existence of slaves and unfree people was furthermore considered a marginal phenomenon The contributors compare Scandinavia with the eastern Alpine region two regions comprising fertile plains as well as rugged mountainous areas This offers an opportunity to analyse the effect of topographical factors without neglecting the influence of manorial and territorial power structures over the long time span of c 1000 to 1750 With contributions by Markus Cerman Tore Iversen Michael Mitterauer John Ragnar Myking Josef Riedmann Werner R sener Helge Salvesen and Stefan Sonderegger
