Meeting the Challenges to Measurement in an Era of Accountability Henry Braun,2016-01-29 Under pressure and support from the federal government states have increasingly turned to indicators based on student test scores to evaluate teachers and schools as well as students themselves The focus thus far has been on test scores in those subject areas where there is a sequence of consecutive tests such as in mathematics or English language arts with a focus on grades 4 8 Teachers in these subject areas however constitute less than thirty percent of the teacher workforce in a district Comparatively little has been written about the measurement of achievement in the other grades and subjects This volume seeks to remedy this imbalance by focusing on the assessment of student achievement in a broad range of grade levels and subject areas with particular attention to their use in the evaluation of teachers and schools in all It addresses traditional end of course tests as well as alternative measures such as portfolios exhibitions and student learning objectives In each case issues related to design and development psychometric considerations and validity challenges are covered from both a generic and a content specific

White, 2016-03-31 Memorializing Pearl Harbor examines the challenge of representing history at the site of the attack that brought America into World War II Analyzing moments in which history is re presented in commemorative events documentary films museum design and educational programming Geoffrey M White shows that the memorial to the Pearl Harbor bombing is not a fixed or singular institution Rather it has become a site in which many histories are performed validated and challenged In addition to valorizing military service and sacrifice the memorial has become a place where Japanese veterans have come to seek recognition and reconciliation where Japanese Americans have sought to correct narratives of racial mistrust and where Native Hawaiians have challenged their ongoing erasure from their own land Drawing on extended ethnographic fieldwork White maps these struggles onto larger controversies about public history museum practices and national memory
