**Warped** Peter Drucker, 2015-02 *Warped Gay Normality and Queer Anti Capitalism* shows how the successive same sex formations of the past century and a half have led to both gay normality and queer resistance. It sees sexual rebellions and queer social justice struggles as harbingers of a queer anti capitalism. [Warped: Gay Normality and Queer Anti-Capitalism](#) Peter Drucker, 2015-02-04 Recent victories for LGBT rights especially the spread of same sex marriage have gone faster than most people imagined possible. Yet the accompanying rise of gay normality has been disconcerting for activists with radical sympathies. Global in scope and drawing on a wide range of feminist anti racist and queer scholarship and analysis *Warped Gay Normality and Queer Anti Capitalism* shows how the successive same sex formations of the past century and a half corresponding to different phases of capitalist development have led both to the emergence of today's homonormativity and homonationalism and to ongoing queer resistance. The book's second half summarises different sexual rebellions and the queer dimension of multifarious movements for social justice and transformation seeing in them harbingers of a unified and powerful queer anti capitalism. **The SAGE Handbook of Frankfurt School Critical Theory** Beverley Best, Werner Bonefeld, Chris O'Kane, 2018-06-04 *The SAGE Handbook of Frankfurt School Critical Theory* expounds the development of critical theory from its founding thinkers to its contemporary formulations in an interdisciplinary setting. **Public Discourses About Homosexuality and Religion in Europe and Beyond** Marco Derks,Mariecke van den Berg,2020-10-01

This volume

addresses three things many people do not discuss candidly with strangers or mere acquaintances: God, sex, and politics. These can easily become topics of fierce debate, particularly when taken together, as has been the case with same-sex marriage legislation, the Vatican's criticism of gender ideology, or the repeatedly asserted claim that Islam, homosexuality, and gender equality are essentially incompatible. This volume investigates what is at stake in these constructions of religion and homosexuality in public discourses. Starting with the Netherlands as a special case study, it proceeds with contributions on other predominantly postsecular countries in central, northern, and southern Europe, as well as several postcommunist and postcolonial countries beyond Europe. Combining contemporary and historical perspectives and approaches from both the humanities and the social sciences, the contributors explore how national and European identities are constructed and contested in debates on religion and homosexuality. Chapter 2 and Chapter 8 of this book are available open access under a CC BY 4.0 license at [link.springer.com](https://link.springer.com). *Gender, Sexuality and Queerness in American Horror Story* Harriet E.H.

Earle, 2019-08-21 The horror anthology TV show *American Horror Story* first aired on FX Horror in 2011 and has thus far spanned eight seasons. Addressing many areas of cultural concern, the show has tapped in to conversations about celebrity culture, family dynamics, and more. This volume with nine new essays and one reprinted one considers how this series engages with representations of gender, sexuality, queer identities, and other LGBTQ issues. The contributors address myriad elements of *American Horror Story* from the relationship between gender and nature to contemporary masculinities, offering a sustained analysis of a show that has proven to be central to contemporary genre television. *Eros and Alienation* Alan Sears, 2025-01-20 Sears takes social reproduction feminism and queer Marxism in exciting new directions as he historicizes penetration and orgasms. He expands the concept of alienated labor to all life-making and founds a queer ecology foregrounding colonized, racialized, and disabled voices. Peter Drucker, author of *Warped*, meticulously outlines how capitalism shapes human intimacy. A sweeping original analysis that challenges how we think about sexuality, life-making, and building a better world. Holly Lewis, author of *The Politics of Everybody*, a compelling argument on the pervasive alienation of capitalist society that truncates and distorts our capacities for creative expression, love, and human flourishing. M.E. O'Brien, author of *Family Abolition*, our deeply human drive to shape the world around us and fulfill ourselves through labor is subverted by capitalist alienation, leaving us to find fulfillment elsewhere. As a result, our erotic drives become the central focus for transformation and life-making but are themselves restricted and fueled by whatever energy is left after completing the monetized or social reproductive work required to survive. This alienation encounters ongoing resistance as life-making activity can never be fully separated from the person who labors. *Eros and Alienation* delves into the underexplored relationship between alienated labor and sexuality. Alan Sears explores the ways this alienation frames the processes of gender and sexual formation, showing how the organization of work contributes to the development of a dominant regime of gendered sexualities defined by a binary gender mapping of desire as heterosexual, homosexual, or bisexual. Alan Sears is

Professor of Sociology at Toronto Metropolitan University He is an activist and author of several books including *The Next New Left* Sexual Racism and Social Justice Denton Callander,Panteá Farvid,Amir Baradaran,Thomas A. Vance,2024 This book brings together a collection of research personal reflection and creative work to provide a comprehensive in depth account of sexual racism from an international and interdisciplinary perspective The volume makes the case that sexual racism is in the very foundations of our societies determining the ideas bodies and systems positioned as desirable From this provocative perspective Sexual Racism and Social Justice offers a new understanding of the relationship between sex and race arguing that to undesign whiteness is to help undo sexual racism which are essential steps in the meaningful advancement of social justice

*Infrastructure Aesthetics* Solveig Daugaard,Cecilie Ullerup Schmidt,Frederik Tygstrup,2024-11-04 An upsurge in artworks negotiating the conditions of their own production distribution and reception has called attention to the infrastructural relations that shape the art world but have long been understudied In response this book introduces the concept of infrastructure aesthetics into the study of culture The concept is drawn from infrastructure studies media theory and aesthetic theory This volume develops it further addressing the analytical challenge of working with works that blur the boundaries between art and infrastructure both historically and in the present the aesthetic problem of assessing artistic forms that operate on an infrastructural level and the politics of artistic agency on a social level beyond the work's content or message As the relation between artworks and their institutional and social settings becomes infrastructural in nature we need to move beyond the reductive division of the study of artworks into production articulation and reception This book provides its readers with an innovative conceptual toolbox designed for precisely this task as well as a forceful set of exemplary case studies applying the concepts in theory and practice
