ethics identity politics cultural diversity and globalisation **Governing Post-Imperial Siberia and Mongolia, 1911-1924** Ivan Sablin,2016-02-05 The governance arrangements put in place for Siberia and Mongolia after the collapse of the Qing and Russian Empires were highly unusual experimental and extremely interesting

The Buryat Mongol Autonomous Socialist Soviet Republic established within the Soviet Union in 1923 and the independent Mongolian People's Republic established a year later were supposed to represent a new model of transnational post national governance incorporating religious and ethno national independence under the leadership of the coming global political party the Communist International The model designed to be suitable for a socialist decolonised Asia and for a highly diverse population in a strategic border region was intended to be globally applicable This book based on extensive original research charts the development of these unusual governance arrangements discusses how the ideologies of nationalism socialism and Buddhism were borrowed from and highlights the relevance of the subject for the present day world where multiculturalism interconnectedness and interdependency become ever more complicated

Contemporary Pakistani Speculative Fiction and the Global Imaginary Shazia Sadaf, Aroosa Kanwal, 2023-09-26 As the first book length study of emergent Pakistani speculative fiction written in English this critical work explores the ways in which contemporary Pakistani authors extend the genre in new directions by challenging the cognitive majoritarianism usually Western in this field Responding to the recent Afro science fiction movement that has spurred non Western writers to seek a democratization of the broader genre of speculative fiction Pakistani writers have incorporated elements from djinn mythology Qur'anic eschatology Desi South Asian traditions local folklore and Islamic feminisms in their narratives to encourage familiarity with alternative world views In five chapters this book analyzes fiction by several established Pakistani authors as well as emerging writers to highlight the literary value of these contemporary works in reconciling competing cognitive approaches blurring the dividing line between possibilities and impossibilities in envisioning humanity's collective future and anticipating the future of human rights in these envisioned worlds

Representations of the Blessed Virgin Mary in World Literature and Art Elena V. Shabliy, 2017-07-27 This interdisciplinary study explores Marian imagery and representations in world literature and art throughout the centuries This book demonstrates the widespread deep veneration of the image of the Blessed Virgin Mary in various countries and different Christian traditions Devotion to the Holy Virgin has served as a bridge to different cultures overcoming all types of possible borders Religious and cultural literacy is crucial for domestic and international politics the practice of peace harmony justice and prosperity This book also gives recognition and pays homage to the influence of the image of Mater Dolorosa in shaping art and literature around the world

Dangerous Memory in Nagasaki Gwyn McClelland, 2019-09-10 On 9th August 1945 the US dropped the second atomic bomb on Nagasaki Of the dead approximately 8500 were Catholic Christians representing over sixty percent of the community In this collective biography nine Catholic survivors share personal and compelling stories about the aftermath of the bomb and their lives since that day Examining the Catholic community's interpretation of the A bomb this book not only uses memory to provide a greater understanding of the destruction of the bombing but also links it to the past experiences of religious persecution drawing comparisons with the Secret Christian groups which survived in the Japanese countryside after the banning of Christianity Through in depth

interviews it emerges that the memory of the atomic bomb is viewed through the lens of a community which had experienced suffering and marginalisation for more than 400 years Furthermore it argues that their dangerous memory confronts Euro American centric narratives of the atomic bombings whilst also challenging assumptions around a providential bomb Dangerous Memory in Nagasaki presents the voices of Catholics many of whom have not spoken of their losses within the framework of their faith before As such it will be invaluable to students and scholars of Japanese history religion and war history

Transcultural Cinema David MacDougall, 2021-07-13 David MacDougall is a pivotal figure in the development of ethnographic cinema and visual anthropology As a filmmaker he has directed in Africa Australia India and Europe His prize winning films many made jointly with his wife Judith MacDougall include The Wedding Camels Lorang s Way To Live with Herds A Wife among Wives Takeover PhotoWallahs and Tempus de Baristas As a theorist he articulates central issues in the relation of film to anthropology and is one of the few documentary filmmakers who writes extensively on these concerns The essays collected here address for instance the difference between films and written texts and between the position of the filmmaker and that of the anthropological writer In fact these works provide an overview of the history of visual anthropology as well as commentaries on specific subjects such as point of view and subjectivity reflexivity the use of subtitles and the role of the cinema subject Refreshingly free of jargon each piece belongs very much to the tradition of the essay in its personal engagement with exploring difficult issues The author ultimately disputes the view that ethnographic filmmaking is merely a visual form of anthropology maintaining instead that it is a radical anthropological practice which challenges many of the basic assumptions of the discipline of anthropology itself Although influential among filmmakers and critics some of these essays were published in small journals and have been until now difficult to find The three longest pieces including the title essay are new

Writing the History of Emotions Ute Frevert,2024-02-22 Emotions make history and they have a history They influence historical events such as revolutions riots and protest movements At the same time they are shaped by historical experiences tied to family upbringing educational and cultural institutions work and the home Writing the History of Emotions shows how emotions like love trust honour pride shame empathy and greed have impacted historical change since the 18th century and were themselves dependent on social political and economic environments Importantly this book provides a timely exploration of racialized gendered class based notions of emotions This exciting addition to Bloomsbury's successful Writing History series analyses how emotions matter in and to history and how they are themselves objects of history Here leading scholar Ute Frevert eschews a traditional chronological history of emotions in favour of an innovative collection which transgresses time periods to illustrate the different emotional meanings one particular material object has had throughout history This book sheds light on how emotions have been used instrumentalised and manipulated both to propel and suspend democratic politics In doing so it opens a rich new avenue of research for the history of emotions

Global Reformations Nicholas Terpstra,2019-05-17 Global Reformations offers a sustained comparative and interdisciplinary exploration of religious transformations in the early modern world The volume explores global developments and tracks the many ways in which Reformation movements shaped relations of Christians with other Christians and also with Jews Muslims Buddhists and aboriginal groups in the Americas Contributions explore the negotiations tensions and contacts that developed across social gender and religious lines in different parts of the globe focusing on how different convictions about religious reform and approaches to it shaped social action and cross confessional encounters The essays explore the convergence of religious reform global expansion and governmental consolidation in the early modern world and examine the Reformation as a global phenomenon the authors ask how a global frame complicates our understanding of what the Reformation itself was and offer a unique and up to date examination of the Reformation that broadens readers' understanding in creative and useful ways Demonstrating new research and innovative approaches in the study of cross cultural contact during the early modern period this volume is ideal for advanced undergraduates and graduates of early modern history religious history women's gender studies and global history

Learning How to Feel Ute Frevert,Pascal Eitler,Stephanie Olsen,Uffa Jensen,Margrit Pernau,Daniel Brückenhaus,Magdalena Beljan,Benno Gammerl,Anja Laukötter,Bettina Hitzer,Jan Plamper,Juliane Brauer,Joachim C. Häberlen,2014-07-24 Learning How to Feel explores the ways in which children and adolescents learn not just how to express emotions that are thought to be pre-existing but actually how to feel The volume assumes that the embryonic ability to feel unfolds through a complex dialogue with the social

and cultural environment and specifically through reading material The fundamental formation takes place in childhood and youth A multi authored historical monograph Learning How to Feel uses children s literature and advice manuals to access the training practices and learning processes for a wide range of emotions in the modern age circa 1870 1970 The study takes an international approach covering a broad array of social cultural and political milieus in Britain Germany India Russia France Canada and the United States Learning How to Feel places multidirectional learning processes at the centre of the discussion through the concept of practical knowledge The book innovatively draws a framework for broad historical change during the course of the period Emotional interaction between adult and child gave way to a focus on emotional interactions among children while gender categories became less distinct Children were increasingly taught to take responsibility for their own emotional development to find authenticity for themselves In the context of changing social political cultural and gender agendas the building of nations subjects and citizens and the forging of moral and religious values Learning How to Feel demonstrates how children were provided with emotional learning tools through their reading matter to navigate their emotional lives

The Age of Irreverence Christopher Rea,2025-02-25 The Age of Irreverence tells the story of why China s entry into the modern age was not just traumatic but uproarious As the Qing dynasty slumped toward extinction prominent writers compiled jokes into collections they called histories of laughter In the first years of the Republic novelists essayists and illustrators alike used humorous allegories to make veiled critiques of the new government But again and again political and cultural discussion erupted into invective as critics gleefully jeered and derided rivals in public Farceurs drew followings in the popular press promoting a culture of practical joking and buffoonery Eventually these various expressions of hilarity proved so offensive to high brow writers that they launched a concerted campaign to transform the tone of public discourse hoping to displace the old forms of mirth with a new one they called youmo humor Christopher Rea argues that this period from the 1890s to the 1930s transformed how Chinese people thought and talked about what is funny Focusing on five cultural expressions of laughter jokes play mockery farce and humor he reveals the textures of comedy that were a part of everyday life during modern China s first age of irreverence This new history of laughter not only offers an unprecedented and up close look at a neglected facet of Chinese cultural modernity but also reveals its lasting legacy in the Chinese language of the comic today and its implications for our understanding of humor as a part of human culture
