The photographic sequences show the range of uniforms and authentic weapons in characteristic use accompanied by identifying and explanatory captions. The US Army in World War II (2) Mark Henry, 2012-09-20 It was the Mediterranean theatre which saw the bloodiest of the US Army against the German Wehrmacht in North Africa in winter 1943-44. After this rough education the US forces pressed on to Sicily, the South of France and the Italian mainland. Here faced by difficult terrain they and their British Commonwealth allies fought a long campaign until VE Day. This second of a series of three MAA titles covers the uniforms worn on these fronts including US Army cold weather, airborne and tankers gear, some particularly interesting and important units including mountain, Japanese American and African American troops and a variety of crew-served weapons. **The US Army in World War II (1)** Mark Henry, 2012-05-20 When World War II broke out in September 1939 the US Army starved of resources since 1919 numbered just 174,000 men. By VJ Day 2 September 1945 a total of 8.3 million had served in an army which had risen to a stable strength of 91 divisions. The Army's contribution to the war against Japan, 20 divisions and numerous smaller units, has tended to be overshadowed by the exploits of the much smaller Marine Corps. This first of three titles describes the organisation, uniforms and equipment of the US Army in the CBI and the Central and South West Pacific from 1941 to 1945. 4th Armored Division in World War II George Forty, *World War II in Literature for Youth* Patricia Hachten Wee, Robert James Wee, 2004-11-10 This comprehensive volume provides a wealth of information with annotated listings of more than 3,500 titles, a broad sampling of books on the war years 1939-1945. Includes more tips for resin models and oil paints, new techniques for painting in enamels and oils and information on camouflage and black and white uniforms.
