Voting In Fear Electoral Violence In Sub Saharan Africa:

Violence in African Elections Mimmi Söderberg Kovacs, Jesper Bjarnesen, 2018-04-15 Multiparty elections have become the bellwether by which all democracies are judged and the spread of these systems across Africa has been widely hailed as a sign of the continent's progress towards stability and prosperity. But such elections bring their own challenges, particularly the often intense internecine violence following disputed results. While the consequences of such violence can be profound, undermining the legitimacy of the democratic process and in some cases plunging countries into civil war or renewed dictatorship, little is known about the causes. By mapping, analysing and comparing instances of election violence in different localities across Africa, including Kenya, Ivory Coast and Uganda, this collection of detailed case studies sheds light on the underlying dynamics and sub-national causes behind electoral conflicts, revealing them to be the result of a complex interplay between democratisation and the older patronage-based system of Big Man politics. Essential for scholars and policymakers across the social sciences and humanities interested in democratisation, peace keeping and peace studies. *Violence in African Elections* provides important insights into why some communities prove more prone to electoral violence than others, offering practical suggestions for preventing violence through improved electoral monitoring, voter education and international assistance.

Electoral Violence, Corruption, and Political Order Sarah Birch, 2020-07-21 A comprehensive look at how violence has been used to manipulate competitive electoral processes around the world since World War II. Throughout their history, political elections have been threatened by conflict, and the use of force has in the past several decades been an integral part of electoral processes in a significant number of contemporary states. However, the study of elections has yet to produce a comprehensive account of electoral violence. Drawing on cross-national data sets together with fourteen detailed case studies from around the world, *Electoral Violence, Corruption and Political Order* offers a global comparative analysis of violent electoral practices since the Second World War. Sarah Birch shows that the way power is structured in society largely explains why elections are at risk of violence in some contexts but not in others. Countries with high levels of corruption and weak democratic institutions are especially vulnerable to disruptions of electoral peace. She examines how corrupt actors use violence to back up other forms of electoral manipulation, including vote buying and ballot stuffing. In addition to investigating why electoral violence takes place, Birch considers what can be done to prevent it in the future, arguing that electoral authority and the quality of electoral governance are more important than the formal design of electoral institutions. Delving into a deeply influential aspect of political malpractice, *Electoral Violence, Corruption and Political Order* explores the circumstances in which individuals choose to employ violence as an electoral strategy.

Military, Politics and Democratization in Southern Africa Tendai Chari, Patrick Dzimiri, 2023-08-10 This book explores multiple challenges faced by democratization in Southern Africa. Applying a wider lens to the concept of political transition and employing a variety of theoretical and methodological approaches, the contributions gathered here explore residual political cultural practices that

hinder democratic consolidation in Southern Africa Presenting various case studies the book tackles themes such as the military political nexus leadership renewal constitutionalism electoral politics election violence marginalization of women civil society and political transition media framing and transitional justice Written from a multidisciplinary perspective and drawing on empirical data from multiple sources this edited volume challenges orthodox conceptualizations of political transition The book will be of interest to students and scholars of political science African studies and related fields as well as policy makers and professionals interested in the latest political developments in Southern Africa Voting in Fear Dorina Akosua Oduraa Bekoe, 2012 Nine contributors offer pioneering work on the scope and nature of electoral violence in Africa investigate the forms electoral violence takes and analyze the factors that precipitate reduce and prevent violence The book breaks new ground with findings from the only known dataset of electoral violence in sub Saharan Africa spanning 1990 to 2008 Specific case studies of electoral violence in countries such as Ghana Kenya and Nigeria provide the context to further understanding the circumstances under which electoral violence takes place recedes or recurs Strengthening Electoral Integrity Pippa Norris, 2017-08-29 Today a general mood of pessimism surrounds Western efforts to strengthen elections and democracy abroad If elections are often deeply flawed or even broken in many countries around the world can anything be done to fix them To counter the prevailing ethos Pippa Norris presents new evidence for why programs of international electoral assistance work She evaluates the effectiveness of several practical remedies including efforts designed to reform electoral laws strengthen women s representation build effective electoral management bodies promote balanced campaign communications regulate political money and improve voter registration Pippa Norris argues that it would be a tragedy to undermine progress by withdrawing from international engagement Instead the international community needs to learn the lessons of what works best to strengthen electoral integrity to focus activities and resources upon the most effective programs and to innovate after a quarter century of efforts to strengthen electoral integrity *Violence against Women in Politics* Mona Lena Krook, 2020-07-16 This book provides the first comprehensive account of violence against women in politics Tracing its emergence as a concept Mona Lena Krook draws on research in multiple disciplines to theorize that this phenomenon is not simply a gendered extension of existing definitions of political violence privileging physical aggressions against rivals Rather it is a distinct phenomenon involving a broad range of harms to undermine women as political actors Adopting a global comparative approach Krook illustrates what this violence looks like in practice and catalogues emerging solutions around the world **Why Elections Fail** Pippa Norris, 2015-07-08 This volume compares international and institutional accounts as alternative perspectives to explain why elections fail to meet international standards Party Systems and Democracy in Africa R. Doorenspleet, L. Nijzink, 2014-12-02 Do party systems help or hinder democracy in Africa Drawing lessons from different types of party systems in six African countries this volume shows that party systems affect democracy in Africa in ways that are unexpectedly different from the relation between party systems and democracy

observed elsewhere *Ordering Violence* Paul Staniland, 2021-12-15 In *Ordering Violence* Paul Staniland advances a broad approach to armed politics bringing together governments insurgents militias and armed political parties in a shared framework to argue that governments perception of the ideological threats posed by armed groups drive their responses and interactions Staniland combines a unique new dataset of state group armed orders in India Pakistan Burma Myanmar and Sri Lanka with detailed case studies from the region to explore when and how this model of threat perception provides insight into patterns of repression collusion and mutual neglect across nearly seven decades Instead of straightforwardly responding to the material or organizational power of armed groups Staniland finds regimes assess how a group s politics align with their own ideological projects Explaining for example why governments often use extreme repression against weak groups even while working with or tolerating more powerful armed actors *Ordering Violence* provides a comprehensive overview of South Asia s complex armed politics embedded within an analytical framework that can also speak broadly beyond the subcontinent

Conditionality & Coercion Isabela Mares, Lauren E. Young, 2019-10-17 In many recent democracies candidates compete for office using illegal strategies to influence voters In Hungary and Romania local actors including mayors and bureaucrats offer access to social policy benefits to voters who offer to support their preferred candidates and they threaten others with the loss of a range of policy and private benefits for voting the wrong way These quid pro quo exchanges are often called clientelism How can politicians and their accomplices get away with such illegal campaigning in otherwise democratic competitive elections When do they rely on the worst forms of clientelism that involve threatening voters and manipulating public benefits *Conditionality and Coercion Electoral Clientelism in Eastern Europe* uses a mixed method approach to understand how illegal forms of campaigning including vote buying and electoral coercion persist in two democratic countries in the European Union It argues that we must disaggregate clientelistic strategies based on whether they use public or private resources and whether they involve positive promises or negative threats and coercion We document that the type of clientelistic strategies that candidates and brokers use varies systematically across localities based on their underlying social coalitions We also show that voters assess and sanction different forms of clientelism in different ways Voters glean information about politicians personal characteristics and their policy preferences from the clientelistic strategies these candidates deploy Most voters judge candidates who use clientelism harshly So how does clientelism including its most odious coercive forms persist in democratic systems This book suggests that politicians can get away with clientelism by using forms of it that are in line with the policy preferences of constituencies whose votes they need Clientelistic and programmatic strategies are not as distinct as previous have argued *Oxford Studies in Democratization* is a series for scholars and students of comparative politics and related disciplines Volumes concentrate on the comparative study of the democratization process that accompanied the decline and termination of the cold war The geographical focus of the series is primarily Latin America the Caribbean Southern and Eastern Europe and relevant experiences in Africa and Asia
