Theatres Film Cinema Imagines Stage:

Screened Stages Rachel Joseph, 2024-02-28 This book is devoted to tracing the variety of ways that theatre theatricality and performance are embedded in Hollywood cinema as screened stages A screened stage is the literal or metaphorical appearance of a stage on screen When the Hollywood style emerged in cinema history it traumatically severed the entwined relationship between film and theatre The book makes the argument that cinema longs for theatre after that separation The histories of stage and screen persistently crisscross one another making their separation problematic The screened stage from the end of the nineteenth century until now offers a miniaturized version of cinema and theatre history Moments of the stage within the screen compress historical styles and movements into saturated representations on film Such examples overflow the cinematic screen into singular manifestations of presentness Screened stages uncover what it means to be simultaneously present and absent This book would be of great interest to students and scholars of theatre film dance and performance

Ebrahimian, 2004-08-06 Because of our film oriented culture the study of cinema's potential influence on the theater has become particularly relevant When applied to the stage and space of theater film theory and aesthetics open new possibilities heightening the theater's capacity to respond to and engage with contemporary culture Director Babak Ebrahimian examines and explores the similarities and differences between cinema and theater and in doing so defines a new theater form that uses film theories and aesthetics as its foundation The book begins by locating the need for cinematic theater in contemporary image based perceptions of the real and lays out the basic form and aesthetics that make up the cinematic theater To illustrate this approach Ebrahimian
