Radical Economics Bruce Roberts, Susan Feiner, 2012-12-06 International Human Rights Michael Haas, 2012-08-06

This book provides a comprehensive introduction to international human rights international human rights law why international human rights have increasingly risen to world prominence what is being done about violations of human rights and what might be done to further promote the cause of international human rights so that everyone may one day have their rights respected regardless of who they are or where they live It explains how the concept of international human rights has developed over time the variety of types of human rights empirical findings from statistical research on human rights a listing of all international human rights agreements the newest dimensions in the field of human rights gay rights animal rights environmental rights Richly illustrated throughout with case studies controversies court cases think points historical examples biographical statements and suggestions for further reading International Human Rights is the ideal introduction for all students of human rights The Globalizers Jeffrey T. Jackson, 2007-09 He finds in the international development community a close knit coalition of policy makers who have inserted themselves into the local political process and pushed the Honduran nation state to conform to international norms and integrate into a transnational structure of governance

From Marshall Plan to Debt Crisis Robert E. Wood, 2024-06-04 This book traces the evolution of concessional financing to Third World countries from its postwar origins in the Marshall Plan to the debt crisis that engulfed virtually the entire Third World in the early 1980s It documents the evolution of a system of aid provision of structured access to concessional external financing The central focus is on how this structure of access to aid has changed over time and shaped development options an choices in the Third World From this perspective the emergence of the debt crisis is closely connected to the role of aid in the world economy Although the debt crisis had other roots as well this book elucidates an important set of determinants generally overlooked within the systems of aid provision itself It further seeks to show that the debt crisis defines a new era not simply a set of discrete and extraordinary events between say Mexico s request for rescheduling in August 1982 and Argentina s coming to terms with the International Monetary Fund in September 1984 The debt crisis has profoundly altered the international environment tha Third Wold countries face and the legacy of debt will continue to be a central focus of international relations and development choices for years to come This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1987 *The Dilemmas of Social Democracies* Howard Richards, Joanna Swanger, 2006-01-01 The Dilemmas of Social Democracies seeks to advance the eradication of poverty and the ethical construction of social democracy and sustainable peace Howard Richards and Joanna Swanger argue that the reason that capitalism resists transformation and that social democracy is so hard to achieve is

because of the philosophical and institutional underpinnings the constitutive rules of capitalism the book therefore explores the historical origins of these rules their implications for blocking progress toward social justice and how they can be improved

Ariadne's Thread Mary E. Clark, 1989-07-24 This book is a powerful interdisciplinary introduction to environmental studies

Democracy in an Age of Globalisation Otfried Höffe, 2007-07-07 In this book the author develops a comprehensive analysis of the demands which the process of globalization exerts on the political organisations of humanity The author starts from a diagnosis of the process of globalisation The question central to the book can be formulated as follows How can the social moral and legal achievements of the nation state be retained while its structure is reshaped to satisfy the requirements of a globalised world
