CETA's Investment Chapter Kriton Dionysiou, 2021-01-31 This book provides a comprehensive account of the CETA Investment Chapter s ability to overcome the legitimacy crisis facing investment arbitration To do so it first

examines the root causes behind the legitimacy crisis ultimately arguing that it reflects a fundamental rule of law crisis within investment arbitration. In particular, it asserts that the normative standpoints of the legitimacy crisis form part of the rule of law, the uniting legal principle from which the legitimacy concerns stem. The book contends that the rule of law is not only the principal normative and causal assumption on which the legitimacy concerns are based but that it could also be utilized as a platform to evaluate the investment arbitration mechanism in CETA's Investment Chapter. Based on this, the book evaluates CETA's Investment Chapter through the rule of law framework in order to provide a convincing account of the latter's ability to overcome the legitimacy crisis facing investment arbitration. It concludes that CETA's Investment Chapter is unlikely to completely solve the legitimacy crisis simply because it is just a patchwork of reforms rather than a comprehensive reinvention of the substantive and procedural law of investment arbitration. Lastly, the book offers meaningful insights into the way the challenges presented by investment arbitration should be addressed. The book is intended for academics researching international investment law and arbitration as well as for policy makers focusing on reforming investor state dispute settlement.

Rethinking Investor-State Arbitration Flavia Marisi, 2023-10-18 A significant increase in investor State arbitration cases has been observed since the 2000s. The trust placed by investors and States in this method of dispute resolution stems from several strengths. In addition to its neutrality, one of the primary reasons for its widespread use is its adaptability, enabling it to address specific challenges that have emerged in recent decades. The following elements highlight this adaptability: the arbitration procedure can be customised to meet the specific needs of the disputing parties and stakeholders involved; it effectively responds to evolving cultural norms and ethical considerations such as diversity, gender representation, corporate social responsibility, environmental issues, and human rights. Moreover, it can adapt to global health crises by facilitating online hearings. Finally, during times of international armed conflict, economic exchanges, trade, investment, and investor State dispute settlement foster economic integration and interdependence, contributing to maintaining commercial peace and supporting international peace and security. However, investor State arbitration has sparked vigorous debates, with many advocating for reform in three crucial aspects: transparency, legitimacy, and consistency. Multilateral negotiations are currently underway on various fronts, including the negotiation of more sustainable investment treaties, amendments to institutional arbitral rules, the design of a multilateral investment court, and the development of enhanced policy frameworks. This book delves into the history of investor State dispute resolution to provide readers with an understanding of how its main features have evolved over time. It examines the most intensely debated procedural issues, analyses their multifaceted characteristics, reviews the complex relationship between investor State arbitration and the European Union, and explores potential options for addressing stakeholder concerns.

World Trade and Local Public Interest Csongor István Nagy, 2020-07-15 Trade liberalization has shaped international economic relations since the conclusion of the GATT 1947. The last few decades have seen a significant shift in the focus of this process: multilateralism seems to have reached its limits, giving way to regionalism, and the focus of trade liberalization has shifted to non-tariff barriers. While these developments have attracted considerable attention, exploring them from comparative perspectives has been largely neglected. Trading systems, the WTO, regional economic integrations, and federal systems are all based on the same dichotomy of free trade and local public interest: they generally prohibit the constituent parties/states from restricting trade but exempt them from this limitation if the restriction is warranted by a legitimate local end. The purpose of this volume is to contribute to filling the above-mentioned research gap by exploring central issues in regional economic integrations from a comparative perspective. It provides a general economic analysis of the costs and benefits of trade liberalization and the role and function of normative values in commercial policy. This is followed by a comparative analysis of the approaches used in various regional economic integrations in North America, Europe, and Latin America, and federal markets: the United States, Australia, and India. Regarding the balance between free trade and local public interest, key issues in investment law, one of the most contentious elements of next-generation free trade agreements, are also addressed.

Research Handbook on Foreign Direct Investment Markus Krajewski, Rhea Tamara Hoffmann, Increasing international investment, the proliferation of international investment agreements, domestic legislation, and investor-State contracts have contributed to the development of a new field of international law that defines obligations between host states and foreign investors with investor-State dispute settlement. This involves not only vast sums but also a panoply of rights, duties, and shifting objectives at the juncture of national and international law and policy. This engaging Research Handbook provides an authoritative account of these diverse investment law issues.

The Impact of Investment Treaty Law on Host States Mavluda Sattorova, 2018-02-08 Traditionally, international investment law was conceptualised as a set of norms aiming to ensure good governance for foreign investors in exchange for their capital and know-how. However, the more recent narratives postulate that investment treaties and investor-state arbitration can lead to better governance, not just for foreign investors but also for host state communities. Investment treaty law can arguably foster good governance by holding host governments liable for a failure to ensure transparency, stability, predictability, and consistency in their dealings with foreign investors. The recent proliferation of such narratives in investment treaty practice, arbitral awards, and academic literature raises questions as to their juridical, conceptual, and empirical underpinnings. What has propelled good governance from a set of normative ideals to enforceable treaty standards? Does international investment law possess the necessary characteristics to inspire changes at the national level? How do host states respond to investment treaty law? The overarching objective of this monograph is to unpack existing assumptions concerning the effects of international investment law on host states. By

combining doctrinal empirical comparative analysis and unveiling the emerging nationally felt responses to international investment norms the book aims to facilitate a more informed understanding of the present contours and the nature of the interplay between international investment norms and national realities

The UNCITRAL Code of Conduct for Arbitrators in International Investment Dispute Resolution Chiara Giorgetti, Michele Potestà, 2025-08-18 The 2023 UNCITRAL Code of Conduct for Arbitrators in International Investment Dispute Resolution is the first and significant element of the important process of reform in investor State dispute settlement ISDS This book written by experts active in its drafting and negotiation is the first article by article commentary on the Code and presents an in depth discussion of the Code s preparatory work the negotiations and each provision A comprehensive examination of independence impartiality and ethics in ISDS the commentary includes wide reaching consideration of essential aspects of the Code including rationales for each provision tensions and concerns that each provision addresses critical ethical issues such as double hatting and repeat appointments disclosure requirements regulations on issues related to confidentiality duties of diligence integrity and competence lessons learned from the drafting and negotiations engagement with the viewpoints of States and other stakeholders and accomplishments and potential shortcomings This timely and detailed analysis of one of the key instruments of ISDS reform demonstrates that the Code reflects the most recent trends in the practice of international investment arbitration The Commentary will surely provide an essential guide to practitioners parties and other stakeholders involved in ISDS proceedings through the issues and cases relating to arbitrator ethics

Corruption and Illegality in Asian Investment Arbitration Nobumichi Teramura, Luke Nottage, Bruno Jetin, 2024-04-19 This open access book explores Asian approaches towards investment arbitration a transnational procedure to resolve disputes between a foreign investor and a host state setting it in the wider political economy and within domestic law contexts It considers the extent to which significant states in Asia are or could become rule makers rather than rule takers regarding corruption and serious illegality in investor state arbitration Corruption and illegality in international investment are widely condemned in any society but there remains a lack of consensus on the consequences especially in investment arbitration A core issue addressed is whether a foreign investor violating a host state s law should be awarded protection of its investment as per its contract with the host state and or the applicable investment or trade agreement between the home state and the host state Some suggest such protection would be unnecessary as the investor committed a crime in the host state while others attempt to establish an equilibrium between the investor and the host state Others claim to protect investment invoking the sanctity of promises made The book starts with a deep dive into economic and legal issues in corruption and investment arbitration and then explores the situation and issues in major countries in the region in detail It is a useful reference point for lawyers economists investors and government officials who are seeking comprehensive and up to date information on anti bribery rules in Asian investment treaties It is of particular interest to students and researchers in economics finance and law who are undertaking

new research relating to the multifaceted impacts of corruption

Tax Treaty Dispute Resolution Rachna

Matabudul, 2023-11-07 Stakeholders in the international taxation community agree that existing dispute resolution processes are in serious need of improvement and a global consensus must be achieved This book offers a potential restructuring of the tax treaty dispute resolution system based on a comparative analysis of the dispute resolution mechanisms under tax treaties as prescribed in the OECD and UN models on the one hand and the UN Law of the Sea Convention LOSC on the other This comparative study is the first of its kind and is premised on certain key geopolitical similarities that underpin the international tax regime ITR and the law of the sea regime while taking into consideration the differences in the institutional context of both regimes The author proposes a new tax treaty dispute resolution system based on the LOSC system for resolving multilateral tax disputes focusing on the following mapping of the institutional arrangements that make up the dispute resolution mechanisms to understand how each system works comparative analysis of the patterns of interaction and outcomes generated across the two dispute resolution systems to identify relevant aspects of the LOSC system that may be adapted in the ITR to improve tax treaty dispute resolution and analysis of the inclusivity levels across the decision making structures under each system to identify specific consensus building techniques that may facilitate the implementation of the new proposed tax treaty dispute resolution system and also enhance international cooperation across the ITR The proposed restructuring of the tax treaty dispute resolution system expands the existing mutual agreement procedure and forms a comprehensive legal framework that aims to achieve a more effective predictable and equitable resolution of multilateral tax disputes in the 21st century ITR by striking a balance between countries right to tax sovereignty and the rule of law Just as the design of the dispute resolution system under the LOSC paved the way for universal consensus of the Convention among almost 160 countries the author s new tax treaty dispute resolution system also offers a solid foundation for consensus building towards a universal treaty in the ITR Everyone concerned with international tax dispute resolution whether policymaker in house counsel national tax authority official judge tax lawyer or academic will find the truly valuable analysis here not elsewhere
