

How to translate documents in Word for Mac

If you use Microsoft Word on your Mac for creating documents, then you know it has some nice features. And if you're writing something that you want to translate into another language, Word has that feature built right into it.

You can translate an entire document or just specific text. So if you want to send or share your work with someone speaking a different dialect, in business for example, this is handy.

Here's how to translate documents in Word for Mac.

Translate your selected text in Word

Open Word on your Mac to the document you want to translate. Then follow these steps.

- 1) Click the **Review** tab at the top of the Word window.
- 2) Select the text you want to translate. Click the **Translate** button and choose **Translate Selection**.
- 3) A sidebar will open on the right side to the **Selection** tab. And the text you selected should automatically appear in the **From** box at the top. Word should auto-detect your language, but you can make a selection from the drop-down box as well.
- 4) Choose the **To** language in the box below and you should see the translation immediately.

If you'd like to replace your selected text with the translated text, click **Insert**.

You can also reverse translation by clicking the **Swap** button between the two text boxes.

interpretations It is one of the few studies of James to offer a sustained critical reading of these texts together with an exploration of the national and international context in which they were published and read As such this book contributes to the understanding not only of James s works as political tools but also of the preoccupations of publishers and translators and the interpretative spaces in the works they were making available to an international audience **Becoming a Translator**

 span of almost 40 years The essays trace Hermans work and demonstrate how translation studies has evolved from the 1980s
 into the much more diverse and self reflexive discipline it is today The book is divided into three main sections the first
 section explores the status and central concerns of translation studies including the growing interest in sociological
 ideological and ethical approaches to translation the second section investigates the key concepts of translation norms and of
 the translator s presence or positioning in translated texts the historical essays in the final section are concerned with both
 modern and early modern discourses on translation and with the use of translation as an instrument of war and propaganda
