Interreligious Learning and Teaching Kristin Johnston Lergen, Mary E. Hess, Christy Lohr Sapp, 2014 There is still resistance in Christian institutions to interreligious dialogue The author provides not only the theological grounding for such a position but also advice on how to teach and live out this conviction in a way that promotes greater understanding and respect for others and engenders a deeper appreciation of one's own faith tradition *Christian Theology in a Pluralistic Age* David H. Jensen, 2024-12-16 How does today's context of radical pluralism affect Christian theology Can Christian theologians be claimed by more than one religious tradition What makes constructive interreligious dialogue possible The authors of this volume explore the challenges and opportunities of religious diversity and religious non affiliation for Christian faith By exploring the ways in which engagement of other traditions changes them these theologians offer hopeful reflections for the church's dialogical future *Faithful Interpretations* Philip Geister, Gosta Hallonsten, 2021-02-26 Theology of Religions is among the most burning issues within Christian theology today The challenge to study and discuss different ways of handling conflicting truth claims and religious narratives between religions is taken up by a growing number of theologians across denominational boundaries This is a common and ecumenical effort undertaken by Christian theologians all over the world And yet the impact of specific ecclesiastical or theological traditions on different concepts of theology of religions should not be underestimated As well known the Second Vatican council with its pivotal decree *Nostra Aetate* On the relation to other religions not only set the agenda for Catholic theology but even influenced the wider discussion on the topic The papers of this volume were all given at a conference in Uppsala Sweden in October 2017 The structure of *Faithful Interpretations* follows closely the way the conference was conducted A general introduction to the development and present status of Theology of Religions by Marianne Moyaert opens the book Archbishop J Augustine Di Noia of the Vatican Congregation for the Doctrine of Faith then treats the recent developments in the teaching of the Magisterium regarding theology of religions Anna Bonta Moreland addresses the issue of Muhammad and Christian Prophecy Diego R Sarri Cucarella focuses on early Christian theological views of Islam and concludes that Islam has been from the beginning a disturbing factor

in the Christian view of salvation history Wilhelmus G B M Valkenberg discusses the impact of Nostra Aetate on the Church's relation to Muslims using especially the precedent of Nicolaus of Cues as regards a constructive approach to Islam Klaus von Stosch addresses a sensitive issue in Muslim-Christian relations and illustrates the advantages of the comparative theology approach for the theology of religions Complementing this perspective Peter Jonkers offers a hermeneutical perspective on truth claims and reflects on the religious Other with references to Jacques Derrida among others Reinhold Bernhardt argues in favour of a biblically grounded relational existential theory of truth which would be most helpful with regard to other religions To conclude the prominent Catholic specialist on Theology of Religions Gavin D Costa widened the perspective by addressing the relation to Judaism from the point of view of the covenant and the promises of the land Altogether the papers of this volume give a clear impression of the status of Roman Catholic Theology of Religions

Perspectives on theology of religions Jaco Beyers, Piet J. van der Merwe, Wilhelmina Magdalena Shaw, Ronald Allen Baatsen, Johannes Janse van Rensburg, Tessa Freeman, 2017-11-23 In the public theology discourse the concept public square has become significant In today's multicultural and globalised world it is inevitable that people with different religious affiliations will encounter one another in the public square Public theology cannot but become theology of religions Scholars in the field of religion studies are compelled to reflect theologically on the relevance of religiosity in the postmodern secular world The term theology of religions refers to the academic inquiry into the relationship between religions The collected essays constitute such an inquiry In the end it is not so much about the encounter of religions but rather of people Religion is no longer regarded as a monolithic body of beliefs and practices The authors concede that the concept religion is too fluid to be delineated precisely The book's approach to the relationship between religions i.e. theology of religions reflects how the authors understand the origin and nature of religion a theology of religion in the singular This book focuses more on theology of religions plural than on theology of religion singular The main objective of the book is to present a variety of perspectives on how theology of religions manifested in different contexts This includes historical i.e. Luther's theology of religions and the Roman Catholic position on other religions as taken by Vatican II as well as cultural and religious perspectives In the first chapter the editor gives a brief overview of the development of the discipline of theology of religions The postmodern era is characterised by an almost non-foundational approach The second chapter traces the development of the discipline in the Roman Catholic tradition in particular This contribution is based on the insights of P J van der Merwe 1944-2014 who as researcher and Head of the Department of Science of Religion and Missiology at the University of Pretoria developed a specific theological position on non-Christian religions A whole generation of theologians was trained in this school of thought He passed away in 2014 and this publication pays tribute to his life's work on religions and their relations The contributions that follow are the culmination of the research of postgraduate students at the University of Pretoria The third chapter presents a perspective on the Reformation with a particular focus on Martin Luther In this year of the quincentenary anniversary of the Reformation

the legacy of Reformed belief is highlighted The fourth chapter describes the relationship between Christianity and Islam from the perspective of a willingness to embrace The fifth chapter analyses the relation between Christianity Judaism and Islam from the perspective of intergroup threat theory A model for theology of religions in a South African context is developed in the sixth and final chapter This scholarly book pays tribute to the academic contribution of P J van der Merwe mentor of the authors of these multifaceted reflections on theology of religions The target audience is specialists in the field of religion studies The distinctive contribution of the book is the innovative perspectives on the relationship between Islam and Christianity in both the Roman Catholic and Protestant contexts *Interfaith Encounters in America* Kate

McCarthy,2007-03-28 From its most cosmopolitan urban centers to the rural Midwest the United States is experiencing a rising tide of religious interest While terrorist attacks keep Americans fixed on an abhorrent vision of militant Islam popular films such as The Passion of the Christ and The Da Vinci Code make blockbuster material of the origins of Christianity The 2004 presidential election we are told was decided on the basis of religiously driven moral values A majority of Americans are reported to believe that religious differences are the biggest obstacle to world peace Beneath the superficial banter of the media and popular culture however are quieter conversations about what it means to be religious in America today conversations among recent immigrants about how to adapt their practices to life in new land conversations among young people who are finding new meaning in religions rejected by their parents conversations among the religiously unaffiliated about eclectic new spiritualities encountered in magazines book groups or online *Interfaith Encounters in America* takes a compelling look at these seldom acknowledged exchanges showing how despite their incompatibilities Buddhist Muslim Christian Jewish and Hindu Americans among others are using their beliefs to commit to the values of a pluralistic society rather than to widen existing divisions Chapters survey the intellectual exchanges among scholars of philosophy religion and theology about how to make sense of conflicting claims as well as the relevance and applicability of these ideas on the ground where real people with different religious identities intentionally unite for shared purposes that range from national public policy initiatives to small town community interfaith groups from couples negotiating interfaith marriages to those exploring religious issues with strangers in online interfaith discussion groups Written in engaging and accessible prose this book provides an important reassessment of the problems values and goals of contemporary religion in the United States It is essential reading for scholars of religion sociology and American studies as well as anyone who is concerned with the purported impossibility of religious pluralism *Inward Being and Outward Identity: The Orthodox Churches in the 21st Century* John A. Anderson,1984 Norman Anderson examines the works of well known thinkers the biblical evidence and the beliefs of major non Christian religions to show the uniqueness and relevance of Christianity in a world devoted to pluralism Bulletin - Council on the Study of Religion Council on the Study of Religion,1982 World Religions in Practice Paul Gwynne,2017-05-30 A new and expanded edition of a highly successful textbook on world religions with a comparative approach which explores how six major religions are lived and expressed through their customs rituals and everyday practices A new edition of this major textbook exploring the world s great religions through their customs rituals and everyday practices by focusing on the lived experience This comparative study is enriched and broadened with the inclusion of a sixth religion Daoism Takes a thematic comparative and practical approach each chapter explores a series of key themes including birth death ethics and worship across all six religions at each time Broadens students understanding by offering an impartial discussion of the similarities and differences between each religion Includes an increased range of student friendly features designed to allow students to engage with each religion and extend their understanding Christianity and World Religions Gavin D'Costa,2009-03-09 Why has the reality of other religions become a big problem for Christianity In the past Christianity has been able to largely ignore other religions but in recent decades not just the reality but the vitality of other religions has become a challenge This accessible book tackles a number of questions arising from these changes is belonging to one religion rather than another merely a matter of cultural preference is salvation the same among all religions and what can be learned from other religions Considering wider issues of how modernity has defined religion Gavin D Costa provides a substantial critique of secular ways of controlling religions and shows how Christianity is very well suited to deal with religious plurality at the doctrinal and social level The book makes a decisive contribution to debates about the clash between Islam and the West arguing that the major threat to religious freedoms come from secularism and that Islam and Christianity both have the resources to develop a vibrant and pluralist public square informed by intellectual debate By engaging with the core questions and suggesting a pathway through the various answers that have been proposed in recent years this is an ideal introduction to the field and one which will help stimulate ideas and discussions Religious and Theological Abstracts ,2004 **The New Comparative Theology** Francis X. Clooney,2010-06-03 This book is an extended critical reflection on the state of interreligious dialogue in its modern version While there has been some important writing in the field of comparative theology there has been no extended critical reflection on the state of the discipline in its modern version its strengths and problematic areas as it grows as a serious theological and scholarly discipline This work of young scholars in conversation with one another remedies this lack by as it were taking the discipline apart and putting it back together again The volume seeks to understand how to learn from multiple religions in a way that is truly open to those religions on their own terms while yet being rooted in the tradition s that we bring to our interreligious study
