Contemporary Anarchist Studies Randall Amster, Abraham DeLeon, Luis Fernandez, Anthony J. Nocella, II, Deric Shannon, 2009-02-10 This book highlights the recent rise in interest in anarchist theory and practice attempting to bridge the gap between anarchist activism on the streets and anarchist studies in the academia Bringing together some of the most prominent voices in contemporary anarchism in the academy it includes pieces written on anarchist theory pedagogy methodologies praxis and the future      *The Cross, the Plow and the Skyline* Ernest J. pastoral and urban traditions have fundamentally shaped Western history and influenced American religion culture and politics This book argues that these traditions have not only been decisive in giving form and substance to classic and modern American literature but have been appropriated by contemporary science fiction As a loosely connected set of cultural narratives the Cross the Plow and the Skyline have through the medium of science fiction and fantasy provided a bold vista on the future grounded in an emergent ecological imagination In the expanded second edition of the original 2001 publication the author argues that a significant shift has taken place in contemporary Anglo American science fiction and fantasy SF F from twentieth century SF F critically analyzed in the first edition s critical inquiry Avantgarde works in twenty first century speculative fiction extensively examined in representative works in interludes separating the slightly revised original chapters have become darker in their visions of the possible future more focused on slowness over breakneck speed more amenable to gender racial and global diversity in authorship plot and subgenre creation less attached to anchor concepts like the city wilderness and the domesticated landscape in plot development more prone to dystopian and critical dystopian tropes simultaneously more open toward but critical of Young Adult fiction and more supportive of the breakdown of borders and antagonisms between science fiction and fantasy and SF F and literary fiction Ensconced in the cultural social and political zeitgeist of the New Millennium s first two decades these features of twenty first century science fiction and fantasy may yet settle into and inform emergent and pluralistic varieties of ecological politics spreading across the globe and confronting the Earth s social and environmental crises of our times and coming decades

Anarchy and the Law Edward P. Stringham, 2017-07-05 Private property anarchism also known as anarchist libertarianism individualist anarchism and anarcho capitalism is a political philosophy and set of economic and legal arguments that maintains that just as the markets and private institutions of civil society provide food shelter and other human needs markets and contracts should provide law and that the rule of law itself can only be understood as a private institution To the libertarian the state and its police powers are not benign societal forces but a system of conquest authoritarianism and occupation But whereas limited government libertarians argue in favor of political constraints anarchist libertarians argue that to check government against abuse the state itself must be replaced by a social order of self government based on contracts Indeed contemporary history has shown that limited government is untenable as it is inherently unstable and prone to corruption being dependent on the interest group politics of the state s current leadership Anarchy and the Law presents the most important essays explaining debating and examining historical examples of stateless orders Section I Theory of Private Property Anarchism presents articles that criticize arguments for government law enforcement and discuss how the private sector can provide law In Section II Debate limited government libertarians argue with anarchist libertarians about the morality and viability of private sector law enforcement Section III History of Anarchist Thought contains a sampling of both classic anarchist works and modern studies of the history of anarchist thought and societies Section IV Historical Case Studies of Non Government Law Enforcement
