Worship And Christian Identity Practicing Ourselves:

Worship and Christian Identity E. Byron Anderson, 2003 This book develops the claim that sacramental and liturgical practices are central means by which a church shapes the faith character and consciousness of its members It explores the relationship between corporate worship and the formation of Christian persons and communities within an ecclesial tradition and the relationship between worship and our knowledge of ourselves our world and God The author argues that attention to the reform and renewal of worship and sacramental practice provides a framework for the theological evangelical and sacramental renewal of mainline Protestant churches Worship and Christian Identity E. Byron Anderson, 2017-04-21

Worship and Christian Identity argues that sacramental and liturgical practices are the central means by which a church shapes the faith character and consciousness of its members Consequently for any church to set aside such practices as outdated or irrelevant is to set aside the means by which the church nurtures and sustains its theological identity From this perspective Anderson explores the following questions What is the relationship between worship and belief What is the relationship between corporate worship and the formation of Christian persons and communities What is the relationship between worship and our knowledge of ourselves our world and God How might our attention to the reform and renewal of worship and sacramental practice provide a framework for theological evangelical and sacramental renewal Questions of sacramental practice inclusive or transformative language and the renewal of congregational hymnody have been largely displaced by marketing questions and conflicts between traditional and contemporary worship The hour of worship is subdivided now into increasingly specialized target audiences of singles seekers boomers and X ers with worship carefully packaged as traditional or contemporary What at various points has been understood as a means of grace is now seen primarily as a means of numerical growth Missing in the conflict between traditional and contemporary worship is significant discussion of what is at stake for the identity of Christian persons and communities in the shape and practice of worship Perhaps more surprising discussion of the theological shape and practice of worship also has been absent in discussions concerning theological standards These absences suggest that for many in the church today worship is a means for expressing a community's belief but has little to do with the shape and character of that belief The assumption that worship is only or primarily a pragmatic means for expressing a community's belief stands in sharp contrast to the Christian tradition This assumption also contrasts with the insights provided by recent work in ritual studies psychology and faith development Worship and Christian Identity is an important book for faculty and students in seminary and graduate programs in liturgical studies and religious education particularly those interested in the relationships between liturgical studies and practical theology ritual studies and liturgical theology as well as the role of worship in Christian formation Chapters are Making Claims About Worship Worship as Ritual Knowledge Worship as Ritual Practice Trinitarian Grammar and the Christian Self Trinitarian Grammar and Liturgical Practice and A Vision of Christian Life Pastoral Care in Worship Neil

Pembroke,2010-01-26 Pastoral Care in Worship draws on Christian heritage and illuminating psychological research to deepen and enrich the pastoral dimension of Sunday worship

Prophetic Liturgy Tercio Junker,2014-02-07 The primary purpose of Prophetic Liturgy is to inquire into the prophetic dimension of the liturgy Some questions addressed in the book are How can a liturgy be prophetic How can liturgy form and transform individuals and communities In which sense does the liturgy facilitate a living participation in socio political economic life How does the sacramental practice challenge the church to mediate God s gifts of grace love justice and mercy to the world Possible answers for these questions begin to emerge as we develop an understanding of religious praxis as an active and dynamic prophetic action in which the community of faith claims its identity promotes an engaged faithful Christian life and affirms the sacramental life of the church as a source of formation and inspiration for prophetic praxis mediating God s gift for the life of the world There is risk in presenting an option for prophetic praxis in that it may go beyond the comfort zone of a community and engender spiritual and political alienation The most challenging ethical hope of this book is to provide the worshiping community with prophetic awareness of socio economic injustice while at the same time preserving the community s historical cultural identity its religious values and its sacramental spirituality

Engraved Upon the Heart Hwarang Moon,2015-07-17 How does liturgy impact the formation of faith The Protestant Church has traditionally emphasized human reason and doctrinal knowledge But there is another method with great formative power participation in liturgy Human beings gain important knowledge not only through traditional cognitively focused learning but also through practice and participation And because knowledge is wholistic an inability to express an idea in language does not necessarily signify an absence of knowledge This book shows how liturgy transmits knowledge that transcends human reason We repeat the liturgy in weekly public worship and its contents are inscribed on our minds and bodies Contrary to common belief this is also true for children and cognitively challenged individuals They may be unable to verbally express the contents of their faith in a way that satisfies normal adult expectations but these two groups of people are capable of rich religious experiences This book explores how welcoming them into experience and practice of worship and sacrament can benefit children cognitively challenged church members their families and the church community as a whole and makes us all a more inclusive community in Christ

Social Functions of Synagogue Song Jonathan L. Friedmann, 2012-04-26 Social Functions of Synagogue Song A Durkheimian Approach by Jonathan L. Friedmann paints a detailed picture of the important role sacred music plays in Jewish religious communities. This study explores one possible way to approach the subject of music's intimate connection with public worship applying sociologist mile Durkheim's understanding of ceremonial ritual to synagogue music. Durkheim observed that religious ceremonies serve disciplinary, cohesive, revitalizing and euphoric functions within religious communities. Drawing upon musical examples from different composers, regions, periods, rites and services, Friedmann demonstrates how Jewish sacred music performs these functions.

Christ the Liturgy William Daniel, 2020-06-25 We are Homo liturgicus, liturgical beings. But what is liturgy? What does it mean to do liturgy? How is liturgy related to the agency of God in the world? In this profound work, William Daniel discloses liturgy as the inner movement of the triune God into which creation is gathered by and through Christ, who is Liturgy. Christ the Liturgy is a work of historical and liturgical theology that articulates how we make manifest both our true selves and God through bodily comportment and particular movements. Daniel explores the participatory nature of liturgy, how we encounter our natural nature in measure with our involvement in the agency of Christ, which in turn is inseparable from the comportment and movements of others, the spatial realities of our environment and the grammatical structure and language used to account for each. All are interwoven and affect our capacity to know and experience ourselves as bearers of divine agency as beings known by God. Christ centered at every turn and grounded in scripture, Daniel's work situates human agency within the Agency of God, the Liturgy, who is a participatory ontology materialized through dispositions of faith.

Created and Led by the Spirit Mary Sue Dehmlow Dreier, 2013-07-07 This fifth Missional Church Series volume seeks to bring historical clarity, biblical and theological substance and practical guidance to church planting. The nine contributors, many of them experienced church planting pastors, offer diverse yet cohesive perspectives on the Spirit's missional church planting in our time. Section One presents three essays which address missional church planting as a theological practice with particular attention given to the activity of the Holy Spirit within the context of God's Trinitarian life. Section Two grounds church planting initiatives in the generative soil of story. The two essays in this section narrate how specific congregations provide glimpses of the Holy Spirit in action, supplying the reader with hints for how history might lead to future expectations of the Holy Spirit's ongoing church planting activity. Three essays in Section Three focus on new frontiers appearing on the church planting horizon, and an epilogue provides a sermon which orients church planting efforts in witness that flows from the heart of God. In this book, readers will find fresh insights into an exciting new future created and led by the Spirit. Contributors: Daniel Anderson, Leith Anderson, Paul Chung, Mary Sue Dehmlow, Dreier, Todd Hobart, Harvey Kwiyani, Lois Malcolm, Susan Tjornehoj, Miroslav Volf.

The Old Testament Is Dying (Theological Explorations for the Church Catholic) Brent A. Strawn, 2017-03-14 The

Old Testament constitutes the majority of the Christian Bible and provides much of the language of Christian faith. However many churches tend to neglect this crucial part of Scripture. This timely book details a number of ways the Old Testament is showing signs of decay, demise and imminent death in the church. Brent Strawn reminds us of the Old Testament's important role in Christian faith and practice, criticizes current misunderstandings that contribute to its neglect, and offers ways to revitalize its use in the church. *Ways of Living Religion* Christina M. Gschwandtner, 2024-03-14. This study provides a philosophical analysis of different types of religious experience focusing on the lived experience of religion.

How Youth Ministry Can Change Theological Education - If We Let It Kenda Creasy Dean, Christy Lang Hearlson, 2016. Since 1993 forty nine theological seminaries have created opportunities for high school students to participate in on campus High School Theology Programs (HSTPs) that invite them to engage in serious biblical and theological study. Many of the young people who take part in these programs go on to become pastoral or lay leaders in their churches. What has made these programs so successful, especially given the well documented crisis of faith among young people today? In this book thirteen contributors, many of whom have created or led one of these innovative theology programs, investigate answers to this question. They examine the pedagogical practices the HSTPs have in common and explore how they are contributing to the leadership of the church. They then show how the lessons gleaned from these successful programs can help churches, denominations and seminaries reimagine both theological education and youth ministry.

From Misery to Hope Joe Egan, 2010. How can one believe in a God of love amid all the evil and suffering found in the world? How does one do theology after Auschwitz while vast numbers of people still have to endure violent oppression every day? This book seeks to address such questions from a standpoint informed by life in Africa, which in the face of extraordinary difficulties bears witness to Gospel hope by demonstrating forgiveness in action and promoting reconciliation. The work unfolds in two parts. In the first part a description of the misery that characterises much of life in Africa in the recent past opens up to a theological consideration of the underlying causes and of God's response to them. In the second part the joy which is so characteristic of life in Africa, even in places of immense suffering, sets the scene for detailed reflections on liturgy, memory, forgiveness and hope.

Welcoming Finitude Christina M. Gschwandtner, 2019-10-01. What does it mean to experience and engage in religious ritual? How does liturgy structure time and space? How do our bodies move within liturgy and what impact does it have on our senses? How does the experience of ritual affect us and shape our emotions or dispositions? How is liturgy experienced as a communal event and how does it form the identity of those who participate in it? *Welcoming Finitude* explores these broader questions about religious experience by focusing on the manifestation of liturgical experience in the Eastern Christian tradition. Drawing on the methodological tools of contemporary phenomenology and on insights from liturgical theology, the book constitutes a philosophical exploration of Orthodox liturgical experience.

The Aesthetics and Ethics of Faith Christopher D. Tirres, 2014-01-17. What is the future of liberation thought in the Americas? In this groundbreaking work

Christopher D Tirres takes up this question by looking at the methodological connections between two quintessentially American traditions liberation theology and pragmatism He explains how pragmatism lends philosophical clarity and depth to some of liberation theology s core ideas and assumptions Liberation theology in turn offers pragmatism a more nuanced and sympathetic approach to religious faith especially its social and pedagogical dimensions Ultimately Tirres crafts a philosophical foundation that ensures the continued relevance of liberation thought in today s world Keeping true to the method of pragmatism the book begins inductively with a set of actual experiences the Good Friday liturgies at the San Fernando Cathedral in San Antonio Texas and provides a compelling description of the way these performative rituals integrate the aesthetic and ethical dimensions of faith Subsequent chapters probe this integration deductively at three levels of theoretical analysis experience metaphysics sociality and pedagogy As Tirres shows the aesthetic and ethical dimensions of faith emerge in different yet related ways at all three levels He argues that utilizing the categories of the aesthetic and ethical enables a richer understanding of the dynamic relationship between faith and politics This book builds new bridges between a number of discourses and key figures and will be of interest to all who are interested in the liberatory potential of engaged faith praxis especially when it is expressed in the form of religious ritual *Announcing the Feast* Jason

McFarland,2012-02-01 How does the entrance song of the Mass function within the Roman Rite What can it express theologically What should Roman Catholics sing at the beginning of Mass In this groundbreaking study Jason McFarland answers these and other important questions by exploring the history and theology of the entrance song of Mass After a careful history of the entrance song he investigates its place in church documents He proposes several models of the entrance song for liturgical celebration today Finally he offers a skillful theological analysis of the entrance song genre focusing on the song for the Holy Thursday Evening Mass arguably the most important entrance song of the entire liturgical year *Announcing the Feast* provides the most comprehensive treatment of the Roman Rite entrance song to date It is unique in that it bridges the disciplines of liturgical studies musicology and theological method **Grace, Governance and**

Globalization Martin G. Poulsom,Stephan van Erp,Lieven Boeve,2017-04-06 What role does could or should theology play in current discussions about our political realities Is there a place for theological worldviews in the public conversation about policy making Should theology critically unmask the underlying theological and metaphysical sources of contemporary politics The contributors to this volume reflect on new questions in public and political theology inspired by the theology of Edward Schillebeeckx They discuss a variety of theological traditions and theories that could offer substantial contributions to current political challenges and debate whether theology should contribute to the liberation of communities of poor and suffering people **Worship That Changes Lives** Alexis D. Abernethy,2008-12 Compiles cultural theological and

psychological perspectives on spiritual experience in worship from scholars and laity paying particular attention to the role of the arts in facilitating spiritual transformation **SCM Studyguide: Liturgy, 2nd Edition** Stephen Burns,2018-09-07 The
