Turkey's Rise As An Emerging Power:

Turkey's Rise as an Emerging Power Paul Kubicek, Emel Parlar Dal, H. Tarik Oğuzlu, 2016-04-14 Turkey is emerging as an important actor in world politics exerting growing influence both in its immediate region and beyond This book aims to understand and explain this phenomenon utilizing a variety of perspectives from international relations theory One prominent issue is how Turkey long embedded in the West via NATO and other European organizations is growing more confident and is asserting more independent foreign policy positions This is particularly marked in the Middle East where some suggest Turkey is pursuing a neo Ottomanist agenda At times this competes with and creates tensions with the West However a rising Turkey can also be a constructive phenomenon and complement the West This book examines geopolitical economic and cultural dimensions of Turkey's rise pointing to both Turkish success and the limits of Turkish power and influence It includes consideration of Turkey's relations with NATO the European Union the Middle East and BRIC countries This book was published as a special issue of Turkish Studies

American Hegemony and the Rise of Emerging Powers

Salvador Santino Regilme, James Parisot, 2017-10-18 Over the last decade the United States position as the world's most powerful state has appeared increasingly unstable The US invasions of Afghanistan and Iraq non traditional security threats global economic instability the apparent spread of authoritarianism and illiberal politics together with the rise of emerging powers from the Global South have led many to predict the end of Western dominance on the global stage This book brings together scholars from international relations economics history sociology and area studies to debate the future of US leadership in the international system The book analyses the past present and future of US hegemony in key regions in the Asia Pacific Latin America Middle East Europe and Africa while also examining the dynamic interactions of US hegemony with other established rising and re emerging powers such as Russia China Japan India Turkey and South Africa American Hegemony and the Rise of Emerging Powers explores how changes in the patterns of cooperation and conflict among states regional actors and transnational non state actors have affected the rise of emerging global powers and the suggested decline of US leadership Scholars students and policy practitioners who are interested in the future of the US led international system the rise of emerging powers from the Global South and related global policy challenges will find this multidisciplinary volume an invaluable guide to the shifting position of American hegemony The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY ND 4.0 license

Turkey in Africa

Elem Eyice Tepeciklioğlu, Ali Onur Tepeciklioğlu, 2021-07-11 This book offers a comprehensive and multi disciplinary analysis of Turkey Africa relations Bringing together renowned authors to discuss various dimensions of Turkey's African engagement while casting a critical analysis on the sustainability of Turkey Africa relations this book draws upon the rising power literature to examine how Turkish foreign policy has been conceptualized and situated theoretically Moving from an examination of the multilateral dimension of

Turkey's Africa policy with a focus on soft power instruments of public diplomacy humanitarian development assistance religious activities and airline diplomacy it then illuminates the economic and military dimensions of Turkey's policy including trade relations business practices security cooperation and peacekeeping discourse Overall it shows how Turkey's African opening can be integrated into its wider interest in gaining global power status and its desire to become a strong regional power This book will be of key interest to scholars and students of Turkish foreign policy politics African politics and more broadly to international relations

Dealing with a Rising Power Svante Cornell, Gerald Knaus, Manfred Scheich, 2012-04-29 Download PDF for free from <http://martenscentre.eu/publications/dealing-rising-power-turkeys-transformation-and-its-implications-eu-turkey-s-growing-assertiveness-on-the-international-stage-difficulties-with-eu-accession-rapidly-rising-economy-and-the-long-and-controversial-reign-of-the-justice-and-development-party-akp-are-all-necessitating-a-need-for-analysis> The present study of the Centre for European Studies presents two papers which look at Turkey and the AKP from different perspectives Svante Cornell's paper argues that AKP has moved away from democratic reforms and that Turkey's zero problems with the neighbours approach to international relations has failed Gerald Knaus maintains that the AKP and the EU's influence on Turkey have effected radical changes in the balance of power between the military and civilian actors thus bringing Turkey somewhat closer to Western democratic standards Both authors advocate continued EU engagement with Turkey irrespective of the progress of accession negotiations

Brazil as a Rising Power Kai Michael Kenkel, Philip Cunliffe, 2016-01-08 This book examines the normative tensions inherent in upward mobility within the international system focusing particularly on the clash between sovereign self interest and the putatively universal norms associated with international interventions It provides extensive detail and deep analysis of Brazil's nature as a rising power and that nature's implications for how the country crafts its international profile on issues such as intervention In addition the book proposes innovative ways of re-organising thematic conceptual and empirical research on the normative behaviour of emergent powers with regard to institutions of global governance and questions of intervention In analysing what distinguishes Brazil as a rising power the contributors begin from the assumption that participation in intervention is an increasingly crucial element in demonstrating the capacity and responsibility for which demand accrues as a state seeks increased international profile As such the debates around intervention serve as an indicative locus for examining the clash of norms that accompanies emergence as a global player The book's approach is to organise the analysis around thematic rather than chronological or praxis based lines using the Brazilian case as an illustrative example capable of extrapolation to other emerging powers such as Turkey India and others This work draws together rich empirical detail with sophisticated and varied conceptual analysis and will be of interest to scholars of international relations Latin American politics and global governance

Rising Powers and Peacebuilding Charles T Call, Cedric de Coning, 2017-08-29 This book is open access under a CC BY 4.0 license This edited volume examines the policies and practices of rising powers on peacebuilding It

analyzes how and why their approaches differ from those of traditional donors and multilateral institutions The policies of the rising powers towards peacebuilding may significantly influence how the UN and others undertake peacebuilding in the future This book is an invaluable resource for practitioners policy makers researchers and students who want to understand how peacebuilding is likely to evolve over the next decades **The Rise of the GCC States and Turkey** Emad Y. Kaddorah,2021-09-24

The GCC states and Turkey have recently experienced economic growth and played influential regional roles In tandem their relationships grew significantly and Turkey was considered for a while as a strategic partner Common challenges have made them consider an alliance to balance other powers and threats However many emerging issues have turned them into rivals for regional influence on divergent agendas during the last decade All in all their relations are dynamic and rapidly changing Some regional crises were subjects of political agreement and coordination in their early stages such as the cases in Libya Syria and Yemen However this agreement has diminished and sometimes turned into conflict Iran s policies have also led to its change from being a factor of agreement to a factor of difference On the other hand some tensions which were major causes of escalation were resolved or eased such as the Gulf crisis and the contest over Egypt These relations affected the whole region as well as the great powers involved there Therefore this book studies the commonalities between the GCC states and Turkey and analyzes their differences All parties expressed their desire to restore cooperation despite continuing competition on some regional issues The book proposes some ideas that can be considered to make convergence possible again **Turkey's Pivot to the African Continent** Elem Eyryce

Tepeciklioğlu,Francois Vreÿ,Bahar Baser,2024-07-08 The book provides a comprehensive and long term assessment of Turkey s evolving role in Africa at different levels ranging from political to economic cultural and military ties It engage with discussions surrounding Turkey s strengths and weaknesses in its foreign policies targeting African countries Rather than taking policy discourses for granted the chapters in this volume unpack the overall effectiveness of Turkey s Africa strategy on the ground Starting with an analysis of Turkey s role conception as a centre country the book continues with an examination of the impact of Turkey s embassies on trade with Africa It also provides insights into the statements accomplishments and the effectiveness of Turkey s summit diplomacy with the continent exploring the intricacies of resource control in its Africa policy beyond the conventional soft hard power binary The book delves into its humanitarian assistance during the Covid 19 pandemic uncovers the maritime nexus in Turkey s African agenda examines its arms exports to Africa and elucidates the nature of these transactions It offers a nuanced understanding of Turkey s growing engagement in the continent making it an essential read for the scholars researchers policy makers and anyone intrigued by the dynamic interplay between Turkey and African countries This book will be useful for students researchers and scholars of politics and international relations broadly and particularly relevant for anyone interested in Turkish foreign policy and politics African politics and Eurasian geopolitics The chapters in this book were originally published as a special issue of the Journal of

Balkan and Near Eastern Studies **Vocabularies of International Relations after the Crisis in Ukraine** Andrey Makarychev, Alexandra Yatsyk, 2016-10-26 The conflict in Ukraine and Russia's annexation of Crimea has undoubtedly been a pivotal moment for policy makers and military planners in Europe and beyond. Many analysts see an unexpected character in the conflict and expect negative reverberations and a long lasting period of turbulence and uncertainty, the delegitimation of international institutions and a declining role for global norms and rules. Did these events bring substantial correctives and modifications to the extant conceptualization of International Relations? Does the conflict significantly alter previous assumptions and foster a new academic vocabulary or does it confirm the validity of well established schools of thought in international relations? Has the crisis in Ukraine confirmed the vitality and academic vigour of conventional concepts? These questions are the starting points for this book, covering conceptualisations from rationalist to reflectivist and from quantitative to qualitative. Most contributors agree that many of the old concepts such as multi polarity, spheres of influence, sovereignty or even containment are still cognitively valid yet believe the eruption of the crisis means that they are now used in different contexts and thus infused with different meanings. It is these multiple conceptual languages that the volume puts at the centre of its analysis. This text will be of great interest to students and scholars studying international relations, politics and Russian and Ukrainian studies.

Theoretical Approaches to Turkish Foreign Policy Paul Kubicek, 2023-08-22 This volume with contributions from well respected experts on Turkey examines how well different theories and frameworks in international relations explain various aspects of contemporary Turkish foreign policy (TFP). Exploring the value of both structural neorealist and ideational constructivist approaches, the book's theory informed case studies on the features of TFP including Neo Ottomanism, the role of religion and Turkey's relations with the European Union, the Middle East, Russia and the United States provide an analytical perspective on developments that have captured the attention of both academics and policymakers. More importantly, this collection examines the shift in Turkey's foreign policy stance from Western and secular non sectarian to Islamist, Turkist, Neo Ottomanist and Eurasianist orientations. With Turkey assuming importance across a number of regions and issues, this book will be a great resource for academics, researchers and advanced students of Middle East Studies and Politics and International Relations. This book was originally published as a special issue of the journal Turkish Studies.
