Leadership and Business Ethics Gabriel Flynn, 2008-07-17 This book points to a necessary relationship between ethics and business the success of such an alliance depends directly on sound business leadership Without the sort of leadership that upholds the dignity and rights of employees and clients as well as the interests of shareholders even the most meticulously prepared ethics statements are destined to founder as evidenced at Enron and elsewhere Over the past 30 years or so since business ethics became established as a discipline in its own right much progress has been made in the ethical conduct of business at all levels In short business people like politicians doctors and church leaders have come to realize that it is not possible to avoid involvement in ethics for much of what business people do and cannot do may be subject to ethical evaluation While the history of business ethics as currently practised may be traced to the medieval and ancient periods our principal concern is with developments in the field over recent decades A consideration of how the topic has been treated by the Harvard Business Review the business world leading professional journal provides helpful insights into past progress and present challenges In 1929 just as business ethics was beginning to evolve Wallace B

Army Leadership and the Profession (ADP 6-22) Headquarters Department of the Army, 2019-10-09 ADP 6-22 describes enduring concepts of leadership through the core competencies and attributes required of leaders of all cohorts and all organizations regardless of mission or setting. These principles reflect decades of experience and validated scientific knowledge. An ideal Army leader serves as a role model through strong intellect, physical presence, professional competence, and moral character. An Army leader is able and willing to act decisively within superior leaders' intent and purpose and in the organization's best interests. Army leaders recognize that organizations built on mutual trust and confidence accomplish missions. Every member of the Army, military or civilian, is part of a team and functions in the role of leader and subordinate. Being a good subordinate is part of being an effective leader. Leaders do not just lead subordinates; they also lead other leaders. Leaders are not limited to just those designated by position, rank, or authority.

Successful Supervisory Leadership William J. Rothwell, Behnam Bakhshandeh, Aileen G. Zaballero, 2023-05-22 Why Study Supervision This book presents two compelling reasons to study supervision and supervisory leadership. Influential Position Supervisors exert considerable influence on organizational settings. Supervisors have been schooled, developed, and trained for their responsibilities. They can function more effectively than if they learn through informal, sometimes haphazard means. It thus pays to learn about supervision because supervisors can influence how efficiently and effectively their organization functions. Career Path Many career paths lead to supervision. Supervisors are everywhere. Supervisors are teachers, doctors, accountants, lawyers, plumbers, and electricians. If you aspire to advance within your occupation, you may find that one career path leads to supervision. Preparing for supervisory responsibilities can prepare you for advancement. You may thus have a personal stake in your own future in learning about what supervisors do and how they do it. In addition, this book provides strategies for building solid relationships with team members. Uses positivity as a foundational practice to lead and encourage other employees. Provides guidelines on how to hold employees accountable and set high expectations. Presents strategies to engage, coach, and develop employees by creating a positive environment to influence attitudes and behaviors. Offers various approaches for managing time and increasing productivity.
