The Last Normal Child Lawrence H. Diller M.D.,2006-08-30 Behavioral developmental pediatrician Lawrence Diller continues his investigation into the widespread use of psychiatric drugs for children in America an investigation that began with his first book *Running on Ritalin* In this work at hand Diller delves more deeply into the factors that drive the epidemic of children s psychiatric disorders and medication use today questioning why these medications are being sought and why Americans use more of these drugs with children than is used in any other country in the world There is relentless pressure for performance and success on children as young as three Diller acknowledges but his analysis goes further and his conclusion is both surprising and ironic In the name of preserving children s self esteem American society has become intolerant of minor differences in children s behavior and performance We worry so much about how our children feel about themselves that struggles once within the realm of normal are now

considered abnormal indicative of a psychiatric or brain disorder requiring diagnosis and treatment with psychiatric drugs often for years The Last Normal Child also addresses the role of drug companies in the advertising and promotion of both disorders and drugs The pharmaceutical industry has garnered incredible profits and power in influencing the way we view children today Diller illustrates through vivid and poignant stories of real patients how he together with families make informed decisions about using psychiatric drugs for children Parents educators pediatric and mental health professionals will gain valuable insights tips and tools for navigating what has become a truly perilous trip of childhood for children in America today **Journal of Education** ,1884 **American Primary Teacher** ,1914 Educating for Character Thomas Lickona,2009-09-02 Calls for renewed moral education in America s schools offering dozens of programs schools can adopt to teach students respect responsibility hard work and other values that should not be left to parents to teach Marie Syrkin Carole S. Hinika,2012-07 Guided only by the light of his grandmother s dreams Gudata embarks on an extraordinary journey to quench his thirst for knowledge that in his impressionable mind only America could satisfy In this unique story we encounter the double edged sword of challenge and inspiration Healer s Light Achieving the Impossible demonstrates the difference one person can make in the lives of thousands One does not expect a boy from a tiny village in the hinterlands of Southern Ethiopia to put himself through two bachelors degrees medical school and become a surgeon much less become an instrumental force in the establishment of a prestigious Trauma Center and to be appointed as its leader at a young age All these pale in comparison to the path he takes as he returns to his roots in rural Ethiopia He establishes a school system where none existed for fifty years and goes on to build a health village in a shantytown that time and commerce forgot **Research in Education** ,1973
