Theories Of Local Economic Development Linking Theory To Practice:

Theories of Local Economic Development James E. Rowe, 2016-12-05 In economic development theory and practice exist as two seemingly separate realities Academics strive to develop or refine theory by drawing on abstract concepts about the way people behave and institutions work while practitioners draw from a stock of experiences By bringing together leading theorists and practitioners such as Blakely Blair McCann Luger Gunder Stough and Stimson this book provides the first comprehensive overview of local economic development theories for over fifteen years It explores the theory behind the key concepts that every economic practitioner must understand and in doing so ties together the various theories from across the disciplines to practice [Theories of Local Economic Development](#) Richard D. Bingham, Robert Mier, 1993-08-24

Presenting state of the art theoretical positions on important development issues such as the inner city technological innovation and rebuilding economic infrastructure are explored in this volume The contributors to this volume drawn from various social science backgrounds explore a variety of theories and examine them in relation to the practical actions of local economic development **Controversies in Local Economic Development** Martin Perry, 2010-07-02 This book will discuss seven controversies in local economic development including knowledge and learning the provision of resources to nurture entrepreneurial talent innovation clusters of enterprise and inward investment *Understanding Local Economic Development* Emil Malizia, Edward J. Feser, Henry Renski, Joshua Drucker, 2020-10-05 This book offers insights into the process and the practice of local economic development Bridging the gap between theory and practice it demonstrates the relevance of theory to inform local strategic planning in the context of widespread disparities in regional economic performance The book summarizes the core theories of economic development applies each of these to professional practice and provides detailed commentary on them This updated second edition includes more recent contributions regional innovation agglomeration and dynamic theories and presents the major ideas that inform economic development strategic planning particularly in the United States and Canada The text offers theoretical insights that help explain why some regions thrive while others languish and why metropolitan economies often rise and fall over time Without theory economic developers can only do what is politically feasible This text however provides them with a logical tool for thinking about development and establishing an independent basis from which to build the local consensus needed for evidence based action undertaken in the public interest Offering valuable perspectives on both the process and the practice of local and regional economic development this book will be useful for both current and future economic developers to think more profoundly and confidently about their local economy The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license

Planning Local Economic Development Edward James Blakely,Ted K. Bradshaw,2003-04-01 Building on the success of its predecessors the Third Edition continues to explore the theories of local economic development and address the dilemmas communities face Blakely and Bradshaw investigate planning processes analytical techniques business and human resource development as well as high technology economic development strategies Theories of Local Economic Development Richard D. Bingham,Robert Mier,1993-08-25 Assembling the leading thinkers and practitioners in the field of economic development Theories of Local Economic Development places state of the art theoretical positions on such important issues as inner city development rural development technological innovation and rebuilding economic infrastructure To accomplish this task the contributors skillfully incorporate illustrative case material Chapters draw on the disciplines of economics geography regional science urban planning sociology political science and public administration The pivotal assumption behind this book is that research should and can lead to general statements about economic development As a result scholars of economics and public finance public administration political science urban studies policy studies and development studies will appreciate this invaluable

resource Bingham and Mier have compiled an interesting study of local economic development in the United States by bringing together a series of papers that review aspects of economic growth from across a range of methodological perspectives The study is to be recommended to anyone wishing to gain a general understanding of current theoretical debate in the United States to economic development and may provide readers with some useful ideas on possible methodological approaches to understanding economic development in Britain Local Government Studies The individual contributions are generally sound well written reviews of the various theories relating to their particular subject areas The study is designed to have a common theme of reviewing problems and succeeds in its aim by providing a far more consistent study than many other collections of papers The study is therefore to be recommended to anyone wishing to gain a general understanding of current theoretical debate in the United States and may provide readers with some useful ideas on possible methodological approaches to understanding economic development in Britain Local Government Studies *Planning Local Economic Development* Edward J. Blakely, 1989 *Planning Local Economic Development* addresses the dilemma that local governments and community groups face in their endeavor to improve the local economic base and increase the community's control over its own economic destiny The author describes the theories of economic development and provides the first complete analysis of development at the local level offering suggestions of how local leaders can improve the economic and employment base of their locale **Environment & Planning**, 2010 *Policy Studies Review*, 2001 Some vols include special issues *Planning Local Economic Development* Nancey Green Leigh, 2024-11-01 Author Nancey Green Leigh brings years of academic and professional experience to this classic text which offers a comprehensive look at the basic tenets of local economic development planning The book explores the theories of local economic development while addressing the issues and opportunities faced by cities towns and local entities in crafting their economic destinies within the global economy The new Seventh Edition is updated with an increased focus on sustainability and equity including local economic development issues arising from the global COVID 19 pandemic and significant shifts in the global economy *Policy Evaluation* Ray C. Rist, 1995 For governments to be successful in achieving their objectives they need to select the correct policy instruments This volume addresses the role of policy instruments in achieving policy objectives *Policy Evaluation* provides a systematic assessment of the impact that public policy evaluations have on the governance of democratic societies This book emphasises the impacts of policy evaluations on the formulation implementation and accountability functions of governments At all three phases of the policy cycle there is a need for coherent and systematic evaluation This book demonstrates how such evaluations can be conducted and the opportunities for their subsequent utilization **Community Economics** Ron Schaffer, Steven C. Deller, David W. Marcouiller, 2004-04-19 This Complete revision of Dr Shaffer's classic *Community Economics* provides readers with a comprehensive understanding of economic structure in small communities and urban neighborhoods of America Authors Shaffer Deller and Marcouiller review the

economics of smaller communities with continued emphasis on how to build and achieve theoretically sound community economic development policy The text also demonstrates how local participation and knowledge can be used to identify problems form solutions and maintain community support for long term goals The main body of economic research and literature has neglected the economics of smaller communities Community Economics Linking Theory and Practice fills that information void This text serves as a comprehensive guide on smaller open economies and urban neighborhoods for economists regional planners rural sociologists and geographers Additionally Community Economics is an issue oriented handbook of development strategies for development practitioners planning and zoning officials and others involved in the ay to day activities of community economic development **The British National Bibliography** Arthur James Wells,2009

The Charitable Impulse Ondine Barrow,Michael Jennings,2001 This book provides an account of issues facing NGO s today Each chapter a case study based on fieldwork seeks to identify and analyse the roots of problems past and present which have led to the current dilemma facing charitable organisations **Dilemmas of Urban Economic Development** Richard D. Bingham,Robert Mier,1997-04-14 Is local economic development a zero sum game How do we know that but for the incentives the development would not have occurred How important is quality of life in location decisions and local economic development Is industry targeting a viable economic development strategy This book tackles these and many other significant questions from more than one perspective Dilemmas of Urban Economic Development assesses the state of the art of the field of urban economic development Each chapter addresses a particularly pertinent issue in economic development Following each chapter are commentaries one written by an academic addressing research methodology and the other by a practitioner addressing both the question and the evidence The chapters are concluded with the author of each chapter responding directly to the issues raised by the commentators The result is a productive dialogue between academics practitioners and citizens concerned with economic development
