Breaking the Mother Goose Code Jeri Studebaker, 2015-02-27 Who was Mother Goose Where did she come from and when Although she s one of the most beloved characters in Western literature Mother Goose s origins have seemed lost in the mists of time Several have tried to pin her down claiming she was the mother of Charlemagne the wife of Clovis King of the Franks the Queen of Sheba or even Elizabeth Goose of Boston Massachusetts Others think she s related to mysterious goose footed statues in old French churches called Queen Pedauque This book delves deeply into the surviving evidence for Mother Goose s origins from her nursery rhymes and fairy tales as well as from relevant historical mythological and anthropological data Until now no one has ever confidently identified this intriguing yet elusive literary figure So who was the real Mother Goose The answer might surprise you *The Pool Group and the Quest for Anthropological Universality* Betsy van Schlun, 2016-11-21 Pool was an avant garde group that originated in 1927 in Britain and was active under this name until 1933 The group consisted of the well known modernist poet H D the English writer Bryher and the young Scottish writer and artist Kenneth Macpherson All three were first and foremost writers who at one point discovered film as another modern experimental medium of artistic expression Pool associated with almost all the iconic modernists of their time with Ezra Pound Gertrude Stein Ernest Hemmingway James Joyce Marianne Moore William Carlos Williams T S Eliot and Virginia Woolf to name only a few In addition due to their interest in film they were also befriended with such influential filmmakers as Sergei Eisenstein and Georg Wilhelm Pabst and became closely associated with Weimar Berlin film culture Pool unites classical Modernism and modernity two directions that are usually considered to be contradictory The Pool phenomenon opens a new perspective onto Modernism and prompts a reconsideration of its canonical texts and figures Contrary to many artists of Modernism who devised highly individualistic aesthetic styles the artists of Pool strove towards a universal art of humanity that was rooted in all human nature and psychology **Suicide by Proxy in Early Modern Germany** Kathy Stuart, 2023-07-24 Suicide by Proxy became a major societal problem after 1650 Suicidal people committed capital crimes with the explicit goal of earning their executions as a short cut to their salvation Desiring to die repentantly at the hands of divinely instituted government perpetrators hoped to escape eternal damnation that befell direct suicides Kathy Stuart shows how this crime emerged as an unintended consequence of aggressive social disciplining campaigns by confessional states Paradoxically suicide by proxy exposed the limits of early modern state power as governments struggled unsuccessfully to suppress the tactic Some perpetrators committed arson or blasphemy or confessed to long past crimes usually infanticide or bestiality Most frequently however they murdered young children believing that their innocent victims would also enter paradise The crime had cross confessional appeal as illustrated in case studies of Lutheran Hamburg and Catholic Vienna

Gender and Emotions in Medieval and Early Modern Europe: Destroying Order, Structuring Disorder Susan Broomhall, 2016-03-03 States of emotion were vital as a foundation to society in the premodern period employed as a force of order to structure diplomatic transactions shape dynastic and familial relationships and align religious beliefs practices and communities At the same time societies understood that affective states had the potential to destroy order creating undesirable disorder and instability that had both individual and communal consequences These had to be actively managed through social mechanisms such as children s education acculturation and training and also through religious intellectual and textual practices that were both socio cultural and individual Presenting the latest research from an international team of scholars this volume argues that the ways in which emotions created states of order and disorder in medieval and early modern Europe were deeply informed by contemporary gender ideologies Together the essays reveal the critical roles that gender ideologies and lived structured and desired emotional states played in producing both stability and instability
