## **The Yogcra Consciousness The Mind Only Religion:**

**A History of the World's Religions** David S. Noss, Blake Grangaard, 2016-09-17 A History of the World's Religions bridges the interval between the founding of religions and their present state and gives students an accurate look at the religions of the world by including descriptive and interpretive details from the original source materials Refined by over forty years of dialogue and correspondence with religious experts and practitioners around the world A History of the World's Religions is widely regarded as the hallmark of scholarship fairness and accuracy in its field It is also the most thorough yet manageable history of world religion available in a single volume treating many subjects largely neglected in other texts

Major World Religions Lloyd Ridgeon, 2003-12-08 This book focuses upon those religions that continue to demand the attention of the Western world

*Making Sense of Mind Only* William S. Waldron, 2023-11-07 Through engaging contemporary examples Making Sense of Mind Only reveals the Yogacara school of Indian Buddhism as a coherent system of ideas and practices for the path to liberation contextualizing its key texts and rendering them accessible and relevant The Yogacara or Yoga Practice school is one of the two schools of Mahayana Buddhism that developed in the early centuries of the common era Though it arose in India Mahayana Buddhism now flourishes in China Tibet Korea Vietnam and Japan While the other major Mahayana tradition the Madhyamaka Middle Way focuses on the concept of emptiness that all phenomena lack an intrinsic essence the Yogacara school focuses on the cognitive processes whereby we impute such essences Through everyday examples and analogues in cognitive science author William Waldron makes Yogacara's core teachings on the three turnings of the Dharma wheel the three natures the storehouse consciousness and mere perception accessible to a broad audience In contrast to the common characterization of Yogacara as philosophical idealism Waldron presents Yogacara Buddhism on its own terms as a coherent system of ideas and practices with dependent arising its guiding principle The first half of Making Sense of Mind Only explores the historical context for Yogacara's development Waldron examines early Buddhist texts that show how our affective and cognitive processes shape the way objects and worlds appear to us and how we erroneously grasp onto them as essentially real perpetuating the habits that bind us to samsara He then analyzes the early Madhyamaka critique of essences This context sets the stage for the book's second half an examination of how Yogacara texts such as the Samdhinirmocana Sutra and Asanga's Stages of Yogic Practice Yogacarabhumi build upon these earlier ideas by arguing that our constructive processes also occur unconsciously Not only do we collectively yet mostly unknowingly construct shared realities or cultures our shared worlds are also mediated through the storehouse consciousness alayavijana functioning as a cultural unconscious Vasubandhu's Twenty Verses argues that we can learn to recognize such objects and worlds as mere perceptions vijaptimatra and thereby abandon our enchantment with the products of our own cognitive processes Finally Maitreya's Distinguishing Phenomena from Their Ultimate Nature Dharmadharmatavibhanga elegantly lays out the Mahayana path to this transformation In Waldron's hands Yogacara is no

mere view but a practical system of transformation His presentation of its key texts and ideas illuminates how religion can remain urgent and vital in our scientific and pluralistic age
