Cook,2012-02-27 THE ART OF COMICS The Art of Comics A Philosophical Introduction is the first ever collection of essays published in English devoted to the philosophical questions raised by the art of comics The volume which includes a preface by the renowned comics author Warren Ellis contains ten cutting edge essays on a range of philosophical topics raised by comics and graphic novels These include the definition of comics the nature of comics genres the relationship between comics and other arts such as film and literature the way words and pictures combine in comics comics authorship the language of comics and the metaphysics of comics The book also contains an in depth introduction by the co editors which provides an overview of both the book and its subject as well as a brief history of comics and an overview of extant work on the philosophy of comics In an area of growing philosophical interest this volume constitutes a great leap forward in the development of this fast expanding field and makes a major contribution to the philosophy of art      **A Philosophy of Visual Metaphor in Contemporary Art** Mark Staff Brandl,2023-02-23 Metaphor which allows us to talk about things by comparing them to other things is one of the most ubiquitous and adaptable features of language and thought It allows us to clarify meaning yet also evaluate and transform the ways we think create and act While we are alert to metaphor in spoken or written texts it has within the visual arts been critically overlooked Taking into consideration how metaphors are inventively embodied in the formal technical and stylistic aspects of visual artworks Mark Staff Brandl shows how extensively artists rely on creative metaphor within their work

Exploring the work of a broad variety of artists including Dawoud Bey Dan Ramirez Ga lle Villedary Raoul Deal Sonya Clark Titus Kaphar Charles Boetschi and more he argues that metaphors are the foundation of visual thought are chiefly determined by bodily and environmental experiences and are embodied in artistic form Visual artistic creation is philosophical thought By grounding these arguments in the work of philosophers and cultural theorists including No l Carroll Hans Georg Gadamer and George Lakoff Brandl shows how important metaphor is to understanding contemporary art A Philosophy of Visual Metaphor in Contemporary Art takes a neglected feature of the visual arts and shows us what a vital role it plays within them Bridging theory and practice and drawing upon a capacious array of examples this book is essential reading for art historians and practitioners as well as analytic philosophers working in aesthetics and meaning 2000 AD: The Creator Interviews - Volume 04 Michael Molcher,2015-11-25 Exclusive interviews and career overviews of key comics creators taken from the pages of the Judge Dredd Magazine In this fourth collection Alan Moore Brett Ewins Liam McCormick Sharp John Higgins Colin Wilson Dylan Teague and Peter Doherty discuss their work in comics 2000 AD and many other titles in great detail The Routledge Companion to Comics Frank Bramlett,Roy Cook,Aaron Meskin,2016-08-05 This cutting edge handbook brings together an international roster of scholars to examine many facets of comics and graphic novels Contributor essays provide authoritative up to date overviewsof the major topics and questions within comic studies offering readers a truly global approach to understanding the field Essays examine the history of the temporal geographical and formal development of comics including topics like art comics manga comix and the comics code issues such as authorship ethics adaptation and translating comics connections between comics and other artistic media drawing caricature film as well as the linkages between comics and other academic fields like linguistics and philosophy new perspectives on comics genres from funny animal comics to war comics to romance comics and beyond The Routledge Companion to Comics expertly organizes representative work from a range of disciplines including media and cultural studies literature philosophy and linguistics More than an introduction to the study of comics this book will serve as a crucial reference for anyone interested in pursuing research in the area guiding students scholars and comics fans alike **Comics and the Senses** Ian Hague,2014-01-10 Attempts to define what comics are and explain how they work have not always been successful because they are premised upon the idea that comic strips comic books and graphic novels are inherently and almost exclusively visual This book challenges that premise and asserts that comics is not just a visual medium The book outlines the multisensory aspects of comics the visual audible tactile olfactory and gustatory elements of the medium It rejects a synaesthetic approach by which all the senses are engaged through visual stimuli and instead argues for a truly multisensory model by which the direct stimulation of the reader s physical senses can be understood A wide range of examples demonstrates how multisensory communication systems work in both commercial and more experimental contexts The book concludes with a case study that looks at the works of Alan Moore and indicates areas of interest that multisensory analysis

can draw out but which are overlooked by more conventional approaches      **Magic Words** Lance Parkin,2013-11-07 For over three decades comics fans and creators have regarded Alan Moore as a titan of the form With works such as V for Vendetta Watchmen and From Hell he has repeatedly staked out new territory attracting literary plaudits and a mainstream audience far removed from his underground origins His place in popular culture is now such that major Hollywood players vie to adapt his books for cinema Yet Moore s journey from the hippie Arts Labs of the 1970s to the bestseller lists was far from preordained A principled eccentric who has lived his whole life in one English town he has been embroiled in fierce feuds with some of the entertainment industry s biggest corporations And just when he could have made millions ploughing a golden rut he turned instead to performance art writing erotica and the occult Now as Alan Moore hits sixty it s time to go in search of this extraordinary gentleman and follow the peculiar path taken by a writer quite unlike any other      **Watchmen Collectors Ed Slipcase Set** A. Moore,2016-11-22 The bestselling graphic novel of all time is back in a new 12 volume box set collector s edition at DC s Deluxe Edition trim size just in time for the series 30th anniversary It all begins with the paranoid delusions of a half insane hero called Rorschach But is Rorschach really insane or has he in fact uncovered a plot to murder super heroes and even worse millions of innocent civilians On the run from the law Rorschach reunites with his former teammates in a desperate attempt to save the world and their lives but what they uncover will shock them to their very core and change the face of the planet      [Alan Moore on His Work and Career](#) Bill Baker,2007-07-15 Interview with graphic novelist Alan Moore      **Watching the Watchmen** Dave Gibbons,Chip Kidd,Mike Essl,2008 Enjoy the ultimate companion to a comics masterpiece as award winning artist Gibbons gives his own account of the genesis of Watchmen and opens his vast personal archives to reveal never published pages original character designs page thumbnails sketches and more
