Clinical Decision Making for Adult-Gerontology Primary Care Nurse Practitioners Joanne Thanavaro, Karen S. Moore, 2016-03-15 Clinical Decision Making for Adult Gerontology Primary Care Nurse Practitioners provides a unique approach to clinical decision making for a wide variety of commonly encountered primary

care issues in adult and geriatric practice This text combines guidelines for the ANP GNP role and case studies with real life practice examples as well as a series of practice questions to help reinforce learning The text is designed for both the Nurse Practitioner student as well as the newly practicing NP to help increase confidence with application of assessment skills diagnostic choices and management approaches The theory behind this text is to enable students to learn a systematic approach to clinical problems as well as apply evidence based guidelines to direct their management decisions Clinical Decision Making for Adult Gerontology Primary Care Nurse Practitioners is also appropriate for Nurse Practitioners preparing to take the ANP GNP certification exam as it features summaries of evidence based guidelines Faculty may also use the text to incorporate a case study approach into their courses either for classroom discussion or as assignments to facilitate clinical decision making The inclusion of real life cases simulate what NPs will actually encounter in their clinical practice environments Key Features Chapter Objectives Case Studies Review Questions Summaries of newest evidence based guidelines Clinician Resources such as tool kits for evaluation and **Handbook of Geriatric Assessment** Joseph J. Gallo, 2006 Nursing *The Oxford Handbook of Clinical Psychology* David H. Barlow, 2011 The exponential growth of clinical psychology since the late 1960s can be measured in part by the extensive perhaps exhaustive literature on the subject This proliferation of writing has continued into the new century and the field has come to be defined as much by its many topics as its many voices The Oxford Handbook of Clinical Psychology synthesizes these decades of literature in one extraordinary volume Comprising chapters from the foremost scholars in clinical psychology the handbook provides even and authoritative coverage of the research practice and policy factors that combine to form today's clinical psychology landscape In addition to core sections on topics such as training assessment diagnosis and intervention the handbook includes valuable chapters devoted to new and emerging issues in the clinical field including health care reforms cultural factors and technological innovations and challenges Each chapter offers a review of the most pertinent literature outlining current issues and identifying possibilities for future research Featuring two chapters by Editor David H Barlow one on changes during his own 40 year odyssey in the field the other projecting ten themes for the future of clinical psychology The Oxford Handbook of Clinical Psychology is a landmark publication that is sure to serve as the field's benchmark reference publication for years to come It is an essential resource for students clinicians and researchers across the ever growing clinical psychology community **Integrated Textbook of Geriatric Mental Health** Donna Cohen, Carl Eisdorfer, 2011-07-20 As the population ages increasing numbers of older people require the attention and services of mental health professionals Despite their prevalence however mental health problems in this population often go undiagnosed and therefore untreated This textbook offers medical students and professionals the information they need to care for older people with mental disorders Drs Donna Cohen and Carl Eisdorfer two internationally recognized experts in geriatric mental health provide a comprehensive framework within which students and practitioners alike can address the salient issues of the field These

include the biopsychosocial aging processes specific pathologies prevalent in later life social issues common to the elderly the delivery of care in various settings and the economic policies affecting services for older people The authors goal is not only to enhance clinical practice but also to urge physicians to develop and coordinate a more holistic care strategy that acknowledges the complex challenges of older patients To this end Cohen and Eisdorfer discuss essential principles of optimal care the latest research findings evidence and consensus based practice standards resources to help professionals keep abreast of the changing mental health landscape and ethical dilemmas of clinical practice and research The signal strength of this book lies in its integrated approach an approach that emphasizes the philosophy and principles of caring for older people along with clinical practices and issues From this broader perspective the authors describe the many factors that influence the lives health and well being of older patients and their caregivers making this an ideal text for psychiatrists psychologists nurses and social workers A Handbook of Geriatric Neuropsychology Shane S.
