Worst Instincts Cowardice Conformity And The Aclu:

Worst Instincts Wendy Kaminer, 2009 What happens when an organization with the express goal of defending individual rights and liberties starts silencing its own board Lawyer and social critic Wendy Kaminer has intimate knowledge of the ensuing conflict between independent thinking and group solidarity In this concise and provocative book she tells an inside story of dramatic ethical decline at the American Civil Liberties Union using it as a poignant case study of conformity and other vices of association In Worst Instincts Kaminer calls on her experience as a dissident member of the ACLU national board to illustrate the essential virtues of dissent in preserving the moral character of any group When an organization committed to free speech succumbs to pressure to suppress internal criticism and disregard or spin the truth it offers important lessons for other associations corporations and governments where such pressure must surely be rampant Kaminer clarifies the common thread linking a continuum of minor failures and major disasters from NASA to Jonestown She reveals the many vices endemic to groups and exemplified by the ACLU s post 9 11 hypocrisies including conformity and suppression of dissent in the interests of collegiality solidarity or group self censorship by members anxious to avoid ostracism or marginalization by the group elevation of loyalty to the institution over loyalty to the institution s ideals substitution of the group s idealized self image for the reality of its behavior and hominem attacks against critics and deference to cults of personality From a renowned advocate of civil liberties Worst Instincts is a surprising story of ethical meltdown at a revered organization that has abandoned its core principles It is a powerful book that has much to tell us about the land mines of groupthink

Bad Samaritans Jerome R. Corsi, 2013-04-23 A battle cry to rise up against the ACLU s attempts to destroy our freedom of religion from the 1 New York Times bestselling author of The Obama Nation Liberty in America has always depended upon one thing a citizenry who believes in God Our founding fathers understood that without faith in God rights and morality could not last Without religion true freedom cannot long endure So for those who seek to take those rights away transferring the gifts given by God to the individual back to the control of a secularist state belief in God is the first tie to be severed Since the 1920s a battle has waged across America between radical leftists of the ACLU and those who would keep America true to its inception as one nation under God Bad Samaritans is bestselling author Jerome Corsi s explosive look into the history of ACLU and its radical agenda to separate America from its religious roots and remake our nation in its own atheistic image Told in a straightforward no nonsense style Corsi lays out the history of this struggle its communist roots and the court cases that are serving to slowly erode the foundations of our freedom Today we see the fruits of the ACLU s master plan a culture flooded with pornography placing little worth on the value of a human life and one in which protection and special treatment seem to exist for everyone except those of a Judeo Christian background Bad Samaritans looks behind the headlines and shows the ACLU s fingerprints as it works to destroy freedom and enslave our constitutional republic to the demands of a Marxist state It s time to fight back
