Austin, 2013-09-13 This book provides a work in progress

that seeks to capture the micro direct service and macro managerial perspectives related to identifying evidence for practice within the practice domain of public child welfare It is divided into two categories namely evidence for direct practice and evidence for management practice In Part I the articles are categorized in the areas of child welfare assessment and child welfare outcomes Expanded versions of the chapters can be accessed at [www.bassc.net](http://www.bassc.net) In Part II the focus is on organizational issues that relate to evidence for management practice This section includes an overview of evidence based practice from an organizational perspective along with evidence related to the experiences of others in implementing evidence based practice This book pushes the discussion of evidence based practice in several new directions regarding 1 the use of structured reviews to complement the systematic reviews of the Cochrane and Campbell Collaboratives 2 the process of viewing the call for evidence based practice as a goal or future vision of practice and evidence for practice provides a more immediate approach to promote evidence informed practice and 3 a recognition that evidence informed practice is part of building agency based knowledge sharing systems that involve the tacit and explicit knowledge needed to improve the outcomes of social services This book was published as a special issue of the Journal Of Evidence Based Social Work

*Assessment and Treatment of Patients with Coexisting Mental Illness and Alcohol and Other Drug Abuse* Richard Ries, 1994      **Not by Faith Alone** Julie Adkins, Laurie A. Occhipinti, Tara Hefferan, 2010-07-02 This edited collection provides an in depth ethnographic study of faith based development organizations in the United States shining a much needed critical light onto these organizations and their role in the United States by exploring the varied ways that faith based organizations attempt to mend the fissures and mitigate the effects of neoliberal capitalism poverty and the social service sector on the poor and powerless In doing so Not by Faith Alone generates provocative and sophisticated analyses grounded in empirical case studies of such topics as the meaning of faith based development evaluations of faith based versus secular approaches the influence of faith orientation on program formulation and delivery and examinations of faith based organizations impacts on structural inequality and poverty alleviation Taken together the chapters in this volume demonstrate the vital importance of ethnography for understanding the particular role of faith based agencies in development The contributors argue for an

understanding of faith based development that moves beyond either dismissing or uncritically supporting faith based initiatives Instead contributors demonstrate the importance of grounded analysis of the specific discourses practices and beliefs that imbue faith based development with such power and reveal both the promise and the limitations of this particular vehicle of service delivery
