BRIDGING THE RESEARCH-PRACTICE GAP

**EDITED BY
MARGO MAINE, BETH HARTMAN McGILLEY AND
DOUGLAS BUNNELL**

Treatment Of Eating Disorders Bridging The Research Practice Gap

Leigh Cohn, Raymond Lemberg

Treatment Of Eating Disorders Bridging The Research Practice Gap:

Treatment of Eating Disorders Margo Maine, Beth Hartman McGilley, Douglas Bunnell, 2010-09-08 Eating disorders EDs affect at least 11 million people in the United States each year and spread across age race ethnicity and socio economic class While professional literature on the subject has grown a great deal in the past 30 years it tends to be exclusively research based and lacking expert clinical commentary on treatment This volume focuses on just such commentary with chapters authored by both expert clinicians and researchers Core issues such as assessment and diagnosis the correlation between EDs and weight and nutrition and medical psychiatric management are discussed as are the underrepresented issues of treatment differences based on gender and culture the applications of neuroscience EDNOS comorbid psychiatric disorders and the impact of psychiatric medications This volume uniquely bridges the gap between theoretical findings and actual practice borrowing a bench to bedside approach from medical research Includes real world clinical findings that will improve the level of care readers can provide consolidated in one place Underrepresented issues such as gender culture EDNOS and comorbidity are covered in full Represents outstanding scholarship with each chapter written by an expert in the topic area

A Collaborative Approach to Eating Disorders June Alexander, Janet Treasure, 2013-03-01 While many aspects of eating disorders remain a mystery there is growing evidence that collaboration is an essential element for treatment success This book emphasises and explains the importance of family involvement as part of a unified team approach towards treatment and recovery A Collaborative Approach to Eating Disorders draws on up to date evidence based research as well as case studies and clinical vignettes to illustrate the seriousness of eating disorders and the impact on both the sufferer and their loved ones Areas of discussion include current research including genetic factors socio cultural influences and early intervention clinical applications such as family based dialectical and cognitive behavioural treatments treatment developments for both adolescents and adults with a range of eating disorders building collaborative alliances at all levels for treatment and ongoing recovery With contributions from key international figures in the field this book will be a valuable resource for students and mental health professionals including family doctors clinicians nurses family therapists dieticians and social workers

Innovations and Elaborations in Internal Family Systems Therapy Martha Sweezy, Ellen L. Ziskind, 2016-08-25 Martha Sweezy and Ellen L Ziskind s Internal Family Systems Therapy New Dimensions quickly established itself as essential reading for clinicians who are interested in IFS by illustrating how the model can be applied to a variety of therapy modalities and patient populations Sweezy and Ziskind s newest volume Innovations and Elaborations in Internal Family Systems Therapy is the natural follow up to that text Here Richard Schwartz and other master IFS clinicians illustrate how they work with a wide variety of problems racism perpetrator parts trauma addiction eating disorders parenting and grief The authors also show creative ways of putting into practice basic IFS techniques that help parts to unblend and to unburden both personal and legacy burdens

Family Therapy for Adolescent Eating and Weight

Disorders Katharine L. Loeb, Daniel Le Grange, James Lock, 2015-03-27 Family based treatment FBT for eating disorders is an outpatient therapy in which parents are utilized as the primary resource in treatment The therapist supports the parents to do the work nurses would have done if the patient were hospitalized to an inpatient refeeding unit and are eventually tasked with encouraging the patient to resume normal adolescent development In recent years many new adaptations of the FBT intervention have been developed for addressing the needs of special populations This informative new volume chronicles these novel applications of FBT in a series of chapters authored by the leading clinicians and investigators who are pioneering each adaptation

Eating Disorders and Obesity Laura H. Choate, 2015-01-07 Both practical and comprehensive this book provides a clear framework for the assessment treatment and prevention of eating disorders and obesity Focusing on best practices and offering a range of current techniques leaders in the field examine these life threatening disorders and propose treatment options for clients of all ages This text written specifically for counselors benefits from the authors collective expertise and emphasizes practitioner friendly wellness based approaches that counselors can use in their daily practice Parts I and II of the text address risk factors in and sociocultural influences on the development of eating disorders gender differences the unique concerns of clients of color ethical and legal issues and assessment and diagnosis Part III explores prevention and early intervention with high risk groups in school university and community settings The final section presents a variety of treatment interventions such as cognitive behavioral interpersonal dialectical behavior and family based therapy Requests for digital versions from the ACA can be found on wiley com To request print copies please visit the ACA website here Reproduction requests for material from books published by ACA should be directed to publications counseling org

Selecting Effective Treatments Lourie W. Reichenberg, Linda Seligman, 2016-01-06 The bestselling treatment guide updated to reflect changes to the DSM 5 Selecting Effective Treatments provides a comprehensive resource for clinicians seeking to understand the symptoms and dynamics of mental disorders in order to provide a range of treatment options based on empirically effective approaches This new fifth edition has been updated to align with the latest changes to the DSM 5 and covers the latest research to help you draw upon your own therapeutic preferences while constructing an evidence based treatment plan Organized for quick navigation each disorder is detailed following the same format that covers a description characteristics assessment tools effective treatment options and prognosis including the type of therapy that is likely to be most successful treating each specific disorder Updated case studies treatments and references clarify the latest DSM 5 diagnostic criteria and the concise jargon free style makes this resource valuable to practitioners students and lay people alike Planning treatment can be the most complicated part of a clinician s job Mental disorders can be complex and keeping up with the latest findings and treatment options can itself be a full time job Selecting Effective Treatments helps simplify and organize the treatment planning process by putting critical information and useful planning strategies at your fingertips Get up to speed on the latest changes to the DSM 5 Conduct

evidence based treatment suited to your therapeutic style Construct Client Maps to flesh out comprehensive treatment plans Utilize assessment methods that reflect the changes to the DSM 5 multiaxial system Effective treatment begins with strategic planning and it s important to match the intervention to your own strengths preferences and style as much as to the client s needs Selecting Effective Treatments gives you the latest information and crucial background you need to provide the evidence backed interventions your clients deserve

Current Findings on Males with Eating Disorders Leigh Cohn,Raymond Lemberg,2013-06-26 The subgroup of males with eating disorders has been understudied and this book presents the most comprehensive look at this topic since Arnold Andersen edited the text Males with Eating Disorders in 1990 This monograph represents both original research and reviews of other studies based on a special issue of Eating Disorders The Journal of Treatment and Prevention with additional added chapters Representing international contributions from researchers and clinicians in nine countries this cross section includes chapters on etiology sociocultural and gender issues symptom presentation assessment medical and psychological concerns treatment recovery and prevention
