Decoloniality, Language and Literacy Carolyn McKinney, Pam Christie, 2021-12-20 Through a range of unconventional genres representations of data and dialogic reflective narratives alongside more traditional academic genres this book engages with contexts of decoloniality and border thinking in the Global South It addresses processes of knowledge production and participation in the highly divided and unequal schooling and higher education system in South Africa and highlights the consequences of the monolingual myth in post colonial education demonstrating opportunities for learning provided by translanguaging It explores both embodied multimodal and multilingual instances of knowledge making in teaching and teacher education that take place outside but alongside formal classroom lecture and seminar modes and the positionality and learning experiences of teacher educators in science literacy and language across the curriculum The book is not only transdisciplinary but also captures the learning that

takes place beyond the borders of disciplines and formal classroom spaces *Journalists and Job Loss* Timothy Marjoribanks, Lawrie Zion, Penny O'Donnell, Merryn Sherwood, 2021-11-29 *Journalists and Job Loss* explores the profound disruption of journalism work in the 21st century's networked digital media environment. The chapters analyse how journalists have experienced and navigated job loss, re-employment, career change and career re-invention as traditional patterns of newsroom employment give way to occupational change, income insecurity and precarious work in journalism globally. The authors showcase the design methodology and results of the New Beats project, a ground-breaking longitudinal study of change in the work of Australian journalists as well as related case studies of job loss and career change in journalism based on research in different national settings across the global North and global South. The book also considers the wider implications of changes in journalism work for media sustainability, gender equity and journalism work futures. The book provides a theoretically informed and empirically grounded analysis of job loss and the new contours of journalistic work in a critical political, cultural, economic and social industry. It will be an important resource for researchers and students in disciplines including journalism, media and communication studies, business and the social sciences in general.
