Music Theory and Analysis in the Writings of Arnold Schoenberg (1874-1951) Norton Dudeque,2017-07-05

Arnold Schoenberg's theory of music has been much discussed but his approach to music theory needs a new historical and theoretical assessment in order to provide a clearer understanding of his contributions to music theory and analysis Norton Dudeque's achievement in this book involves the synthesis of Schoenberg's theoretical ideas from the whole of the composer's working life including material only published well after his death The book discusses Schoenberg's rejection of his German music theory heritage and past approaches to music theory pedagogy the need for looking at musical structures differently and to avoid aesthetic and stylistic issues Dudeque provides a unique understanding of the systematization of Schoenberg's tonal harmonic theory thematic motivic development theory and the links with contemporary and past music theories The book is complemented by a special section that explores the practical application of the theoretical material already discussed The focus of this section is on Schoenberg's analytical practice and the author's response to it Norton Dudeque therefore provides a comprehensive understanding of Schoenberg's thinking on tonal harmony motive and form that has hitherto not been attempted

Theoria ,2006 Hearing Homophony Megan Kaes Long,2020-04-28 In Hearing Homophony Megan Kaes Long presents a groundbreaking model for understanding tonality and its origins examining it through the lens of popular songs of late Renaissance Western Europe

Music Theory from Boethius to Zarlino David Russell Williams,C. Matthew Balensuela,2007 Music Theory from Boethius to Zarlino is a companion volume to Music Theory from Zarlino to Schenker A Bibliography and Guide by David Damschroder and David Russell Williams Harmonologia No 4 Pendragon Press Like the previous work the goal of the volume is to create a logically

organized introduction to the major theorists of the time and a thorough review of the scholarly work about these writers
 While specialists in the history of music theory may find new materials in these pages this work is primarily designed for the
 non specialist as a practical and basic introduction to the treatises people and scholarship of Medieval and Renaissance
