How Slavoj Became Žižek Eliran Bar-El, 2023-01-12 An engrossing account of the meteoric rise of contemporary philosophy's most contentious and prolific intellectual Slovenian philosopher bad boy Slavoj Žižek is one of the most famous intellectuals of our time publishing at a breakneck speed and lecturing around the world With his unmistakable speaking style and set of mannerisms that have made him ripe material for internet humor and meme culture he is recognizable to a wide spectrum of fans and detractors But how did an intellectual from a remote Eastern European country come to such popular notoriety In *How Slavoj Became Žižek* sociologist Eliran Bar-El plumbs the emergence popularization and development of this phenomenon called Žižek Beginning with Žižek's early years as a thinker and political figure in Slovenian civil society Bar-El traces Žižek's rise from Marxist philosopher to a political candidate to eventual intellectual celebrity as Žižek perfects his unique performative style and a rhetorical arsenal of Hegelianesque Following 9/11 Žižek's career as a global op-ed writer and TV commentator married his rhetoric with global events such as the War on Terror the financial crisis of 2008 and the Arab Spring of 2011 Yet at the same time this mainstream popularity as well as a series of politically incorrect views almost entirely estranged the Slovenian from the normal workings of academia Ultimately this account shows how Žižek harnessed the power of the digital era in his own self-fashioning as a public intellectual

Utopia in the Age of Survival S. D. Chrostowska, 2021-10-19 A pathbreaking exploration of the fate of utopia in our troubled times this book shows how the historically intertwined endeavors of utopia and critique might be leveraged in response to humanity's looming existential challenges *Utopia in the Age of Survival* makes the case that critical social theory needs to reinstate utopia as a speculative myth At the same time the left must reassume utopia as an action guiding hypothesis that is as something still possible S. D. Chrostowska looks to the vibrant visionary mid-century resurgence of embodied utopian longings and projections in Surrealism the Situationist International and critical theorists writing in their wake reconstructing utopia's link to survival through to the earliest most radical phase of the French environmental movement Survival emerges as the organizing concept for a variety of democratic political forms that center the corporeality of desire in social movements contesting the expanding management of life by state institutions across the globe Vigilant and timely balancing fine-tuned analysis with broad historical overview to map the utopian impulse across contemporary cultural and

political life Chrostowska issues an urgent report on the vitality of utopia

The Politics of Nihilism Nitzan Lebovic, Roy Ben-Shai, 2014-09-25 Contemporary politics is faced on the one hand with political stagnation and lack of a progressive vision on the side of formal institutional politics and on the other with various social movements that venture to challenge modern understandings of representation participation and democracy Interestingly both institutional and anti institutional sides of this antagonism tend to accuse each other of nihilism namely of mere oppositional destructiveness and failure to offer a constructive positive alternative to the status quo Nihilism seems then all engulfing In order to better understand this political situation and ourselves within it **The Politics of Nihilism** proposes a thorough theoretical examination of the concept of nihilism and its historical development followed by critical studies of Israeli politics and culture The authors show that rather than a mark of mutual opposition and despair nihilism is a fruitful category for tracing and exploring the limits of political critique rendering them less rigid and opening up a space of potentiality for thought action and creation

Crossroads in New Media, Identity and Law Wouter de Been, P. Arora, M. Hildebrandt, 2015-05-19 Crossroads in New Media Identity and Law is a compilation of essays on the nexus of new information and communication technologies cultural identity law and politics The essays provoke timely discussions on how these different spheres affect each other and co-evolve in our increasingly hyper-connected and globalized world **The Year of Dreaming Dangerously** Slavoj Žižek, 2012 Call it the year of dreaming dangerously 2011 caught the world off guard with a series of shattering events While protesters in New York Cairo London and Athens took to the streets in pursuit of emancipation obscure destructive fantasies inspired the world's racist populists in places as far apart as Hungary and Arizona achieving a horrific consummation in the actions of mass murderer Anders Breivik The subterranean work of dissatisfaction continues Rage is building and a new wave of revolts and disturbances will follow Why Because the events of 2011 augur a new political reality These are limited distorted sometimes even perverted fragments of a utopian future lying dormant in the present *The Courage of Hopelessness* Slavoj Žižek, 2018-02-06 Maverick philosopher Slavoj Žižek returns to explore today's ideological political and economic battles and asks whether radical change is possible In these troubled times even the most pessimistic diagnosis of our future ends with an uplifting hint that things might not be as bad as all that that there is light at the end of the tunnel Yet argues Slavoj Žižek it is only when we have admitted to ourselves that our situation is completely hopeless that the light at the end

of the tunnel is in fact the headlight of a train that fundamental change can be brought about Surveying the various challenges in the world today from mass migration and geopolitical tensions to terrorism the explosion of rightist populism and the emergence of new radical politics all of which in their own way express the impasses of global capitalism Žižek explores whether there still remains the possibility for genuine change Today he proposes the only true question is or should be this do we endorse the predominant acceptance of capitalism as fact of human nature or does today's capitalism contain strong enough antagonisms to prevent its infinite reproduction Can we he asks move beyond the failure of socialism and beyond the current wave of populist rage and initiate radical change before the train hits Žižek leaves no social or cultural phenomenon untheorized and is master of the counterintuitive observation The New Yorker *The Courage of Hopelessness* Slavoj Žižek, 2018-06-26 The maverick philosopher returns to explore today's ideological political and economic battles and asks whether radical change is possible In these troubled times even the most pessimistic diagnosis of our future ends with an uplifting hint that things might not be as bad as all that that there is light at the end of the tunnel Yet argues Slavoj Žižek it is only when we have admit to ourselves that our situation is completely hopeless that the light at the end of the tunnel is in fact the headlight of a train approaching us from the opposite direction that fundamental change can be brought about Surveying the various challenges in the world today from mass migration and geopolitical tensions to terrorism the explosion of rightist populism and the emergence of new radical politics all of which in their own way express the impasses of global capitalism Žižek explores whether there still remains the possibility for genuine change Today he proposes the only true question is or should be this do we endorse the predominant acceptance of capitalism as fact of human nature or does today's capitalism contain strong enough antagonisms to prevent its infinite reproduction Can we he asks move beyond the failure of socialism and beyond the current wave of populist rage and initiate radical change before the train hits Žižek is a thinker who regards nothing as outside his field the result is deeply interesting and provocative Guardian Žižek leaves no social or cultural phenomenon untheorized and is master of the counterintuitive observation New Yorker *Trouble in Paradise* Slavoj Žižek, 2014-11-27 In *Trouble in Paradise* Slavoj Žižek one of our most famous most combative philosophers explains how by drawing on the ideas of communism we can find a way out of the crisis of capitalism There is obviously trouble in the global capitalist paradise But why do we find it so difficult to imagine a way out of the crisis we're in It is as if the trouble feeds on itself the march of capitalism has become inexorable the only game in town Setting out to diagnose the condition of global capitalism the ideological constraints we are faced with in our daily lives and the bleak future promised by this system Slavoj Žižek explores the possibilities and the traps of new emancipatory struggles Drawing insights from phenomena as diverse as Gangnam Style to Marx The Dark Knight to Thatcher *Trouble in Paradise* is an incisive dissection of the world we inhabit and the new order to come The most dangerous philosopher in the West Adam Kirsch New Republic The most formidably brilliant exponent of psychoanalysis indeed of cultural theory in general to have emerged in many decades Terry Eagleton Žižek leaves

no social or cultural phenomenon untheorized and is master of the counterintuitive observation New Yorker Slavoj Žižek is a Hegelian philosopher Lacanian psychoanalyst and political activist He is international director of the Birkbeck Institute for the Humanities and the author of numerous books on dialectical materialism critique of ideology and art including *Less Than Nothing Living in the End Times First as Tragedy Then as Farce* and most recently *The Year of Dreaming Dangerously*

Slavoj Žižek Tony Myers, 2003 Tony Myers provides a clear and engaging guide to Žižek's key ideas explaining the main influences on Žižek's thought most crucially his engagement with Lacanian psychoanalysis using examples drawn from popular culture and everyday life *Against the Double Blackmail* Slavoj Žižek, 2016 How do we respond to the refugee crisis by opening our doors or pulling up the drawbridge Both solutions argues Slavoj Žižek offer ideological blackmail and both are wrong He proposes that instead we see the crisis as an opportunity a unique chance for Europe to redefine itself and its future *The Plague of Fantasies* Slavoj Žižek, 1997 Slavoj Žižek is without doubt one of the most stimulating and vibrant thinkers of our time and his idiosyncratic blend of Lacan and Hegel is always sparkling with insight and studded with amusing stories anecdotes and jokes In *The Plague of Fantasies* Žižek approaches another enormous subject with characteristic brio and provocativeness The current epoch is plagued by fantasms there is an ever intensifying antagonism between the process of ever greater abstraction of our lives whether in the form of digitalization or market relations and the deluge of pseudo concrete images which surround us Traditional critical thought would have sought to trace the roots of abstract notions in concrete social reality but today the correct procedure is the inverse from pseudo concrete imagery to the abstract process which structures our lives Ranging in his examples from national differences in toilet design to cybersex and from intellectuals responses to the Bosnian war to Robert Schumann's music Žižek explores the relations between fantasy and ideology the way in which fantasy animates enjoyment while protecting against its excesses the associations of the notion of fetishism with fantasized seduction and the ways in which digitalization and cyberspace affect the status of subjectivity To the already initiated *The Plague of Fantasies* will be a welcome reminder of why they enjoy Žižek's writing so much For new readers it will be the beginning of a long and meaningful relationship **Violence** Slavoj Žižek, 2008-07-22 Philosopher cultural critic and agent provocateur Slavoj Žižek constructs a fascinating new framework to look at the forces of violence in our world Using history philosophy books movies Lacanian psychiatry and jokes Slavoj Žižek examines the ways we perceive and misperceive violence Drawing from his unique cultural vision Žižek brings new light to the Paris riots of 2005 he questions the permissiveness of violence in philanthropy in daring terms he reflects on the powerful image and determination of contemporary terrorists *Violence* Žižek states takes three forms subjective crime terror objective racism hate speech discrimination and systemic the catastrophic effects of economic and political systems and often one form of violence blunts our ability to see the others raising complicated questions Does the advent of capitalism and indeed civilization cause more violence than it prevents Is there violence in the simple idea of the neighbour And could the appropriate form of action

against violence today simply be to contemplate to think Beginning with these and other equally contemplative questions i ek discusses the inherent violence of globalization capitalism fundamentalism and language in a work that will confirm his standing as one of our most erudite and incendiary modern thinkers
