Theorizing Feminist Policy Amy Mazur, 2002-02-07 This title defines and examines this field in the context of non feminist policy studies It also examines feminist policy as a significant emerging area of government action From empirical research results it concludes that under certain conditions democracies can develop feminist policies *Theorizing Feminist Policy* Amy G. Mazur, 2002 The Oxford Handbook of Gender and Politics Georgina Waylen, 2013-04-04 The Oxford Handbook of Gender and Politics brings to political science an accessible and comprehensive overview of the key contributions of gender scholars to the study of politics and it shows how these contributions produce a richer understanding of politics and societies

Politics, Gender, and Concepts Gary Goertz, Amy G. Mazur, 2008-11-13 A critique of concepts has been central to feminist scholarship since its inception However while gender scholars have identified the analytical gaps in existing social science concepts few have systematically mapped out a gendered approach to issues in political analysis and theory development This volume addresses this important gap in the literature by exploring the methodology of concept construction and critique which is a crucial step to disciplined empirical analysis research design causal explanations and testing hypotheses Leading gender and politics scholars use a common framework to discuss methodological issues in some of the core concepts of feminist research in political science including representation democracy welfare state governance and political participation This is an invaluable work for researchers and students in women s studies and political science

The Oxford Handbook of British Politics Matthew Flinders, 2009-07-16 The Oxford Handbook of British Politics provides the most sophisticated and up to date analysis of British politics to date Essential for all those working in the area

Handbook of Gender, Work and Organization Emma Jeanes, David Knights, Patricia Yancey Martin, 2012-03-02 This work of reference represents a remarkably complete detailed and extensive review of the field of gender work and organization in the second decade of the 21st century Its authors represent eight countries and many disciplines including management sociology political science and gender studies The chapters by top scholars in their areas of expertise offer both reviews and empirical findings and insights and challenges for further work The chapters are organized in five sections Histories and Philosophies Organizing Work and the Gendered Organization Embodiment Globalization and Diversity Theoretical and conceptual developments at the cutting edge of the field are explicated and illustrated by the handbook s authors Methods for conducting research into gender work and organization are reviewed and assessed as well as illustrated in the work of several chapters Efforts to produce greater gender equality in the workplace are covered in nearly every chapter in terms of past successes and failures Military organizations are presented as one of the difficult to change in regards to gender with the result that women are marginalized in practice even when official policies and goals require their full inclusion The role of the body embodiment is emphasized in several chapters with attention both to how organizations discipline bodies and how organizational members use their bodies to gain advantage Particular attention is paid to sexuality in and organizations

including sexual harassment policies to alleviate bias and the likelihood that future work will pay more attention to the body's presence and role in work and organizations. Many chapters also address change efforts that have been employed by individuals, groups, and organizations, including transnational ones such as the European Union, the United Nations, and so on. In addition to its value for teachers and students within this field, it also offers insights that would be of value to policy makers and practitioners who need to reflect on the latest thinking relating to gender at work and in organizations.

Gender Politics and Security Discourse Laura McLeod, 2015-07-16. This book investigates competing modes of thought about gender security and aims to understand the policy implications of personal political imaginations. The work draws upon extensive research conducted by the author in Serbia to develop a comprehensive picture of how feminist and women's organising relates to the broader national and international contexts surrounding gender security. Through an innovative analytical framework of personal political imaginations, the book explores the role that memories, perceptions, and hopes about conflict and post-conflict have upon the logics of gender security. It investigates how contrasting and competing modes of thought about gender security are made, paying attention to how the dynamics of gender politics in Serbia shape the security discourse and narratives of activists. The volume explores in detail how feminist and women's organisations have responded to UNSCR 1325 by analysing two policy debates and campaigns that seek to achieve its goals and gender security in Serbia: 1. feminist antimilitarism and 2. connecting domestic violence to the abuse of small arms and light weapons. Ultimately, the book argues that the configuration of gender security discourse is intimately linked to personal political imaginations of conflict and post-conflict. This book will be of much interest to students of gender politics, conflict studies, critical security studies, European politics, and IR in general.

The Gender Politics of Domestic Violence Andrea Krizsán, Conny Roggeband, 2017-11-22. What are the factors that shape domestic violence policy change, and how are variable gendered meanings produced in these policies? How and when can feminists influence policy making? What conditions and policy mechanisms lead to progressive change, and which ones block it or lead to reversal? *The Gender Politics of Domestic Violence* analyzes the emergence of gender equality sensitive domestic violence policy reforms in Central and Eastern Europe (CEE). Tracing policy developments in Eastern Europe from the beginning of the 2000s, when domestic violence first emerged on policy agendas, until 2015, Andrea Krizsán and Conny Roggeband look into the contestation that takes place between women's movements, states, and actors opposing gender equality to explain the differences in gender equality sensitive policy outputs across the region. They point to regionally specific patterns of feminist engagement with the state in which coalition building between women's organizations and establishing alliances with different state actors were critical for achieving gendered policy progress. In addition, they demonstrate how discursive contexts shaped by democratization frames and opposition to gender equality led to differences in the politicization of gender equality, making gender friendly reforms more feasible in some countries than others.
