Whicker,1996-04-16 Drawing on her extensive experience and research in various types of organizations business political even religious organizations Dr Whicker looks closely at three distinct types of leaders which she categorizes as trustworthy transitional and toxic leaders In a clear and readable style she describes leadership subtypes for transitional and toxic types the absentee leaders the busybodies controllers enforcers streetfighters and the bullies all of whom are dangerous to their organizations and are directly responsible in many cases for an organization s decline Whicker makes clear however that there are ways to protect oneself from such leaders and shows

exactly what these strategies are A compelling anecdotal authoritative analysis for anyone in any organization who has ever wondered why did the boss do that and why to me As Dr Whicker sees it trustworthy leaders are good moral green light leaders They can be trusted to put the goals of the organization and the well being of their followers first Organizations with trustworthy leaders at the helm have a green light to advance in productivity growth and progress Three types of trustworthy leaders are consensus builders team leaders and commanders Transitional leaders are self absorbed egotistical yellow light leaders They are focused on the approval of others and concerned with their personal role as leaders Organizations headed by transitional leaders have a cautionary yellow light to growth and lurch along at the mercy of the ebb and flow of external currents and trends Three types of transitional leaders are absentee leaders busybodies and controllers Toxic leaders are maladjusted malcontent and often malevolent and malicious They succeed by tearing others down They glory in turf protection fighting and controlling others rather than uplifting followers They are red light leaders who destroy productivity and apply brakes to organizational progress They have a deep seated but well disguised sense of personal inadequacy selfish values and cleverness at concealing deceit Three types of toxic leaders are enforcers streetfighters and bullies This book gives the reader strategies for surviving transitional and toxic leaders and for restoring organizational health
