Worst Of The Worst Dealing With Repressive And Rogue Nations:

Worst of the Worst Robert I. Rotberg, 2007 Identifies and characterizes the most repressive states and singles out which are aggressive Defines the actions constituting repression and proposes a method of measuring human rights violations presenting an index of nation state repressiveness Offers a way to decide which repressive and rogue states are most deserving of strong policy attention Provided by publisher Worst of the Worst Robert I. Rotberg, 2008-03-01 A Brookings Institution Press and World Peace Foundation publication Repressive regimes tyrannize their own citizens and threaten global stability and order These repositories of evil systematically oppress their own people deny human rights and civil liberties severely truncate political freedom and prevent meaningful individual economic opportunity Worst of the Worst identifies and characterizes the world's most odious states and singles out which repressors are aggressive and hence can truly be called rogues Previously determinations have been based on inexact impressionistic criteria In this volume Robert Rotberg and his colleagues define the actions that constitute repression and propose a method of measuring human rights violations They offer an index of nation state repressiveness classifying gross repressors high repressors and aggressive repressors or rogues on a ten point scale Based on arms and drug trafficking support of terror possession of weapons of mass destruction and crossborder attacks this valuable diagnostic tool will guide the international community in crafting effective policies to deal with injustice in the developing world The repressors and rogues profiled include Belarus Burma Equatorial Guinea North Korea Syria Togo Tunisia Turkmenistan Uzbekistan and Zimbabwe Worst of the Worst offers a transparent way to decide which repressive and rogue states are most deserving of strong policy attention Explicitly measuring and labeling these highly repressive states is the first step toward improving the well being of millions of the poorest and most abused peoples of the globe Contributors include Margarita M Balmaceda Seton Hall University Mary Caprioli University of Minnesota Duluth Priscilla A Clapp Safe Ports LLC Yi Feng Claremont Graduate University Gregory Gleason University of New Mexico John Heilbrunn Colorado School of Mines Clement M Henry University of Texas at Austin David W Lesch Trinity University **Failed States and Fragile Societies** Ingo Trauschweizer, Steven M. Miner, 2014-06-01 Since the end of the Cold War a new dynamic has arisen within the international system one that does not conform to established notions of the state's monopoly on war In this changing environment the global community must decide how to respond to the challenges posed to the state by military threats political and economic decline and social fragmentation This insightful work considers the phenomenon of state failure and asks how the international community might better detect signs of state decay at an early stage and devise legally and politically legitimate responses This collection of essays brings military and social historians into conversation with political and social scientists and former military officers In case studies from the former Yugoslavia Somalia Iraq and Colombia the distinguished contributors argue that early intervention to stabilize social economic and political systems offers the greatest promise whereas military intervention at a later stage is both costlier and

less likely to succeed Contributors David Carment Yiagadeesen Samy David Curp Jonathan House James Carter Vanda Felbab Brown Robert Rotberg Ken Menkhaus Worst of the Worst Robert I. Rotberg,2007 Identifies and characterizes the most repressive states and singles out which are aggressive Defines the actions constituting repression and proposes a method of measuring human rights violations presenting an index of nation state repressiveness Offers a way to decide which repressive and rogue states are most deserving of strong policy attention Provided by publisher **The Conflict in Syria and the Failure of International Law to Protect People Globally** Jeremy Julian Sarkin,2021-11-28 This book explores through the lens of the conflict in Syria why international law and the United Nations have failed to halt conflict and massive human rights violations in many places around the world which has allowed tens of millions of people to be killed and hundreds of millions more to be harmed The work presents a critical socio legal analysis of the failures of international law and the United Nations UN to deal with mass atrocities and conflict It argues that international law in the way it is set up and operates falls short in dealing with these issues in many respects The argument is that international law is state centred rather than victim friendly is to some extent outdated is vague and often difficult to understand and therefore at times hard to apply While various accountability processes have come to the fore recently processes do not exist to assist individual victims while the conflict occurs or the abuses are being perpetrated The book focuses on the problems of international law and the UN and in the context of the many enforced disappearances and arbitrary detentions in Syria why nothing has been done to deal with a rogue state that has regularly violated international law It examines why the responsibility to protect R2P has not been applied and why it ought to be used generally and in Syria It uses the Syrian context to evaluate the weaknesses of the system and why reform is needed It examines the UN institutional mechanisms the role they play and why a civilian protection system is needed It examines what mechanism ought to be set up to deal with the possible one million people who have been disappeared and detained in Syria The book will be a valuable resource for students academics and policy makers working in the areas of public international law international human rights law political science and peace and security studies **Revisiting the Arab Uprisings** Stéphane Lacroix,Jean-Pierre Filiu,2018-12-15 Since 2013 the Middle East has experienced a double trend of chaos and civil war on the one hand and the return of authoritarianism on the other That convergence has eclipsed the political transitions that occurred in the countries whose regimes were toppled in 2011 as if they were merely footnotes to a narrative that naturally led from an Arab Spring to an Arab Winter This volume aims at rehabilitating those transitions by considering them as expressions of a revolutionary moment whose outcome was never pre determined but depended on the choices of a large range of actors It brings together leading scholars of Arab politics to adopt a comparative approach to a few crucial aspects of those transitions constitutional debates the question of transitional justice the evolution of civil military relations and the role of specific actors both domestic and international *Digital Resistance in the Middle East* Deborah Wheeler,2017-06-26 This book argues that Internet diffusion and use in the Middle

East enables meaningful micro changes in citizens lives even in states where no Arab Spring revolution occurred Using ethnographic evidence and taking a comparative perspective it presents a grass roots look at how new media use fits into the practice of everyday life It explores why citizens use social media to digitally route around state and other forms of power at work in their lives This increase in citizen civic engagement supported by new media use offers the possibility of a new order of things from redefining patriarchal power relations at home to reconfigurations of citizens relationships with the state broadly defined The author argues that new media channels offer pathways to empowerment widely and cheaply in the Middle East

Wolves in the Woods Martin Senn, 2009 Since the late 1980s the rogue state concept has emerged as a central motive underlying US security policy and has been under intense debate by policy makers and academics This well written dissertation breaks new ground in this discussion by approaching the rogue state concept from a moderate constructivist perspective In addition to analyzing how US decision makers have come to see a group of states as aggressive risk prone or even irrational outsiders to the contemporary international system Wolves in the Woods also devotes considerable attention to the threat perceptions of states that have been stigmatized with the rogue state label Dissertation *Journal of Peace Research* , 2009-11
