

ENGINE MODEL, SERIAL NUMBER AND OPTION PLATE

The engine serial number and model number are stamped on the cylinder block in the following locations (as viewed from the flywheel end): The left side, upper front corner of current 6V and 8V cylinder blocks (Fig. 4) and the right side, upper rear corner of current 12V and 16V blocks and former 6V and 8V blocks.

Fig. 4 – Typical 8V-71 Engine Serial Number and Model Number

Option Plate (Metal Labels)

An option plate, attached to one of the valve rocker covers, carries the engine serial number and model number and, in addition, lists any optional equipment used on the engine (Fig. 5).

On-highway vehicle engines also carry an exhaust emission certification label next to the option plate. It is separate from the option plate and is mounted permanently in the option plate retainer. The current label includes information relating to an engine family for the maximum fuel injector size and maximum speed. *Due to Federal regulations, the exhaust emission plate should not be removed from the rocker cover.* Refer to Section 14 for further information regarding emission regulations.

Fig. 5 – Option Plate

Fig. 6 – Typical Option Label

With any order for parts, the engine model number and serial number must be given. In addition, if a type number is shown on the option plate covering the equipment required, this number should also be included on the parts order.

All groups of parts used on a unit are standard for the engine model unless otherwise listed on the option plate.

Power takeoff assemblies, torque converters, marine gears, etc. may also carry name plates. The information on these name plates is also useful when ordering replacement parts for these assemblies.

• Option Plate (Paper Labels)

A new paper/laminate engine option label (Fig. 6) has replaced the metal option plate. In conjunction with the new option label, the following paper/laminate labels are also being used: **bar code labels** for engine serial number and customer specification number; **emissions label** (when applicable) and **disclaimer label**.

Distributors will provide their own label(s) in order to notify the customer of any distributor-made changes to Detroit Diesel-manufactured engines. Distributor-typed label(s) will indicate the distributor name, address and the group/type revisions that reflect their changes to engines as originally manufactured by Detroit Diesel.

Attaching Labels

Labels must be placed on rocker covers. Labels are designed to fit in the same space provided for the former stamped or current cast rocker cover option plate holder.
