Vegetius Epitome Of Military Science Translated Texts For Historians

Karin Nielsen-Saines

Vegetius Epitome Of Military Science Translated Texts For Historians:

Epitome of Military Science Flavius Vegetius Renatus,1996 *Vegetius* ,1993 The only Latin art of war to survive Vegetius Epitome was for long a part of the medieval prince s military education The core of his proposals the maintenance of a professional standing army was revolutionary for medieval Europe while his theory of deterrence through strength remains the foundation of modern Western defence policy by far the best English translation of Vegetius available Bryn Mawr Classical Review <https://global.oup.com/academic/product/9780853239109-cc-us> **Vegetius : Epitome of Military**

Science Flavius Vegetius Renatus,1993 The only Latin art of war to survive Vegetius Epitome was for long an essential part of the medieval prince s military education The core of his proposals the maintenance of a highly trained professional standing army and navy was revolutionary for medieval Europe while his theory of deterrence through strength remains the foundation of modern Western defence policy This annotated translation highlights the significance for his own age of Vegetius advice written just before the fall of the Roman Empire in the West at a time when economic weakness and political disintegration threatened to undermine the strategic defensive structure that had underpinned the Roman State for so long The main thrust of his reforms is to confront the problems of the fragmentation of the army the barbarization of its personnel the loss of professional skills and the substitution of mercenaries for standing forces The accent of the work is on the practicalities of recruiting and training new model armies and navies starting from scratch and on the strategies appropriate to their use against the barbarian invaders of the period Jacket **Liverpool University Press Autumn 2010 Catalogue ,**

Historical texts on the Roman military camp (300 BC-AD 500) Víctor Lluís Pérez García,2019-09-09 The secrets of the Roman field fortifications unveiled A comprehensible introduction with all the existing ancient texts translated into English This book presents a compilation of four fragments written by different authors who lived in Roman times Hyginus 1st 2nd century AD Polybius 2nd century BC Vegetius 4th century AD and Flavius Josephus 1st century AD Besides the modern English translation it also provides two didactical synthesis on the topic a brief summary of the Greco Roman authors and works that inform us about ancient military science and a concise introductory study on the Roman military camp based on historical and archaeological sources The author Dr Víctor Lluís Pérez García is a history teacher archaeology researcher and orientalist expert in poliorcetics and polemology Genre military history Roman archaeology classical literature Illustrations high resolution plans and maps black and white Publisher Edicions Excàlibur Tarragona 2019 ISBN 978 84 17793 04 3 kindle ISBN 978 84 17793 05 0 paperback ISBN 978 84 17793 06 7 pdf ISBN 978 84 17793 07 4 epub

Reader's Guide to Military History Charles Messenger,2013-10-31 This book contains some 600 entries on a range of topics from ancient Chinese warfare to late 20th century intervention operations Designed for a wide variety of users it encompasses general reviews of aspects of military organization and science as well as specific wars and conflicts The book examines naval and air warfare as well as significant individuals including commanders theorists and war leaders Each entry

includes a listing of additional publications on the topic accompanied by an article discussing these publications with reference to their particular emphases strengths and limitations

The Journal of Military History ,1994 Includes scholarly articles and book reviews on topics in military history

A Cultural History of Medicine in Antiquity Laurence Totelin,2023-02-09 Patient disease and physician were the three corners of the medical triangle according to one of the texts attributed to Hippocrates a famous ancient Greek doctor This volume covering a period from roughly 800 BCE to 800 CE examines and deconstructs these three aspects of ancient medicine in the Mediterranean world It shows that while physicians sought to assert themselves as experts in the medical art they had to contend with numerous other healers whose methods remedies and tools patients often favoured It explores the ways in which civic entities cities kingdoms and empires and their officials directly and indirectly shaped medical encounters and discoveries It examines the interaction between medicine and the environment non human animals and plants To attempt a cultural history of medicine in antiquity requires bringing together a wealth of sources the texts attributed to Hippocrates Galen and other medical authors are not neglected but they are studied alongside other literary and historical works letters on papyri funerary inscriptions celebrating healers surgical tools and bioarchaeological remains While discussing the enduring cultural impact of classical Greek and Roman medicine in the West through texts such as the Hippocratic Oath or names of diseases and types of medicines this volume reveals the various ways in which health disease and medical treatments were experienced diversely in the ancient world according to gender socio economic class and ethnicity

Alfred's Wars Ryan Lavelle,2012 Although this book provides a selection from sources and interpretations of warfare in Viking Age England and presents a consideration of them it is more than a purely historiographical study It investigates the current state of scholarship and the key points of its development indicating areas for enquiry and point out some less familiar sources along the way The intention is not to deal with the canon of historical works on the Anglo Saxon army for remarkably there is no canon as such Much though by no means all scholarship on the organization of military systems in the Anglo Saxon state has been undertaken by historians and scholars from related disciplines for whom warfare is not a primary concern Many of the sources used will be familiar to students of early medieval England but others are included because they are less often considered I have not attempted to use a chronological structure nor have I retold any particular narrative history of the English Kingdom during the Viking Age although for the reader s convenience a chronology of events is included as an appendix The focus is rather the exploration of the practice and politics of warfare Preface

Military History of Late Rome 602-641 Ilkka Syväanne,2022-12-29 The Military History of Late Rome 565 602 provides a fresh analysis of the Roman Empire from the reign of Phocas 602 10 until the death of Heraclius 610 41 This was an era of unprecedented upheavals which is usually considered to have resulted in the end of antiquity The usurpations of Phocas and Heraclius led to the collapse of the Roman defenses The Persians conquered Syria Lebanon Palestine and Egypt The Avars and Slavs ravaged the Balkans The Lombards held the upper hand

in Italy the Visigoths conquered Spain But then happened one of the most remarkable reversals of fortune in the history of mankind Heraclius began his holy war against the fire worshippers He launched a very effective counterattack against the Persians as a result of which the Romans not only defeated the Persians but actually even extended their domains at their expense and not only this because by 633 Heraclius was already restoring the Roman fortunes in the Balkans This volume revises many of the previously held views of how this took place and what actually happened The Roman armies seemed invincible and then happened yet another great reversal of fortune the Muslims began their jihad to conquer the world The author provides a fresh analysis of all of these upheavals explains in detail why these reversals of fortune happened what enabled the Romans to defeat the Persians and why the Romans lost when they fought against the Muslims and conversely why the Muslims were so successful This was an era of epic campaigns and battles all of which are explained in unprecedented detail The epic campaigns needed equally talented commanders who include for example Heraclius Chosroes II Parwez Shahrbaraz Shahin Abu Bakr Umar Abu Ubaydah and Khalid b al Walid the Sword of Allah

Military History of Late Rome 565-602 Ilkka Syväne, 2022-09-21 A fresh analysis of the Roman Empire in the aftermath of the reconquests of Justinian I It is often claimed that Justinian overstretched the Roman resources but the analysis in Military History of Late Rome 565 602 proves that view wrong It demonstrates that the initial troubles were largely the result of the mistakes of Justin II and that his successors Tiberius II and Maurice not only restored its fortunes but were at the time of Maurice's death actually poised to complete the reconquests of Justinian It was thanks to the reforms of Maurice which were codified in the military treatise the Strategikon that the Roman army had achieved a position of relative superiority over all of its enemies so that by 602 the Romans had decisively defeated the Persians Slavs and Avars These gains however were lost when Maurice was murdered in a military mutiny that brought Phocas to power This volume explains why the Roman army overthrew one of the greatest Roman emperors who ever lived This was an era of epic battles so the author also pays particular attention to the period tactics and analyzes all the period battles in great detail These include such battles as Melitene Constantia Sirmium Nymphius River Solanichon Lake Urmiah Plain of Canzak Iatrus and the epic battles of Priscus and Comentiolus in the Balkans Praise for Military History of Late Rome 425 457 An outstanding work the series gives us a very good picture of the long process that has come to be known as the Fall of Rome This is an invaluable read for anyone with an interest in Late Antiquity The NYMAS Review

Program of the Annual Meeting - American Historical Association American Historical Association, 1997 Some programs include also the programs of societies meeting concurrently with the association

Proceedings of the ... International Congress of Medieval Canon Law, 1996 *Armies, Chivalry and Warfare in Medieval Britain and France* Matthew Strickland, 1998 The proceedings of the 1995 Harlaxton Symposium comprise twenty essays which testify to the diversity of current approaches to the study of medieval warfare employing not only a variety of chronicle and documentary sources but also contemporary literature and iconography from the early middle ages

to the sixteen century Contributors include Maurice Keen Christopher Allmand Carol Edgington Richard Morris Jim Bradbury Toby Purser Charles Coulson Andrew Ayton Kay Lacey Michael Prestwich Kelly DeVries Mathew Strickland and Frederique Lachaud Historic Brass Society Journal ,2000 **A Catalogue of Roman Military Equipment in the National Museum of Wales** Evan M. Chapman,2005 All of the Roman military equipment featured in this catalogue was found in Wales reflecting the region s domination by both soldiers and forts for approximately 350 years Many objects are catalogued and illustrated here followed by a gazetteer which provides background information on the sites where the objects were found Ancient Society ,2012 *Medievalia Et Humanistica* ,1994 **The British National Bibliography** Arthur James Wells,2003 *The Writings of the Roman Land Surveyors* J. B. Campbell,2000 The Corpus Agrimensorum Romanorum compiled in the 5th century AD was a collection of Roman surveying manuals produced by a variety of authors writing at different times and with very different priorities authors include Julius Frontius Aegennius Urbicus Hyginus Balbus Siculus Flaccus as well as miscellaneous texts This substantial volume aims to make these sources more accessible by presenting the Latin text with facing English translation succeeded by a 130 page commentary The eclectic choice of sources avoids the purely technical texts and includes those which Campbell considers to be most useful for historians archaeologists and those studying ancient technology The introduction discusses the text and authors the origins development and status of surveying and Roman land division A series of illustrations diagrams a glossary of terms and a large bibliography conclude the volume

Vegetius Epitome Of Military Science Translated Texts For Historians Book Review: Unveiling the Magic of Language
