In *Patagonia Chronicle*, we learn that the author wants to backpack the Torres del Paine backcountry circuit, but she knows that the trek can range from a moderate activity to a life-threatening one depending on the extremely unpredictable weather. The Hiker travel guide for Chile, 2025-09-25 **PATAGONIA, Torres del Paine National Park** Oleg Senkov, 2019-08-17. This is a budget version of the travel guide with reduced printing costs; it is black and white (b/w) inside. The book is a unique and the most complete smart travel guide, which I made at first to be solely used in my own after buying so many travel guides and still feeling they aren't good enough for my adventures to explore wilderness. As a biologist and wildlife travel photographer, I was missing it during my trip to Patagonia in 2017; otherwise, I would be much more efficient as a wildlife photographer and traveler. This is my second book in the wilderness explorer series; the first one I wrote about Peninsula Valdés, see it at 13 Amazon webstores: www.amazon.com/dp/B078RC9QC2, which I hope will be a good practical tool, an all-to-know set of guide books for you, for me as well, while you are exploring the world with a responsible mind and open heart as a truly nature lover. The book contains 90 GPS coordinates of important places, 40 website links covering all the important campsites, hotels, viewpoints, trails, key sightseeing; it has a detailed trekking map and 14 photographs I made in March/April 2017. The book first describes how to get in/out the park, all park's updated rules and prices, then how to design your trekking route and how to book all accommodation in the park and nearby. In addition to popular W and O trekking circuits in the park, I give information about another 6 less-known secret off-the-beaten-path trails. I also give all the details for wild and paid camping, hotels, hostels, domes, cabins, food stores, roads, conditions, travel scenarios, public buses, prices for touristic services, paid tours, wildlife safaris, fishing, kayaking, horseback riding. At the end of the guide, I give detailed information about what kind of wild animals and where you can meet them in the park: puma, condors, huemul, guanaco, fox, and their behavior. I also describe where you can find fossils from the Jurassic Era of ichthyosaur, a large prehistoric marine dolphin-like predator, or to see ancient cave paintings of indigenous tribes who lived here 3000–8000 years ago. The book can be equally useful for budget adventure seekers, solo, group travelers; fast quality is the highest standard possible; they are rather small (15x23 cm), light weight (only 150 g each), fully colorful inside with maps and GPS coordinates; pages are robustly made and glued; the cover is made of water-repellent paper; books are flexible; you can bend them; nothing will

happen though they are ideal to put them into your backpack and use them while you travel through wonderful Patagonia
Enjoy and take care
