Naples 1925 Martin Mittelmeier, 2024-11-12 The untold story of how the volcanic landscape surrounding Naples influenced a crucial moment in

twentieth century intellectual history In the 1920s the Gulf of Naples was a magnet for European intellectuals in search of places as yet untouched by modernity Among the revolutionaries artists and thinkers drawn to Naples were numerous scholars at a formative stage in their journeys Walter Benjamin Siegfried Kracauer Alfred Sohn Rethel Asja Lacis Theodor W Adorno and many others While all were indelibly shaped by the volcanic Neapolitan landscape it was Benjamin who first probed the relationship between the porous landscape and the local culture But Adorno went further transforming his surroundings into a radical new philosophy one that became a turning point in the modern history of the discipline In this ingenious book Martin Mittelmeier reveals the Gulf of Naples as the true birthplace of the Frankfurt School From the majestic crater rim of Mount Vesuvius to the soft volcanic rock that Neapolitans used to build their city Mittelmeier follows Adorno's and his fellow thinkers footsteps through the cities along the gulf demonstrating how their observations and encounters surface again and again in their writings for decades to come and serve as the structuring principle of Critical Theory

« Aurore » de Nietzsche David Simonin, 2024-10-21 Nietzsche's campaign against morality began with *Daybreak Thoughts on the Prejudices of Morality* a major book that still remains underappreciated This monograph explores the structure and coherence of *Daybreak* in order to highlight its philosophical ambition namely to explore the real effects of illusory representations and beliefs that are so deeply rooted in human nature and culture This task involves not only deconstructing many prejudices but even more so establishing the very logic underlying them Only a careful examination of the psychological physiological and social mechanisms underlying this logic of prejudice will enable us to correctly evaluate its consequences and scope
