The Writing Program Administrators Resource A Guide To Reflective Institutional Practice:

The Writing Program Administrator's Resource Stuart C. Brown, Theresa Jarnagi Enos, 2005-04-11 The role of the writing program administrator is one of diverse activities and challenges and preparation for the position has traditionally come through performing the job itself As a result uninitiated WPAs often find themselves struggling to manage the various requirements and demands of the position and even experienced WPAs often encounter situations on which they need advice The Writing Program Administrator's Resource has been developed to address the needs of all WPAs regardless of background or experience It provides practical applicable tools to effectively address the differing and sometimes competing roles in which WPAs find themselves Readers will find an invaluable collection of articles in this volume addressing fundamental practices and issues encountered by WPAs in their workplace settings and focusing on the hows and whys of writing program administration With formal preparation and training only now beginning to catch up to the very real needs of the WPA this volume offers guidance and support from authoritative and experienced sources educators who have established the definitions and standards of the position who have run into obstacles and surmounted them and who have not just survived but thrived in their roles as WPAs Editors Stuart C Brown and Theresa Enos contribute their own experience and bring together the voices of their colleagues to delineate the intellectual scope and practices of writing program administration as an emerging discipline Established and esteemed leaders in the field offer insights advice and plans of action for the myriad scenarios encountered in the position encouraging WPAs and helping them to realize that they often know more than they think they do This resource is required reading for the new WPA and an essential reference for all who serve in the WPA role As a guidebook for WPAs it is destined to become a fixture on the desk of every educator involved with or interested in administering writing programs writing centers and writing across the curriculum efforts **Landmark**

Essays on Writing Program Administration Kelly Ritter, MELISSA IANETTA, 2024-11-01 Leading with the provocative observation that writing programs administration lacks an established set of texts that provides a baseline of shared knowledge in which to root our ongoing conversations and with which to welcome newcomers Landmark Essays on Writing Program Administration focuses on WPA identity to propose one such grouping of texts This Landmark volume is the cornerstone resource for new Writing Program Administrators and graduate students seeking an ever important overview of the literature on Writing Program Administration Drawing broadly across scholarship in writing programs and writing centers Ritter and Ianetta work to historicize theorize and problematize the ever shifting answers offered to the question Who or what is a WPA *Writing Program Administration* Susan H. McLeod, 2007-03-16 This reference guide provides a comprehensive review of the literature on all the issues responsibilities and opportunities that writing program administrators need to understand manage and enact including budgets personnel curriculum assessment teacher training and supervision and more Writing Program Administration also provides the first comprehensive history of writing program

administration in U S higher education Writing Program Administration includes a helpful glossary of terms and an annotated bibliography for further reading **Writing Program Administration and the Community College** Heather Ostman,2013-10-01 From the history of the community college in the United States to current issues and concerns facing writing programs and their administrators and instructors Writing Program Administration and the Community College offers a comprehensive look into writing programs at public two year institutions The Promise and Perils of Writing Program Administration Theresa Enos,Shane Borrowman,2008-01-26 Combining formal quantitative research with narrative based scholarship THE PROMISE AND PERILS OF WRITING PROGRAM ADMINISTRATION represents multiple voices from faculty balancing between the demands of teaching writing and administering writing programs in professional ethical ways often under circumstances that can be defined at best as difficult In these pages junior faculty tell their stories of triumph and trauma while more firmly established composition scholars reflect upon the changing and challenging profession we all share

WPA, Writing Program Administration ,2006 **Exploring Composition Studies** Kelly Ritter,Paul Kei Matsuda,2012-04-30 Kelly Ritter and Paul Kei Matsuda have created an essential introduction to the field of composition studies for graduate students and instructors new to the study of writing The book offers a careful exploration of this diverse field focusing specifically on scholarship of writing and composing Within this territory the authors draw the boundaries broadly to include allied sites of research such as professional and technical writing writing across the curriculum programs writing centers and writing program administration Importantly they represent composition as a dynamic eclectic field influenced by factors both within the academy and without The editors and their sixteen seasoned contributors have created a comprehensive and thoughtful exploration of composition studies as it stands in the early twenty first century Given the rapid growth of this field and the evolution of it research and pedagogical agendas over even the last ten years this multi vocal introduction is long overdue Guide to College Writing Assessment Peggy O'Neill,Cindy Moore,Brian Huot,2009-03-20 While most English professionals feel comfortable with language and literacy theories assessment theories seem more alien English professionals often don t have a clear understanding of the key concepts in educational measurement such as validity and reliability nor do they understand the statistical formulas associated with psychometrics But understanding assessment theory and applying it by those who are not psychometricians is critical in developing useful ethical assessments in college writing programs and in interpreting and using assessment results A Guide to College Writing Assessment is designed as an introduction and source book for WPAs department chairs teachers and administrators Always cognizant of the critical components of particular teaching contexts O'Neill Moore and Huot have written sophisticated but accessible chapters on the history theory application and background of writing assessment and they offer a dozen appendices of practical samples and models for a range of common assessment needs Because there are numerous resources available to assist faculty in assessing the writing of individual students in particular classrooms A Guide to College Writing

Assessment focuses on approaches to the kinds of assessment that typically happen outside of individual classrooms placement evaluation exit examination programmatic assessment and faculty evaluation Most of all the argument of this book is that creating the conditions for meaningful college writing assessment hinges not only on understanding the history and theories informing assessment practice but also on composition programs availing themselves of the full range of available assessment practices

A Guide to Professional Development for Graduate Students in English Cindy Moore, Hildy Miller, 2006 In this guide the first of its kind Cindy Moore and Hildy Miller provide detailed information about how to develop credentials for both academic and nonacademic careers in teaching scholarship administration service and editing Written in response to nationwide calls for more comprehensive and deliberate mentoring of future English faculty and for greater support of students who wish to pursue English oriented jobs outside of the academy this guide the first of its kind is at once practical and eye opening Providing detailed information about how to develop credentials for both academic and nonacademic careers in teaching scholarship administration service and editing the guide offers an indepth look at the field s many possibilities On another level the book addresses the rigors and stresses of graduate school by candidly discussing faculty expectations student responsibilities and a variety of survival strategies Whether you are already enrolled in a graduate program or have just begun to consider program options this resource can help you identify long term career goals as well as the skills and abilities needed to meet those goals

Blurring Boundaries Peggy O'Neill, 2007 Brings together scholars from various disciplines institutions methodologies and genres who are interested in writing and preparing teachers and researchers of writing This book covers topics such as writing assessment teaching writing and teacher preparation graduate education electronic technologies community literacy and more

Discord And Direction Sharon James Mcgee, Carolyn Handa, 2005-08-30 The collection further argues that postmodernism offers a useful lens through which to understand the work of WPAs and to examine the discordant cultural and institutional issues that shape their work Each chapter tackles a problem local to its author s writing program or experience as a WPA and each responds to existing discord in creative ways that move toward rebuilding and redirection Jacket

Writing on the Edge, 2002 *Changing of Knowledge in Composition* Lance Massey, Richard C. Gephardt, 2011-07-16 Lance Massey and Richard Gebhardt offer in this collection many signs that composition again faces a moment of precariousness even as it did in the 1980s the years of the great divorce from literary studies The contours of writing in the university again are rapidly changing making the objects of scholarship in composition again unstable Composition is poised to move not from modern to postmodern but from process to postprocess from a service oriented field to a research driven discipline Some would say we are already there Momentum is building to replace composition and the pedagogical imperative long implied in that term with a writing studies model devoted to the study of composition as a fundamental tool of and force within all areas of human activity Appropriately contributors here use Stephen M North s 1987 book *The Making of Knowledge in Composition* to frame and background their

discussion as they look at both the present state of the field and its potential futures As in North's volume *The Changing of Knowledge in Composition* describes a body of research and pedagogy brimming with conflicting claims, methodologies, and politics and with little consensus regarding the proper subjects and modes of inquiry The deep ambivalence within the field itself is evident in this collection Contributors here envision composition both as retaining its commitment to broad-based generalized writing instruction and as heading toward content-based vertical writing programs in departments and programs of writing studies They both challenge and affirm composition's pedagogical heritage And they sound both sanguine and pessimistic notes about composition's future
